III. Description of the Transaction

ITI and DSI have entered into an Asset Purchase Agreement and Plan of Asset Transfer dated March 16, 2010 (the "Asset Purchase Agreement"). Pursuant to the terms of the Asset Purchase Agreement, DSI will purchase substantially all of ITI's assets used in the operation of the Business, and DSI will assume certain liabilities of ITI in connection therewith. The expected date of closing is June 15, 2010; however, the closing is subject to obtaining all necessary state and federal approvals of the Transaction.

The Transaction will ensure continuity of service to the prison system and its inmates. Since the Business involves only the provision and operation of payphones, and of managed calling services originating from payphones, the transfer of the Business will not entail any change in any end user's local exchange service or presubscribed toll service, and the parties who make and receive calls through the Business's managed calling services form an ever-changing group as the prison population changes. Accordingly, no notification of customers making use of the managed telecommunications services is necessary or practical. ITI is not retaining any customers. Personnel of the correctional facilities are being notified of the Transaction and of the assignment or novation of contracts entailed in the Transaction.

The proposed Transaction will not entail any transfer of certifications or changes in the ownership or corporate structure of either DSI or ITI.

IV. Public Interest Analysis

DSI submits that the proposed Transaction will serve the public interest.

Approval of the Transaction is in the public interest because it will advance economic efficiency by enabling DSI to expand its own business and achieve economies of scale. These benefits are expected to strengthen DSI's ability to expand its offerings and services to a broader customer base. It is expected that the Transaction will enable DSI to strengthen its competitive position to the benefit of consumers and the telecommunications marketplace.

Further, as described above and because of the nature of this particular customer base, the Transaction will be conducted in a manner that will be transparent to customers of ITI. Following consummation of the transaction, DSI will provide high-quality communications services to ITI customers without interruption and without immediate change in rates, terms or conditions.

Finally, the proposed transfer of assets will be seamless and transparent to ITI's customers, and in no event will it result in the discontinuance, reduction, loss, or impairment of service to customers.

I have also enclosed an extra copy of this letter to be date stamped and returned to me in the enclosed, overnight envelope.

If you have any questions or if I may provide you with additional information, please do not hesitate to contact me. Thank you.

Respectfully submitted,
