Docket No. 130092-EI – Petition of Gulf Power Company to include the Plant Daniel Bromine and ACI Project, the Plant Crist Transmission Upgrades Project, and the Plant Smith Transmission Upgrades Project in the Company's program, and approve the costs associated with these compliance strategies for recovery through the ECRC.

Issue 1: Should the Commission approve Gulf's Petition to include Plant Daniel Bromine and Activated Carbon Injection Project in its Environmental Compliance Program and recover the associated cost through the Environmental Cost Recovery Clause?

Recommendation: Yes. Based on Gulf's filing and responses to data requests, staff recommends that the proposed Bromine and ACI project will be needed for Gulf to comply with environmental regulations.
