

Table 1: Traditional Retail Switched Access Lines on a Voice-Grade Equivalent (VGE) Basis

Company Name: Beth Communications, Inc.
 Company Code: 19206

100000-0T

THIS TABLE IS TO ONLY CAPTURE TRADITIONAL RETAIL SWITCHED ACCESS LINES. DO NOT INCLUDE LINES REPORTED IN TABLE 2.

Complete Table 1 if you provided your telephone service to Florida and want data on all voice-grade equivalent (VGE) lines of fixed wireless VGE elements. See FCC Form 477 instructions and instructions for Line A-F and complete that table accordingly. Each VGE is a VGE and corresponding data must be reported in a separate row. Please indicate from that table the name of the VGE. Do not report double access lines or any high-speed services offered between two locations of the same kind (e.g., IP or VoIP communication). This table is a grid that lists the last two of LAs. Each cell in the table must be completed. If you have no lines for an LGA in any of the columns in this table, you must enter a zero. Rows should be included as percentages. Please provide data as of December 31, 2009.

REDACTED

A. Voice technology service reported to and served by the LGA	B. Total lines and channels reported to and served	C. Percentages of lines and wireless channels reported in (B)											
		D. Total VGE lines and VGE channels in service		E. Available for use (not in use)		F. Available for use (not in use) - other than VGE		G. Available for use (not in use) - other than VGE		H. Available for use (not in use) - other than VGE		I. Available for use (not in use) - other than VGE
