In re: Nuclear Power Plant Cost
Recovery Clause

Docket No. 120009-EI
Submitted for Filing: March 1, 2012

**AFFIDAVIT OF DARYL O'CAIN IN SUPPORT OF PROGRESS ENERGY FLORIDA,
INC.'S FIRST REQUEST FOR CONFIDENTIAL CLASSIFICATION REGARDING
PORTIONS OF THE TESTIMONIES AND EXHIBITS FILED AS PART OF THE
COMPANY'S MARCH 1, 2012 TRUE-UP FILING**

STATE OF NORTH CAROLINA

COUNTY OF WAKE

BEFORE ME, the undersigned authority duly authorized to administer oaths, personally appeared Daryl O'Cain, who being first duly sworn, on oath deposes and says that:

1. My name is Daryl O'Cain. I am employed by Progress Energy Carolinas ("PEC") in the capacity of Director -- New Generation Programs and Projects Financial Services. I am over the age of 18 years old and I have been authorized by Progress Energy Florida, Inc. ("PEF" or the "Company") to give this affidavit in the above-styled proceeding on PEF's behalf and in support of PEF's First Request for Confidential Classification Regarding Portions of the Testimonies and Exhibits filed as Part of the Company's March 1, 2012 True-up Filing (the "Request"). The facts attested to in my affidavit are based upon my personal knowledge.

2. PEF is seeking confidential classification of the following materials filed with the Florida Public Service Commission ("PSC" or the "Commission") in this above referenced docket: (1) portions of the testimony and the exhibits, the Nuclear Filing Requirements ("NFRs"), of Mr. Will Garrett and (2) portions of my testimony.

3. Unredacted versions of the testimonies, exhibits, and Petition at issue are contained in confidential Appendix A to PEF's Request and the confidential portions thereof are outlined in PEF's Justification Matrix that is attached to PEF's Request as Appendix C. PEF is

requesting confidential classification of the portions of the testimonies and exhibits that contain confidential contractual information regarding the purchase of goods and services necessary to complete the Levy Nuclear Project (“LNP”), the disclosure of which would compromise PEF’s competitive business interests.

4. Certain portions of the testimonies and exhibits contain contractual quantities, durations, and pricing arrangements between PEF and providers of various equipment and services required for the LNP, including information related to the Engineering, Procurement, and Construction contract (“EPC Agreement”) with Westinghouse, Shaw, Stone & Webster (the “Consortium”) as well as cost numbers and information relating to negotiations with the Consortium and its vendors and decisions regarding disposition of items of Long Lead Equipment (“LLE”) for the LNP. This information would adversely impact PEF’s competitive business interests if disclosed to the public. The Company must be able to assure these vendors that sensitive business information, such as the pricing and quantity terms of their contracts, will be kept confidential. Indeed, most of the contracts at issue contain confidentiality provisions that prohibit the disclosure of the terms of the contract to third parties. Specifically, the information at issue relates to competitively negotiated contractual data, such as quantity and pricing of goods and services and other contractual terms such as the agreements’ duration, the disclosure of which would impair the efforts of the Company to negotiate these contracts on favorable terms. If third parties were made aware of confidential contractual terms that the Company has with other parties, they may offer PEF less competitive contractual terms in future contractual negotiations. Without PEF’s measures to maintain the confidentiality of sensitive terms in contracts between PEF and these nuclear contractors, the Company’s efforts to obtain competitive contracts for the LNP would be undermined.

5. As stated above, most of the contracts at issue contain confidentiality provisions; therefore, PEF is requesting confidential classification of this information to avoid public

disclosure that would violate the confidentiality agreements between PEF and the other parties. PEF has kept confidential and has not publicly disclosed the proprietary contract terms and provisions at issue here. Absent such measures, PEF would run the risk that sensitive business information regarding what the Company is willing to pay for necessary equipment, goods and supplies would be made available to the public and, as a result, other potential sellers of similar materials and services could change their position in their negotiations to the detriment of PEF. In addition, by the terms of these contracts, all parties thereto - including PEF - have agreed to protect proprietary and confidential information, which is defined to include the pricing provisions, from public disclosure.

6. Upon receipt of this confidential information, as with all confidential information, strict procedures are established and followed to maintain the confidentiality of the terms of the documents and information provided therein. Such procedures include, but are not limited to, restricting access to the documents and information to only those persons who require it to assist the Company. At no time since developing or entering the contracts in question has PEF publicly disclosed the contracts' terms; PEF has treated and continues to treat the information contained in the subject contracts as confidential.

7. This concludes my affidavit.

Further affiant sayeth not.

Dated this 24 day of FEBRUARY, 2012.
