Case Background

On July 16, 2009, Progress Energy Florida, Inc. (PEF or Company) filed a petition requesting approval of a contract for the purchase of firm capacity and energy between PEF and Florida Biomass Energy, LLC (FB Energy). The contract is based on FB Energy constructing, owning, and operating a fluidized bed boiler power production generating qualifying facility located in Manatee County, Florida. The facility will use a waste wood and energy crop as its primary fuel to produce approximately 60 megawatts of electricity during a contract term beginning January 1, 2013, through December 31, 2032.

The Commission approved the proposed contract at its December 1, 2009, Agenda Conference, and subsequently issued Order No. PSC-09-0852-PAA-EQ on December 30, 2009,
