

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

---

In re: Energy conservation cost recovery  
clause.

Docket No. 100002-EG

---

Submitted for Filing: May 18, 2010

**AFFIDAVIT OF GLENN DOOLEY IN SUPPORT OF  
PROGRESS ENERGY FLORIDA'S  
REQUEST FOR CONFIDENTIAL CLASSIFICATION**

STATE OF FLORIDA

COUNTY OF PINELLAS

BEFORE ME, the undersigned authority duly authorized to administer oaths, personally appeared Glenn S. Dooley, who being first duly sworn, on oath deposes and says that:

1. My name is Glenn S. Dooley. I am over the age of 18 years old and I have been authorized by Progress Energy Florida (hereinafter "PEF" or the "Company") to give this affidavit in the above-styled proceeding on PEF's behalf and in support of PEF's Request for Confidential Classification. The facts attested to in my affidavit are based upon my personal knowledge.

2. I am the Director of Energy Control in the Transmission Operations and Planning Department. This section is responsible for PEF's power grid system and the computer system that the transmission system uses for control.

FPSC-COMMISSION CLERK

3. As the Director of Energy Control, I am responsible for the continuous operation of PEF's power grid system, security of the transmission grid, and compliance with FERC Critical Infrastructure Protection Standards, and FERC standards of conduct.

4. In this Request for Confidential Classification, PEF is seeking confidential classification for portions of its responses to OPC'S First Request for Production of Documents (Nos. 1-3) in Docket 100002-EG. The detailed description of the confidential information at issue is outlined in PEF's Justification Matrix that is attached to PEF's Request for Confidential Classification as Exhibit C.

5. Portions of PEF's attachments to its response to OPC's First Request for Production, Question Nos. 1-3, specifically questions 1 and 2, contain proprietary confidential business information of PEF. The documents also contain transmission-related information that may not be shared with PEF's Regulated Commercial Operations or others engaged in merchant functions under FERC Standards of Conduct and FERC Orders 889, 889-A, 2004, and 2004-A. Furthermore, portions of the documents relate to the operation of PEF's transmission system, the security of which is protected under FERC Critical Infrastructure Protection Standards.

6. With respect to the information at issue in this request, PEF has kept confidential and has not publicly disclosed information related to the operation of PEF's transmission system. PEF is responsible for ensuring comprehensive compliance with FERC's Standards of Conduct and FERC Critical Infrastructure Protection Standards. Absent such protection measures, PEF's transmission system could be compromised. In addition, PEF's marketing employees and non-affiliates could receive preferential treatment with regard to transmission service. Without PEF's measures to maintain the

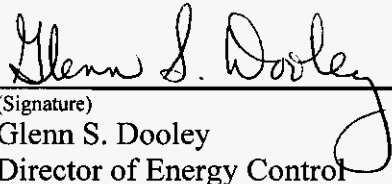

confidentiality of sensitive transmission system information, the Company's transmission system could be compromised, PEF employees and non-affiliates could receive preferential treatment, and PEF would be subject to FERC violations.

7. Strict procedures are established and followed to maintain the confidentiality of the transmission system documents and information, including restricting access to those persons who need the information to assist the Company, and restricting the number of, and access to the information. At no time has the Company publicly disclosed transmission system policies or procedures relating to transmission security or transmission services. The Company has treated and continues to treat the information and contracts at issue as confidential.

8. This concludes my affidavit.

Further affiant sayeth not.

Dated the 17<sup>th</sup> day of May, 2010.
