I just reviewed the actual petition, the title the Utility proposed is: In re: Analysis of Utilities, Inc.'s Financial Accounting and Customer Service Computer System.

Let's go with this title for the generic docket

finally, while rates will not change initially as a result of this proceeding, it will be on a hearing tract

Bart is correct on the progmod

I'll have to defer to you regarding the company codes

finally, while the title proposed by the Utility is somewhat lengthy, I'm not opposed to using it for the generic docket

Will update the progmod to A1d.

I'll have to recheck about that WS709, it brings up Lake Placid Utilities, Inc. I'll get back after checking with Hong and Nonnye.

Good afternoon, Matilda.

I defer to Andrew on the wording of the docket title; he is on annual leave this afternoon. Because this generic docket will address a potential creation of a regulatory asset or liability and rates will not change, the progmod should be A1d. With regard to your list of company codes, all are correct; however, please note that the company code of WS709 is for "Lake Placid Utilities, Inc." not "Lake Utilities, Inc."

*Corrected
ok, was*

Thanks,
Bart Fletcher

Docket No. 120161-WS has been established to address -- Petition for establishment of generic docket to address impact of divested systems on recovery of the cost of financial accounting and customer service computer system, by Utilities, Inc.

The petition referred to several dockets that has the progmod of A1a.

I thought this may be along the similar line of a test year. Please let me know if this docket progmod is correct, or needs correcting to a progmod that would fit it.

Also, on page 1 of the Petition list the subsidiaries of Utilities, Inc., below is the list I have in "Utilities" of the new docket. I need to know if the list I have is correct to what the Petition is requesting. I come up with 18 company codes.

If you want the title of the docket reworded, give me what you think is best.

Let me know by email so it can be fixed.

Thank you for your help.
