Good afternoon Lisa,

I'm reviewing the pdf files on closed dockets and came up with this DN on a missing pdf report.

Kim's CMS notation (below) says the file is unavailable on line, since the redacted version contains confidential information. Since the docket is now closed, would it appropriate to return this to the source? If so, we'd need a memorandum instructing us to do so. I am giving the redacted-confidential paper document to Marguerite to secure, pending further instructions.

Marguerite, we'll want to correct Kim's note; strike the second sentence. It can't be confidential and public at the same time.

Thanks, Ann
