Table 1: Traditional Retail Switched Access Lines on a Voice-Grade Equivalent (VGE) Basis

Company Name: Qwest Communications Company, LLC

Redacted

Company Code\*: TX273

\*Your Company code is shown on the label affixed to the envelope in which this was mailed and on the cover letter.

THIS TABLE IS TO ONLY CAPTURE TRADITIONAL RETAIL SWITCHED ACCESS LINES. DO NOT INCLUDE LINES REPORTED IN TABLE 5.

Complete Table 1 if you provided voice telephone service to Florida end users via one or more voice-grade equivalent (VGE) lines or fixed wireless VGE channels. See FCC Form 477 definitions and instructions for Line A.II and complete this table accordingly.

Each NPA-NXX and corresponding data must be entered in a separate row. Please do not combine lines that have the same NPA-NXX.

Do not report special access lines or any high capacity connections between two locations of the same end user, ISP, or telecommunications carrier.

Please include a grand total row in the last row of data. Each cell in the table must be populated. If you have no lines for an exchange in any of the various line types, you must enter a zero. Numbers should be formatted as percentages.

Please provide data as of December 31, 2009.

**Company Name: Qwest Communications Company, LLC**

**Company Code\*: TX273**

\* Your Company code is shown on the label affixed to the envelope in which this was mailed and on the cover letter.

**THIS TABLE IS TO ONLY CAPTURE RESOLD LINES PROVIDED TO UNAFFILIATED TELECOMMUNICATIONS CARRIERS.**

Complete Table 2 if you provided one or more *voice-grade equivalent (VGE)* lines or fixed wireless *VGE* channels to *unaffiliated* telecommunications carriers, including those under *commercial* agreements, to enable the *unaffiliated* carriers to provide *voice telephone service* to Florida end users. See FCC Form 477 definitions and instructions for *Line B.II-2* and *Line B.II-3* and complete this table accordingly, except that you should *not* report any UNE-Ps in this table.

Each **NPA-NXX** and corresponding data must be entered in a separate row.  
Please combine lines that have the same **NPA-NXX**.

Report all lines and channels under *resale* arrangements with *unaffiliated* carriers, including *other resale* arrangements under *commercial* agreements that replace, or substitute for, UNE arrangements or line-sharing. However, do *not* report any Local Platform (formerly known as UNE-P) loops in this table, as those should be reported in Table 4. Examples of *other resale* arrangements also include *Centrex/Centron* or *Special Access* service to enable the *unaffiliated* carriers to provide *local* telephone service to their end users. However, do *not* report special access lines or any high-capacity connections *between two locations of the same* end user, ISP or telecommunications carrier.

**Table 5: VoIP Access Lines on a Voice-Grade Equivalent (VGE) Basis**

**Company Name: Qwest Communications Company, LLC**

**Company Code\*: TX273**

\* Your Company code is shown on the label affixed to the envelope in which this was mailed and on the cover letter.

**THIS TABLE IS TO ONLY CAPTURE VoIP LINES. DO NOT INCLUDE LINES REPORTED IN TABLE 1.**

Complete Table 5 if you provided VoIP service to Florida end users via one or more voice-grade equivalent (VGE) lines or wireless VGE channels.

An access line connects the end user's customer premises equipment (CPE) to the serving switch and allows the end user to originate and/or terminate local telephone calls on the public switched telephone network (PSTN). The access line counts in Table 5 below must be based on all of your different types of access lines (including fixed wireless) that are used to provide VoIP service.

Each field must be populated. All entries must be made without quotation marks.

**TABLE COLUMN INSTRUCTIONS:**

Column (a). Reported NPA-NXX data should not be based on secondary service locations (i.e., where service has been moved temporarily to a secondary location such as a vacation home).

Each NPA-NXX and corresponding data must be entered in a separate row. Please combine lines that have the same NPA-NXX.

Column (b). Enter the abbreviation Res for Residential lines or Bus for Business lines. Residential lines and business lines must be entered in separate rows.

Column (c). Enter line count as voice-grade equivalents (VGEs). Report VGEs based on how the customer is billed. If the customer is billed for a dynamic bandwidth VoIP product, the line count would be the maximum number of VoIP lines available. If the customer is billed for a specific number of VoIP lines, or a range of lines, the VoIP line count would be the number of VoIP lines or the highest number of the range, respectively. Each line count must be entered in separate rows.

**Please provide data as of December 31, 2009.**

(a)	(b)	(c)
NPA-NXX i.e., (850-413)	Res or Bus	Total VGE Lines

Please Note: Consistent with a Staff question and Qwest's responses in 2009, Qwest points out that the number reported in the recent FCC 477 report refers to VoIP "sessions" rather than customers or lines. Since each VoIP line can have multiple sessions, the number of sessions may not match the numbers reported in this Florida table.

## Part I.A: Broadband - Other Wireline

In Part I.A, report connections (wired "lines") to end users that you (including affiliates) equipped to enable the end user to receive information from and send information to the Internet at information transfer rates exceeding 200 kbps in both directions. Report only in-service connections. The end user's Internet access service may be provided by you (including affiliates) or by an unaffiliated entity. For purposes of Part I.A, Internet Service Providers (ISPs) are not end users. Categorize the connection based on the technology employed by the part of the connection that terminates at the end user location. (Do not report anywhere in Form 477 any high-capacity connections between two locations of the same end user customer, ISP or communications carrier.)

# REDACTED VERSION

Notes specific to Other Wireline: This category includes all copper wire-based technologies other than DSL, T-1, and T-3. Examples of other wireline technologies include T-1 and T-3.

Break down the total connections reported in (1) to show the non-zero number in each of the following speed tiers. If the number of connections in a particular speed tier is zero, leave that data cell blank.

Connections reported in **EACH** data cell below must equal the sum of Other Wireline connections reported in Part VI by Census Tract, for that information transfer rate category, and the sum of **ALL** data cells below must equal the total connections reported in (1).

### Part II.B: Interconnected VoIP Service

If you report end user subscriptions in (1) and/or (2), you must also complete Part V of Form 477.

**Reporting by State:** Subscriptions reported in (1) must be reported in the state of the subscriber's "Registered Location" as of the data-collection date. (This is the most recent information obtained by an interconnected VoIP service provider that identifies the physical location of the end user. See 47 C.F.R. Â§ 9.3.) Subscriptions reported in (2) must be reported in the same state as the broadband connection purchased in conjunction with the VoIP service.

**Reporting subscriptions in (1) and (2):** Count one subscription for each end user (retail customer) who subscribes to this service. If the customer pays for the ability to make multiple simultaneous calls from a single location, then count the maximum number of calls that can be active at one time. In general, VoIP service to a business retail customer will be counted as more than one subscription.

**Reporting wholesale customers in (3):** Count the number of companies who purchase your VoIP components or service and resell them, as part of their own VoIP service, to end users or other wholesalers in this state.

Part VI: Zip Code Information -- Local Voice Telephone Service and Interconnected VoIP

If you reported local exchange telephone lines in service to your end user customers, in Part II.A (1), or VoIP subscriptions that end users purchased from you, in Part II.B (1) or (2), you must list the 5-digit ZIP Codes in the state in which you had end user customers. Do not include any ZIP Codes in which you offered your local exchange telephone or VoIP service but had no end user customers, and do not include any out-of-state ZIP Codes.

Type all five digit ZIP codes in the following text box, separated by either commas, spaces, or carriage returns:
