Re: Amended 2008 Competitive Local Exchange Carrier (CLEC) Questionnaire

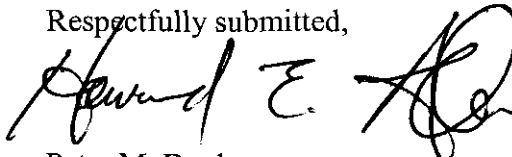

Dear Ms. Cole:

Pursuant to conversations held with Mr. Vic Cordiano, tw telecom of florida, l.p., after internal discussions, states that it does not currently offer VoIP service as defined by the Federal Communications Commission. tw telecom of florida, l.p. does not offer any nomadic VoIP or application type VoIP service such as that offered by Vonage or cable companies offering VoIP.

Time Warner Telecom does offer IP trunks for customers who have an IP PBX, but these services would be classified and counted as tw telecom of florida, l.p. classifies its traditional PBX trunks. Accordingly, tw telecom of florida, l.p. hereby amends its filing of April 15, 2008 and amends the answers provided on question 11. Please see the enclosed questionnaire. Pursuant to our original request, please note that tw telecom has also filed a separate request to keep other matters in this questionnaire confidential. Please see the attached letter requesting confidential status of this amended filing.

Please let me know if you have any questions concerning this matter.

Respectfully submitted,

  
Peter M. Dunbar  
Howard E. Adams  
Attorney for tw telecom of florida, l.p.
