Re: Docket No. 130194-WS - Lakeside Waterworks, Inc
Docket #05882 dated 1015/14

Dear Sirs:

In response to Document # 05882 referenced above, I join with other customers to clear up a misunderstanding regarding scheduling a meeting with US Water to discuss water quality. The customers expressed a desire to meet with them in mid-November after a majority of the utility customers returned to Florida. At no time were any of the customers negligent in scheduling such a meeting, nor should they have been deemed unwilling to do so. Customers who were not available to attend the September meeting have concerns and comments.

The reference by US Water that the Homeowners' Association failed to schedule a meeting is erroneous in that the Homeowners' Association is NOT a customer of the utility. It was concerned customers who expressed a desire for a meeting.

Linda J. McKenna

Subject: Docket 130194-WS / Interested Person

Good afternoon, Ms. McKenna,

Per your telephone request today, you have been added to the mailing list as an interested person in Docket No. 130194-WS. Please note that this contact information is public record and will be available on internet searches.

As an interested person, you will receive e-mail notification of all notices for prehearing and hearing, proposed agency action orders, final orders, and notices of Commission Conference. If you are interested in receiving documents other than those listed (for example, procedural orders), please contact staff counsel for instructions on becoming a party of record. The telephone number for our General Counsel's Office is 850.413.6199.

Should you have any changes or wish to have your information removed from the docket file, please direct those requests to clerk@psc.state.fl.us.

Thank you,

Carlotta S. Stauffer

RE: Docket No. 130194-WS- Application for staff-assisted rate case in Lake County, Lakeside Waterworks, Inc. - RAI dated 03/17/14

Below are the answers to the questions posed to Lakeside Waterworks, Inc. (LWWI) in letter dated March 17, 2014. Answers will correspond with the numbering used in the letter received from Mr. Murphy:

1.a. Service of Previous Owners: Previous owners of Shangri-La By The Lake Utilities, Inc., desired to sell the utility and discontinue responsibility of its operation.

1.b. Contractual Management Services: LWWI does not contract out the management of the utility system. We have reached out to local and national companies in relation to Operations, Preventive Maintenance and Billing/Collections/Customer Service. Those we did contact were not capable or interested in providing the required services to such an O&M/CS Contract. Please see attached responses to request for quotes regarding the same contract structure requested for the LP Waterworks, Inc. utility system in most recent past.

2.a. Benefit to Customers: The Owner's of LWWI and the Owner's of U.S. Water Services Corporation (USW) have been in the utility management and operations business for many years. During this tenure, the focus on safety, reliability, compliance and maintenance of a system has become paramount to providing the most cost effective, long-term benefits to customers. By way of the Operating and Customer Services Contracts, USW brings a multispecialty approach to the services provided with in-house engineers, compliance specialist, treatment diagnosticians, and localized maintenance staff that can attend to, monitor and troubleshoot the system quickly. As the FPSC staff has been made aware, this utility system is in need of improvements to insure continued reliable function which is being treated as a priority under LWWI ownership. The system was secondary consideration to the previous owners and the magnitude of preventive or prescriptive maintenance was minimal, with more of a crisis-maintenance approach – if it breaks, then fix it.

2.b. Economies of Scale: As mentioned above, by way of the Operating and Customer Services Contracts, USW brings a multispecialty approach to the services provided with in-house engineers, compliance specialist, treatment diagnosticians, and localized maintenance staff that can attend to,

meal" approach by the utility, would be unaffordable and therefore not accessible to an entity this size – though such a concerted focus is the most effective approach to Utility Operations. In addition, USW maintains equipment and specialized Staff throughout the state, that if the situation arose whereby a complex emergency required immediate attention, the USW staff would be readily available for containment and restoration of service.

3. Additional Cost to Utility:

Outside Professional Services such as Accounting and Legal as Needed
PSC RAF Fees
Extraordinary Sampling Events

4.a. & b. Please see attached Benchmark Study provided by the Wetcon Organization; undertaken throughout the Southeast at the request of the Florida Governmental Utility Authority (FGUA) in relation to USW contract costs to provide O&M/CS to FGUA utility systems. In addition, a spreadsheet is included indicating the cost per account for the LWVI in comparison.

5.a & b. Please see 4.1 & b.

6. Lakeside Waterworks, Inc. is established as an independent entity. No sibling, or parent/child, entity relationships exist. Three of the four shareholders of LWVI are also three of the six shareholders of the independent entity of U.S. Water Services Corporation.

We hope the information and attachments provided are helpful to the FPSC. Should additional information be required, please do not hesitate to contact me.

Respectfully,

Gary A. Deremer, President
Lakeside Waterworks, Inc.

New Port Richey, FL 34652

SUBJECT: LP Waterworks Operations and Maintenance

Dear Mr. Bliss:

I would like to thank you for the opportunity for Severn Trent Services to provide a proposal for the operations and maintenance of your LP Waterworks utility. Following our review of the draft contract and the scope of services, we have determined that the size of this project does not meet our business model. In addition, considering the location of the facility, it would not be cost effective for Severn Trent to pursue this opportunity.

Thank you for considering Severn Trent for this project.

Sincerely,

A handwritten signature in black ink, appearing to read "Richard G. Gardner".

Re: Document No. 130194-WS.

May 18, 2014

Dear Sirs or Madame's,

I am presently a home owner in a mobile home park that has the misfortune to have to ask the PSC to consider moving the meeting date of the scheduled meeting from July 24th, 2014 to a date in October. The original meeting date has moved at least 3 maybe 4 times (without giving a reason). I know there was a reason, but I was not advised of it. The reason for this change is that it will allow the majority of water users to hear the rates being requested are 300% of the current rates in person. There are many of the homeowners who spend their summers in a more pleasant temperature further north. To ask for a vote for such a drastic increase in rates without having a majority of everyone affected present would be like "taxation without representation".

When we were addressed "in the beginning" by the CEO of Lakeside Water Company, or his representative, the estimated end fees after a cursory inspection, would be twice (200%) of the current fees. This rate increase being considered (300%) is truly outside the box. This is a retirement community with fairly fixed income that was established many years in the past. We hope the "PSC" will look at the increase being considered, not being acceptable to the public being affected.

Yours Respectfully,

Resident Homeowner,

Shangri La By The Lake Mobile Home Park

RE: Docket # 130194-WS

I am requesting the postponement of the Customer Meeting between the PSC and customers of Lakeside Waterworks from July 24, 2014 to September 2014.

Summer months find many customers on vacation.

The rescheduling of this meeting can be extended according to the PSC personnel if Lakeside Waterworks agrees. Referring to document #05388-13, a letter dated September 6, 2013 to the Commission Clerk requested a time extension of 45 days signed by Gary Deremer, Pres., Lakeside Waterworks. Victoria Penick, Vice Pres., from the US Water Services Corp. on September 10, 2013 requested an extension and waiver of the statutory time frame.

With both parties requesting extensions, it seems that an extension is feasible.

Sincerely,

Gary Papucci

Office of Commission Clerk (Docket No. 130194-WS for docket file)

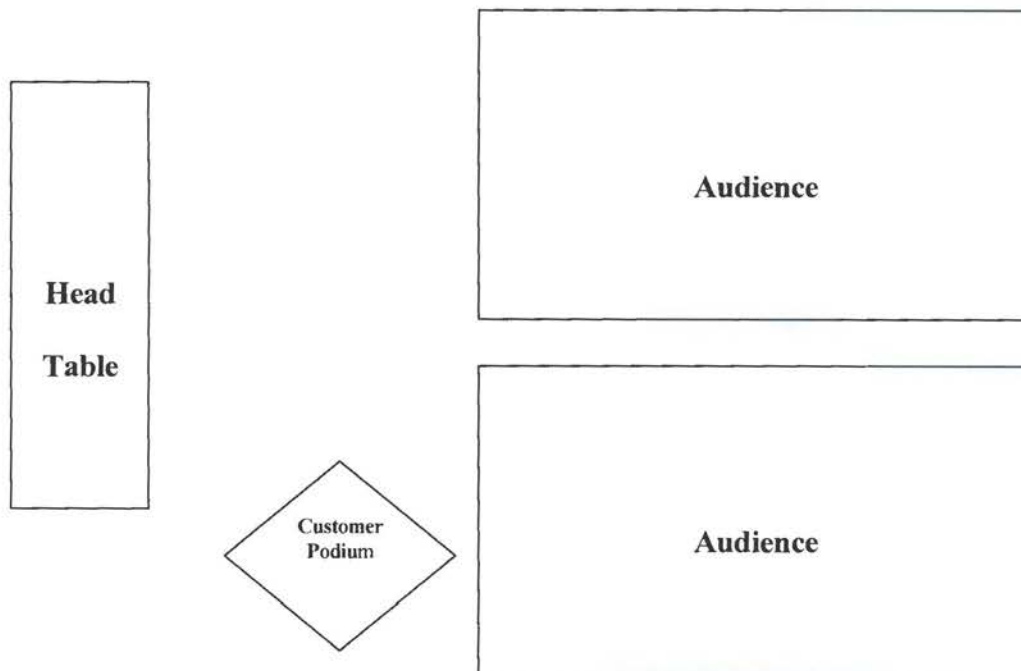

MEETING ROOM SETUP

Seating

If at all possible, the head table should be on an elevated platform in front of the audience. A raised dais such as we have at the Commission is best. A table may only be used if the front and sides are covered with a modesty skirt. Folding tables with an open front are appropriate only when using a modesty skirt.

A separate podium or table to one side of and facing the head table (away from the audience) is required for customers. Another table may be necessary if a court reporter is required.

The meeting set up should appear as shown below:

Public Address System

If possible, a minimum of two microphones (three are preferred), one for the head table and one for the customer podium, is required. The public address system should be sufficient to ensure that the audience can hear what is being said in normal speaking voices.
