Ms. Argenziano I was sorry to read you leaving the PSC commission. My only hope is you will continue in politics. Florida needs people like you. Mr. Skop, I am very upset, but not surprised concerning the story in today's Palm Beach Post concerning FPL asking courts to eliminate you from discussions concerning them. You along with Ms. Argenziano, Mr. Klement and Stevens were a credit to the PSC and the residents of Florida. The cartoon below should read FPL laid off 25 Congressmen. Thought you would enjoy the ?cartoon.

Commissioner Nathan Skop

September 21, 2010

Dear Mr. Skop,

I just want to say Thank you so much for taking on the fight against FPL and the raising of their rates. If it hadn't been for the articles in The Palm Beach Post, in connection with the Florida Public Service Commission, I would not have known who to email about my costly complaint that has occurred to me by FPL.

They have given me some credits and feel that I should be pleased. They still don't understand why I'm so upset, the large bills, but the Most important thing is it's Not in their ,FPL Policy to notify a person When their bill shows a very large power surge, which is what has happened to me. I won't go into my problems, but I do want you to know I'm a senior citizen on a fixed small income. I feel I've been taken advantage of by FPL, as one knows we have to have Electricity.

Thank you and the Commission again. It's too bad we don't have More ladies and men like all of you that are in a position to help out and do the right thing, with the economy in the condition it's In. It's sad and frightening that we still have corporations who don't care about their customers, just their money.

Oh yes, I've got to see if a government agency can assist me in trying to make these extra payments, when I feel it's FPL's fault.

I have a case number, which is 0967853E .

Sincerely,

Marcia J. Varney

Importance: High

To All Commissioners,

With regards to the actions of FPL towards Nathan Skop, you *all* have need to be concerned and must take action to stop FPL towards achieving their end - which is having Commissioner Skop removed from all future FPL hearings.

Such an action would set a precedent that would provide FPL unmitigated control over all of your actions and to the detriment of the ratepayers that you are there to serve.

FPL has proven that it has taken questionable actions before and if this action is successful against Commissioner Skop, then all of you are endangered as well as your successors.

Please take whatever measures you can to ensure that FPL does not succeed in it's quest.

The repercussions are just too dangerous.

Very truly yours,
Linda M. Drake

Ann,

Mr. Andrew Traylor, PA, of Miami, phone (305)668-6090, called our office at 9:32 AM today and left a message that he wanted to discuss with Commissioner Skop a "new matter" of importance related to FPL. I returned his call. Mr. Traylor indicated that he wanted to discuss with Commissioner Skop a class action lawsuit regarding Florida Power and Light's "Building Envelope Program". He said the lawsuit in question is titled "FEO versus Douglas Roofing, Inc. and FPL". He described the "Building Envelope Program" as an energy savings measure utilized on 4,711 roofs, a type of "cool roof cooling program". He indicated that a central concern was whether the program was in compliance with locally enforced state building codes. I explained that the program in question may be part of a docketed matter, the Energy Conservation Cost Recovery Clause, identified as Docket No. 100002-EI, and in consideration of Florida Statutes, the Commissioner could not communicate with him regarding the matter except through filings made to the docket or in noticed meetings for the docket. He thanked me and we concluded the conversation, with no discussion of any necessary follow-up communication to or from our office.

After the phone call, I checked the filings in Docket No. 100002-EI and 100155-EI (FPL's DSM Plans) and was able to confirm for myself that FPL does in fact still offer a residential and commercial "Building Envelope Program" as one of its conservation programs included in the dockets.

Could you please place this e-mail in the correspondence side of Docket Nos. 100002-EI and 100155-EI?

Thank You,
 Bill

Dear Commissioner Skop,

It seems I am continually upset with the news in the Palm Beach Post concerning you and FPL, and the latest story on 9/14/2010, which I have enclosed for you to read. I don't have the words to express my gratitude to you for all you have done, and tried to do for the consumers who have no choice but to use FPL.

There was a list of senators and representatives who make up the nominating committee, and I have written them all and expressed my dissatisfaction with them and of course have not heard back from any of them. I have no doubt that FPL have these people in their pockets, and care more about "taking care" of them than the public. What upsets me more is the consumer who won't or can't get involved beyond talking about how high their electric bill is while standing around the water cooler. These fools, in my opinion, will get what they deserve when you and Ms. Argenziano complete your term in January. As for the politicians hopefully they will get what they deserve come November. You take care of yourself, sir. And again "Thank you"

FPL turns up heat on PSC member

By **SUSAN SALISBURY**

Palm Beach Post Staff Writer

Updated: 7:59 p.m. Monday, Sept. 13, 2010

Posted: 7:49 p.m. Monday, Sept. 13, 2010

In its battle to bar outgoing Florida Public Service Commissioner Nathan Skop from dealing with any of its issues, Florida Power & Light Co. pulled out all the stops Monday, seeking to prevent Skop from participating in a PSC hearing today.

The Juno Beach-based company filed additional motions with the Tallahassee-based 1st District Court of Appeal and the PSC on Monday in its latest attempt to keep him out of its business.

Late Monday the PSC deferred FPL's portion of today's hearing until Sept. 28.

The PSC, including Skop, is still expected to discuss other utility companies' energy-saving programs.

"Our goal is to stop him from participating in FPL matters," Barry Richard, a Tallahassee attorney representing FPL, said Monday.

FPL officials said in court filings that in the past year Skop has become increasingly hostile toward the company, and that his antagonistic behavior has been reserved for FPL. The company contends Skop is no longer fair and impartial.

Skop, 43, whose term ends Jan. 1, did not respond to a request for comment Monday.

In January, Skop and four other commissioners unanimously voted to reject FPL's proposed \$1.2 billion rate increase. The company was granted a \$75.5 million increase. Skop has stated that FPL "owns state government," and accused it of "spin" and "selective disclosure," and accused FPL's counsel of "misrepresentations," according to court filings.

Richard filed an emergency motion for a stay Monday, asking the 1st District Court of Appeal to stop Skop from hearing any FPL matters. On Sept. 2, FPL filed a motion with the PSC asking Skop to disqualify himself from involvement in any FPL issues.

At a nuclear cost hearing a week ago, Skop said the motion was moot because it was not issued far enough in advance of the hearing and did not cite the appropriate statute.

Skop's refusal to disqualify himself set off a series of court filings by FPL attorneys, including one that asks the court to force Skop to rule on the disqualification motion.

Friday, the appellate court gave Skop until Thursday to respond as to why FPL's petitions should not be granted.

The company's recent settlement of its rate case, and 10 other FPL issues are pending before the PSC this year.

Subject: Call In Comments from FPL Customer

Ann,

Mr. Larry Kraatz of Vero Beach (721 Timber Ridge Trail) called the Office of Commissioner Skop at 9:20 AM today to express his displeasure regarding FPL filings designed to remove Commissioner Skop from FPL-related dockets. He stated he was very concerned about FPL's attempts to silence Commissioner Skop, their "mafiosa tactics", their attempts to increase rates. He stated Commissioner Skop's input should be valued despite having voted against FPL. Mr. Kraatz stated he supports the appointment to the utility board of any advocate who supports people's rights.

Thank you for taken on F.P.L. and representing the hard working families in Florida. In the past it always been F.P.L. who has been dictating to the consumers and it's nice to finally see a commissioner who is standing up for the people of Florida! The amount of electricity that needs to be generated today is getting to be less and less. With all the "Green" lighting, Appliances, Motors, A.C. units, etc.... our electric bill should be decreasing each year when in fact it is constantly on the rise. I've never seen so many excuses for increases. Make them open their books for the consumer to see. It would be in the best interest of the consumers. I look out my back window and see several old Electric poles that are rotted, and they claim that they have strengthened the electrical grid. Please keep on them and don't back down!

Thank You for your Fine Job as Commissioner.

Chris

Dear Mr. Skop. I just wanted to thank you on behalf of all Florida FPL customers. It's an outrage that FPL can be so brazen and open about trying to silence you, with not one word of support from your colleagues on the commission. Are they all bought and paid for by FPL? And where are our elected officials who are supposed to be looking out for us against a monopoly company which continues to be caught in lie after lie regarding costs and rates. Although I'm only one angry customer, I would like to help in any way I can. Who else is on our side? I live in a gated community in St Lucie county and I have hundreds of email addresses throughout the state. I will forward any communication or actions to them. Thanks again for standing with us. Patrick Mahoney, 1571 SE Ballantrae Ct. Port St Lucie Fl.34952. 772 337 2681.

6 April 2010

Dear Commissioners,

This proposal should not be approved as it stands. The reason being I and fellow renters and condo owners cannot in the majority of cases CAN NOT and are NOT allowed to install any of the items mentioned below. Therefore we could not receive ~~any~~ ^{and} rebates in this program. Therefore we would be charged for the benefit of others. I should think this would be illegal unless we would be exempted.

FPL: Monthly bills could go up

The utility may need to offset the cost of energy conservation programs:

By SUSAN SALISBURY
Palm Beach Post Staff Writer

JUNO BEACH — Meeting state-mandated energy conservation goals could cost the typical 1,000 kilowatt-hour Florida Power & Light Co. customer an additional \$2 to \$3 a month, the company said today.

That money would pay for the rebates customers could receive for everything from installing a solar water heater to having air-conditioning systems tuned up.

conservation programs is billed as one of the company's "cost recovery clauses" and is not part of the company's base rate, FPL spokesman Mayco Villafana said Wednesday.

The Florida Public Service Commission is requiring the utility to save 1,498 megawatts in reduced energy demand over the next 10 years.

In addition, the commission's order requires expenditures for solar pilot programs of up to \$15.5 million annually.

"The PSC-mandated goals will have an impact on customer bills. If programs that we are proposing to meet the PSC's mandate are approved, typical FPL residential customers will see an increase

\$3 per month to cover the cost. The exact amount varies throughout the 2010-2019 time period but based on our proposed plan, the increase should not exceed \$3 over the current typical bill," Villafana said.

FPL has proposed continuing 18 existing conservation programs and starting 12 new ones.

The commission must approve the plan and also could make changes to it before it takes effect.

The 134-page plan recommends continuing residential incentive programs for air-conditioning replacement, roof and ceiling insulation, reflective roof measures, duct system test and repair, and

Among the new programs proposed to begin if the plan is approved are window sunscreens and refrigerator replacement.

"For nearly three decades in partnership with our customers, FPL has managed one of the most successful energy efficiency programs in the nation, and we aim to continue leading the way," Villafana said.

If the programs are approved and customers participate widely, resulting in reduced electricity sales, the company would need to recover the lost revenue through a base rate increase. No base rate increase is proposed at this point, Villafana said.

Respectfully,
James J. Goetz
