\_\_\_\_\_ )

Docket No. 100310-TL  
Filed: May 28, 2010

**PETITION FOR EXPEDITED REVIEW OF GROWTH CODE DENIAL**

BellSouth Telecommunications, Inc. d/b/a AT&T Florida ("AT&T Florida"), pursuant to 47 C.F.R. § 52.15(g)(iv), Federal Communications Commission ("FCC") Order FCC 00-104, and Florida Public Service Commission ("Commission") Order No. PSC-01-1873-PCO-TL, petitions the Commission to review the Pooling Administrator's ("NeuStar") denial of AT&T Florida's request for additional numbering resources in the West Palm Beach exchange. In support of this petition, AT&T Florida states:

**PARTIES**

1. AT&T Florida is a corporation organized and formed under the laws of the State of Georgia authorized to provide local exchange telecommunications and intraLATA toll telecommunications in the State of Florida.

2. NeuStar is an independent non-governmental entity, which is responsible for administering and managing the numbering resources in pooling areas. See 47 C.F.R. § 52.20(d).

**JURISDICTION**

3. The Commission has jurisdiction of this matter pursuant to Industry Numbering Committees (INC) Number Pooling Guidelines Sections 3.7 and 12(c). This provision provides that a carrier may challenge NeuStar's decision to deny numbering resources to the appropriate regulatory authority.

DOCUMENT NUMBER: 04493  
DATE: MAY 28 2010  
FPSC-COMMISSION OFFICE

## BACKGROUND AND REQUEST FOR RELIEF

4. The West Palm Beach exchange consists of seven (7) central offices and eight (8) switching entities that utilize numbering resources: Gardens (WPBHFLGRDS0), Greenacres (WPBHFLGADS0), Haverhill (WPBHFLHHDS0 and WPBHFLHHR0), Lake Worth (WPBHFLLEDS0), Main Annex (WPBHFLANDS0), Riviera Beach (WPBHFLRBRPO), and Royal Palm Beach (WPBHFLRPDS0).

5. On May 17, 2010, AT&T Florida requested additional numbering resources from NeuStar for the Riviera Beach (WPBHFLGRDS0) switch. See Attachment 1. Specifically, AT&T Florida requested a full NXX to establish a test code for its new remote switch that will be replacing the IAESS switch in Riviera Beach. The code will be returned approximately 1 year after it is effective. In order to properly test the switch and since the host switch is a tandem switch and there is no NPA/NXX assigned to it, AT&T Florida needs an unused NPA NXX. Moreover, AT&T Florida is unable to use a donated block from another switch since the new switch needs a home code assigned to it.

6. At the time of the code request, the West Palm Beach exchange had a MTE of 71.45 and a utilization of 66.63%, while the Riviera Beach (WPBHFLRBRPO) switch had a MTE of 151.01.

7. On May 17, 2010, NeuStar's automated number request system denied AT&T Florida's request for additional numbering resources because AT&T Florida had not met the utilization based criteria. See Attachment 1. Pursuant to Commission Order No. PSC-01-1973-PCO-TL, attached to this Petition is the MTE and utilization rate for

each switch in the West Palm Beach exchange and contact information for the person requesting the additional numbering resources. See Attachment 2.

8. As discussed above, both the FCC Order and the INC guidelines provide that state regulatory authorities have the power and authority to review NeuStar's decision to deny a request for numbering resources. See INC Number Pooling Guidelines Sections 3.7 and 12(c).

9. Under earlier MTE procedures used by NANPA, waivers or exceptions were granted when customer hardships could be demonstrated or when the service provider's inventory did not have a block of sequential numbers large enough to meet the customer's specific request. Under existing procedures, NeuStar nor NANPA looks at the number of MTE and utilization for the entire rate center without exception. The current process is arbitrary and results in (1) decisions contrary to the public interest and welfare of consumers in the State of Florida; and (2) decisions that do not necessarily promote the efficient use of telephone numbers.

10. AT&T Florida requests that the Commission reverse NeuStar's decision to withhold numbering resources from AT&T Florida on the following grounds:

(a) NeuStar's denial of numbering resources to AT&T Florida interferes with AT&T Florida's ability to serve its customers within the State of Florida.

(b) The MTE at the rate center level requirement is discriminatory against the incumbent ILEC, since the ILEC is typically the only local service provider with multiple switches in a rate center. The ILEC deploys multiple switches in a rate center in order to meet customer demand for telephone service. The FCC's rules for obtaining numbering resources both penalizes and discriminates against the ILECs for deploying multiple

switches. AT&T Florida believes that it is patently unfair to require that the ILEC only get six (6) MTE in all the switches it has deployed in a rate center, when CLECs have to meet the MTE requirement in only the single switch that they have deployed to serve their customers in a single rate center or even multiple rate centers.

WHEREFORE, AT&T Florida requests:

1. The Commission review the decision of NeuStar to deny AT&T Florida's request for additional numbering resources for the West Palm Beach exchange; and
2. The Commission direct NeuStar to provide the requested numbering resources for the West Palm Beach exchange as discussed above.

Respectfully submitted this 28th day of May, 2010.
