This proceeding shall: (1) allow PEF to present evidence and testimony in support of its petition for a determination of need for its proposed nuclear power plants; (2) permit any intervenors to present testimony and exhibits concerning this matter; (3) permit members of the public who are not parties to the need determination proceeding the

opportunity to present testimony concerning this matter; and (4) allow for such other purposes as the Commission may deem appropriate.

The proceedings will be governed by the provisions of Chapter 120, F.S., Section 403.519, F.S., and Chapters 25-22 and 25-106, Florida Administrative Code (F.A.C.).

Under Section 403.519, F.S., the Commission is the sole forum for the determination of need for the proposed nuclear power plants. In making its determination, the Commission must take into account the need for electric system reliability and integrity, the need for fuel diversity, the need for base-load generating capacity, the need for adequate electricity at a reasonable cost, and whether the proposed plants will provide the most cost-effective source of power. In addition, the Commission must expressly consider any renewable energy sources and technologies or conservation measures taken by or reasonably available to PEF which might mitigate the need for the plants. The Commission may consider other matters within its jurisdiction which it deems relevant. The Commission's determination of need for the proposed plants shall create a presumption of public need and necessity and shall serve as the Commission's report required by subsection 403.507(2)(a)2, F.S. An order entered by the Commission pursuant to this hearing shall constitute final agency action.

Only issues relating to the need for the proposed nuclear power plants will be heard at this hearing. Separate public hearings will be held before the Division of Administrative Hearings at a later date to consider environmental and other impacts of the proposed plants and associated facilities.

Members of the public who are not parties to the need determination proceeding will have an opportunity to present testimony regarding the need for the proposed plants. All members of the public who wish to offer testimony should be present at the beginning of the hearing, 9:30 a.m., Wednesday, May 21, 2008. All witnesses will be sworn in and will be subject to cross-examination at the conclusion of their testimony. By providing public testimony, a person does not become a party to the proceeding. Anyone wishing to become a party to this need determination proceeding should file an appropriate petition pursuant to Rule 25-22.039, F.A.C., with the Office of the Commission Clerk at the address listed below. Copies of the petition should be sent by mail to all parties. Those wishing to intervene in these proceedings, unless appearing on their own behalf, must be represented by an attorney or other person who can be determined to be a qualified representative pursuant to Chapter 120, F.S., and Rule 28-106.106, F.A.C. Petitions for leave to intervene must be filed at least five (5) days before the final hearing, must conform with Rule 28-106.201(2), F.A.C., and must include allegations sufficient to demonstrate that the intervenor is entitled to participate in the proceeding as a matter of constitutional or statutory right or pursuant to Commission rule, or that the
