Yes, I did add the progmod A20f, and the "with modification".

Okay, I'll try to remember this. Also, prog mod should be added, not replaced - that is, this is an adoption AND an amendment.

Hi Jeff,

Per this e-mail, we will update the docket title and change the prog mod to A20f. Please remember that changes to docket titles and prog mods should not be added to CASR revisions. They go to two separate locations in the Clerk's Office. In order for that information to be handled quickly and accurately, an e-mail request needs to come to Matilda with a cc to me, not Tiffany Williams. Thank you for your help.

It looks like two of the changes I requested haven't been made: The CASR was also intended to update the docket title to include "with modifications" and add the program module/submodule A20(f).

Subject: Docket No. 120255-TP

I filed a CASR revision on 11/9/2012 for the above docket and was wondering if it has been processed yet.
