**BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION**

In re: Petition of Verizon Florida LLC for )  
Expedited Review of NeuStar's Denial )  
of Application for Numbering Resources )

Docket No. 130162-JL  
Filed: June 12, 2013

**PETITION OF VERIZON FLORIDA LLC FOR EXPEDITED REVIEW OF  
NEUSTAR'S DENIAL OF APPLICATION FOR NUMBERING RESOURCES**

Verizon Florida LLC (Verizon) requests that the Commission review the Pooling Administrator's denial of Verizon's application for two consecutive Thousand Blocks of telephone numbers (Thousand Blocks) in the Tampa North, Florida rate center, overturn that decision, and order that two consecutive Thousand Blocks be assigned to Verizon. In support of this Petition Verizon states:

**PARTIES**

1. Verizon is a local exchange telecommunications company that provides local exchange service and exchange access service in Florida.
2. NeuStar is an independent non-governmental entity that is responsible for administering and managing the numbering resources in pooling areas. See 47 C.F.R. § 52.20(d).

**JURISDICTION**

3. The Commission has jurisdiction of this matter under Section 364.16(7), Florida Statutes.

**BACKGROUND AND REQUEST FOR RELIEF**

4. A large business customer that uses a direct inward dialing (DID) arrangement has requested that Verizon provide 2,000 consecutive numbers in the 813 NPA in the Tampa North rate center so the customer can address

expected growth. A confidential copy of the customer's letter explaining the circumstances is attached as Confidential Exhibit 1.

5. Because Verizon does not have 2,000 consecutive numbers in its inventory, it applied on June 4, 2013 to the Pooling Administrator, NeuStar, for two consecutive Thousand Blocks in the North Tampa rate center. Verizon's application is attached as Exhibit 2.

6. NeuStar denied Verizon's request on the same day it was submitted. The request was denied because Verizon did not meet the two FCC criteria that NeuStar applies, even though Verizon does not have the numbering resources needed to satisfy its customer's request. Specifically, Tampa North rate center's months-to-exhaust calculation was longer than six months and its number utilization of 70.94% was under the FCC's 75% threshold. The Months-to-Exhaust and Utilization Worksheet is attached as Confidential Exhibit 3. NeuStar's denial of Verizon's application is attached as Exhibit 4.

7. The FCC has delegated authority to the Commission to address NeuStar's denial of a request for numbering resources stating that "[w]e agree. . . that a safety valve mechanism should be established, and we delegate authority to state commissions to hear claims that a safety valve should be applied when the . . . Pooling Administrator denies a specific request for numbering resources."<sup>1</sup> Moreover, the FCC has determined that "a carrier should be able to get additional numbering resources when there is a verifiable need due to the

carrier's inability to satisfy a specific customer request." Specifically, states "may grant requests for customers seeking contiguous blocks of numbers."<sup>2</sup>

8. Based on this authority, the Commission has issued a number of orders addressing denials by NeuStar that release numbering resources to meet specific customer needs. For example, the Commission ordered NeuStar to provide CenturyLink with numbering resources to meet the service requirements of a customer that requested 5,000 consecutive numbers, even though CenturyLink had been unable to satisfy the months-to-exhaust or utilization criteria.<sup>3</sup>

9. NeuStar's denial of sufficient numbering resources to Verizon to meet its customer's request is inconsistent with the FCC's position that "[u]nder no circumstances should consumers be precluded from receiving telecommunications services of their choice from providers of their choice for want of numbering resources."<sup>4</sup> By refusing to grant numbering resources sufficient to meet the needs of Verizon's customer, NeuStar is preventing this customer from obtaining the service it wants from the carrier of its choice.

10. Verizon's request for two consecutive Thousand Blocks to meet its customer's request fits squarely within the framework established by the FCC for "safety valve" requests that the Commission is authorized to grant. Verizon respectfully requests that the Commission direct NeuStar to assign two

Thousand Blocks for the North Tampa rate center so that Verizon can satisfy its customer's request.

WHEREFORE, Verizon respectfully requests that the Commission review NeuStar's decision to deny Verizon's request for additional numbering resources, overturn that decision, and direct NeuStar to assign Verizon two Thousand Blocks in the North Tampa rate center.

Respectfully submitted on June 12, 2013.
