Re: FPSC Docket No. 120275-EI – Petition of Curtis Brown

Dear Ms. Cole:

We wanted to update the Commission on Tampa Electric's progress toward making its Energy Planner Program available for application at Mr. Brown's multi-family residence. Tampa Electric is in the final stages of implementing and testing software and other technological changes to enable it to adapt its Energy Planner Program beyond single family residences. The company is hopeful of completing these efforts before the end of the first quarter of 2013. The company wants to insure that the adaptation of the Energy Planner Program to accommodate multi-family residences is error free. As soon as that can be verified, Mr. Brown will be the first customer contacted to make the program available.

Sincerely,

James D. Beasley
