RE: Docket No. 080183-WU, Joint Application for approval of transfer of Tamiami Village Water Company, Inc.'s water system and Certificate No. 388-W in Lee County to Ni Florida, LLC

Dear Ms. Daniel:

Ni Florida, LLC (Ni Florida) is pleased to submit the following response to your letter dated May 7, 2008, in which you advised that Ni Florida's transfer application was not deficient, and requested additional information.

1. Purchase Price. The three generally accepted methods to evaluate the market value of a business are 1) the Replacement Cost Method, (2) Historical Cost, and (3) the Income Approach. Depending on the age of the system, Ni Florida evaluates its acquisitions using a combination of the Income and Cost approaches to determine what price it will pay for a system. Rate base has not been established in over 10 years, therefore items that have been expensed for tax purposes may need to be reviewed to determine if they should have been more appropriately capitalized from a regulatory perspective. More importantly, Tamiami's water distribution system was built in the early 1980's, and as such, is close to being fully depreciated.

As a result we believe that the current rate base does not reflect an accurate market value for the utility. This suggests that an income statement approach is a more appropriate method to price the system. Water revenue for 2007 was \$208,744. Tamiami recently implemented an indexed rate increase. Projected revenue with current rates for the twelve months after acquisition is approximately \$245,000. Using the projected future revenues as a basis, Tamiami's utility assets would be acquired at approximately 3 times revenue, which is not inconsistent for utility acquisitions in the state by the Florida Governmental Utility Authority (FGUA) and others.

In addition, Ni Florida found the Tamiami system attractive because:

- a. It is an older system that most likely will need and benefit from future capital improvements. Ni Florida is committed to providing the highest possible service and pledges to maintain the system at or above its current standards.
- b. Our due diligence suggests that some of the customers would welcome experienced, professional service and management of the system, which we are committed to provide.
- c. We believe the system is located in an attractive area of the state with future growth potential and Ni Florida is currently in acquisition negotiations with other companies in the Fort Myers area.
- d. The system is easy to operate and has existing reasonable rates.

As noted in our application, Ni Florida does not, at this time, seek an acquisition adjustment to rate base or expenses as a result of its payment of the agreed-upon purchase price to Tamami for acquisition of its water distribution system.

2. Financial Ability. As of April 30, 2008, Ni Capital Management, LLC (Ni Management) has approximately \$14,000,000 of cash available for investment and operational purposes (see Exhibit A). Ni Florida acquired the assets of Hudson Utilities, Inc. on May 5, 2008, for approximately \$5.6 million; leaving \$8.4 million to support future operations and investment. Ni Management is majority owned by a private equity firm named MetalMark Capital LLC (MetalMark). MetalMark receives its funds from institutional investors and has numerous investments in several different industries. As a result, it is MetalMark's policy not to provide financial information on itself or any of its other investments; nor does MetalMark get involved in the day-to-day financial or operational management of its companies. Having said that, all potential investments by Ni Management are reviewed in great detail by MetalMark. All issues relating to the proposed acquisition are evaluated before MetalMark commits to an acquisition, including but not limited to: (1) rates and potential revenue, (2) future capital expenditures, (3) operations, and (4) existing rate base. Ni Management is currently working under an existing funding agreement with MetalMark that provides for future contributions far in excess of the money currently being held by Ni Management. While we are not at liberty to disclose such commitment, we are confident that Ni Management will continue to receive additional contributions on an as needed basis for the foreseeable future. MetalMark also receives monthly financials and receives ongoing operations updates via regularly scheduled board meetings.

- Technical Ability. The 19 employees of Ni Management have over 162 years of experience 3. managing and operating water and wastewater utilities, and over 73 years of other utility experience, for a combined total in excess of 235 years. Ni Florida has selected Florida Utility Group Holdings, LLC ("FUGH") as its contract operator for Tamiami Village Water Company, Inc. FUGH operates more than 120 water and wastewater systems, serving approximately 47,200 customers throughout Florida, and is experienced and knowledgeable regarding compliance with Florida regulatory requirements. The utilities operated range in size from 50 to 1,500 connections per system. See Exhibit B for Ni Management Experience and FUGH organizational charts.
- 4. Territory Map. Ni Florida will provide the Commission with a copy of any territory map it receives from the seller. Further, Ni Florida will provide the Commission with any particular territory map the Commission requests within 180 days of the close of this transaction. However, if substantial information is not available from the seller, current estimates from our surveyor suggest that a metes and bounds map of the service area could cost in excess of \$15,000. While Ni Florida is happy to assist the Commission, it remains cautious due to the substantial cost to create some territory maps. Ni Florida requests the Commission keep cost under consideration when making its request in order to prevent these costs from being passed on to the customer via future rate proceedings.
- 5. Regulatory Assessment Fees. As you requested, the seller's pro-rata share of the 2008 RAFs will be made payable to the Commission at the closing and Ni Florida will forward such payment to the Commission with notification that the sale has closed.

If the Commission has any further questions or comments in reference to this matter please contact me at (713) 574-7755.

Sincerely,

Ed Wallace President

Ni Florida, LLC
