Re: Docket No. 110200-WU - Application for increase in water rates in Franklin County by Water Management Services, Inc.

Dear Mr. Brown:

We have reviewed the revised minimum filing requirements (MFRs) submitted on January 9, 2012, on behalf of Water Management Services, Inc. (WMSI or Utility). After reviewing this information, we find the MFRs to still be deficient. The specific deficiencies are identified below:

1. Regarding MFR Schedule E-14, Billing Analysis Schedules: The Utility is required to provide a billing analysis for each class of service by meter size. If a rate change occurred during the test year, provide a billing analysis which coincides with each period.
 - (a) The total billing analysis for each class of service by meter size was not provided in E-14. Please provide a separate billing analysis for each of the rate classes.
2. Test year gallons sold in Schedule E-2 do not match the test year gallons sold in Schedule E-14. Please provide the number of gallons sold in E-2 based on the information in E-14.
3. Regarding MFR Schedule E-2, page 4 of 4, rates effective 09/20/10-12/31/10 do not match the tariff sheets on file with the Commission.

If any above corrections require a corresponding change to any other MFR schedules, those corrected schedules must also be submitted. Your petition will not be deemed filed until
