**BACKGROUND**

On March 29, 2013, the Utility filed an application with the Florida Public Service Commission ("Commission") for increased water and wastewater rates, fees and charges for its customers in Orange, Pasco, Pinellas and Seminole Counties, Florida. The application was assigned Docket No. 120209-WS and May 29, 2013, was established as the official date of filing.

The Utility is requesting a rate increase because the existing rates do not provide sufficient revenues to cover the required expenses of operations on a going-forward basis and a fair return on the Utility's investment in used and useful property for the public use. The rate of return on equity requested in this proceeding is 10.36%. The overall return requested (the weighted cost of debt and equity) is 7.29%. According to the Utility's books, Utilities, Inc. of Florida states that its current overall rate of return without a rate increase is negative. The Utility has requested a permanent revenue increase for its water system of \$39,734 or 34.30%. The requested increase would produce annual revenues of \$155,592 for its water system.

The Company's last rate proceeding and review of rate base was in Docket No. 090462-WS, utilizing a test year ending December 31, 2008, which culminated in Order No. PSC-10-0585-PAA-WS, issued September 22, 2010.

The Utility has incurred substantial additional operating costs and capital investment. Copies of the MFRs, the Rate Case Synopsis, and the Utility's application will be available for inspection at the following locations:

**APPLICATION FOR INCREASE IN WATER AND WASTEWATER RATES IN MARION,  
ORANGE, PASCO, PINELLAS AND SEMINOLE COUNTIES, FLORIDA  
BY UTILITIES, INC. OF FLORIDA**

**DATED: June 28, 2013**

**BACKGROUND**

On March 29, 2013, the Utility filed an application with the Florida Public Service Commission ("Commission") for increased water and wastewater rates, fees and charges for its customers in Orange, Pasco, Pinellas and Seminole Counties, Florida. The application was assigned Docket No. 120209-WS and May 29, 2013, was established as the official date of filing.

The Utility is requesting a rate increase because the existing rates do not provide sufficient revenues to cover the required expenses of operations on a going-forward basis and a fair return on the Utility's investment in used and useful property for the public use. The rate of return on equity requested in this proceeding is 10.36%. The overall return requested (the weighted cost of debt and equity) is 7.81%. According to the Utility's books, Utilities, Inc. of Florida states that its current overall rate of return without a rate increase is 2.52%. The Utility has requested a permanent revenue increase for its water system of \$74,734 or 71.17%. The requested increase would produce annual revenues of \$179,736 for its water system.

The Company's last rate proceeding and review of rate base was in Docket No. 090462-WS, utilizing a test year ending December 31, 2008, which culminated in Order No. PSC-10-0585-PAA-WS, issued September 22, 2010.
