Re: Docket No. 120007-EI - Preliminary List of New Projects

Dear Ms. Cole:

At this time, Gulf Power has no new proposed projects to report that would impact the 2013 ECRC factors other than new proposed projects already discussed in the Company's previous ECRC filings.

Gulf is continuing its efforts to evaluate potential Mercury and Air Toxics Standards (MATS) compliance options. For MATS compliance, Gulf Power's generating plants may require additional controls such as a baghouse and/or sorbent injection. Gulf is currently planning to make decisions regarding its MATS strategy in the August-September timeframe.

Sincerely,

A handwritten signature in cursive script that reads "Terry A. Davis".
