Subject: Docket # 080366 Protest

I am emailing to file a protest about my electric bill being raised yet again. This is the docket # given to me when I called your 800 number. This time last year my bill averaged about \$200 a month. This months bill is \$343 and the rates are going to be raised again at the end of the month. It is getting to the point of do I buy food to feed my family or pay my electric bill. I don't know how people are expected to keep paying higher and higher prices for everything and no one is getting any more pay to keep up.

Thank you, Kathleen Bagy Marianna, FL 32446
