ORDER GRANTING ANNUAL CERTIFICATION

BY THE COMMISSION:

I. Case Background

Section 254(e) of the Telecommunications Act of 1996 provides that a carrier that receives universal service support "...shall use that support only for the provision, maintenance, and upgrading of facilities and services for which the support is intended..." States seeking federal high-cost support for carriers within their jurisdiction are required to file a certification annually with the Federal Communications Commission (FCC) and with the Universal Service Administrative Company (USAC).

The carrier annual reporting data collection form known as Form 481 is an FCC form that all eligible telecommunications carriers (ETCs) in the High Cost and Lifeline programs file with the FCC and state commissions. For carriers in the High Cost Program, the form collects a progress report on the carrier's five-year service quality improvement plan (not required for 2013 certification), detailed information on any outages, the number of requests for service, branding information of the holding company and its affiliates, documentation demonstrating the carrier is engaged with Tribal governments, certification of voice services pricing, results of network performance tests, certifications on frozen high-cost support, certifications on broadband services, and an annual report on the company's financial condition and operations. For carriers in the Lifeline Program, the form collects branding information of the holding company and its affiliates and terms and conditions on service plans offered to subscribers.

Florida ETCs filed copies of their Form 481 filings concurrently with the Florida Public Service Commission (Commission) and the FCC. Our staff reviewed each of the Form 481 filings to ensure all necessary information required for high-cost certification was provided by the ETCs.

The following is a list of information that is required this year as part of a carrier's annual certification:¹

For both Incumbent and Competitive Eligible Telecommunications Carriers (ETCs)²

- Detailed information on any outages in the prior calendar year
- The number of unfulfilled service requests during the prior calendar year
- The number of complaints per 1,000 connections in the prior calendar year
- Certification of service quality compliance
- Certification of emergency operation capability
- The holding company name and study area codes

For Interstate Price Capped Carriers

- Certification that frozen support received in 2012 was used consistently with the goal of achieving universal availability of voice and broadband³
- Certification that high-cost support designated for the use of offsetting reductions in access charges was used in the prior calendar year to build and operate broadband-capable networks used to offer provider's own retail service in areas substantially unserved by an unsubsidized competitor⁴

For Interstate Rate-of-Return Carriers

- Privately held rate-of-return carriers must file a complete annual report of the company's financial condition⁵
- Carriers without access to terrestrial backhaul must certify this annually⁶

Certification affirms that the federal high-cost funds flowing to carriers in the state, or to any competitive eligible telecommunications carriers seeking support for serving customers within a carrier's service area, will be used in a manner that comports with Section 254(e). Certification is defined by 47 C.F.R. 54.314(a) as follows:

Certification of support for eligible telecommunications carriers.

- (a) *Certification.* States that desire eligible telecommunications carriers to receive support pursuant to the high-cost program must file an annual

¹ In addition to the information required in Form 481, incumbent local exchange carriers that receive high-cost support are required to report all rates for residential local service, as well as state fees, to the extent the sum of those rates are below the rate floor (\$14) pursuant to 47 C.F.R. §§ 54.313(h), 54.318(e).

² 47 C.F.R. §54.313(a)(2) – (a)(6), (a)(8)

³ 47 C.F.R. §54.313(c)(1)

⁴ 47 C.F.R. §54.313(d)

⁵ 47 C.F.R. §54.313(f)(2)

⁶ 47 C.F.R. §54.313(g)

certification with the Administrator and the Commission stating that all federal high-cost support provided to such carriers within that State was used in the preceding calendar year and will be used in the coming calendar year only for the provision, maintenance, and upgrading of facilities and services for which the support is intended. High-cost support shall only be provided to the extent that the State has filed the requisite certification pursuant to this section.

In order for a carrier to be eligible for high-cost universal service support for all of calendar year 2014, certification must be submitted by December 16, 2013.⁷ Based on prior support received by carriers in Florida, our staff estimates that the amount of funding carriers will receive for 2014 will likely be between \$55 and \$60 million in high-cost support.⁸

II. Analysis

Unless we submit certifications to the FCC and to the USAC by December 16, 2013, Florida's carriers will not receive high-cost universal service funds during the first quarter of 2014, and would forego all federal support for that quarter. Certifications filed after December 16, 2013, would cause carriers to be eligible for high-cost funds for only partial quarters of 2014. For example, certifications filed by January 1, 2014, would allow carriers to be eligible for high-cost funds in the second, third, and fourth quarters of 2014. Certifications filed by April 1, 2014, would only allow carriers to be eligible for high-cost funds in the third and fourth quarters of 2014.

Our staff reviewed each of the carrier annual reporting data collection forms (Form 481) to ensure all necessary information required for high-cost certification was provided by the ETCs. In addition, each of the Florida ETCs has provided this Commission with an affidavit in which they have certified that all federal high-cost support provided to them within Florida was used in the preceding calendar year (**2012**) and will be used in the coming calendar year (**2014**) only for the provision, maintenance, and upgrading of facilities and services for which the support is intended.

Certification from this Commission may be filed with the FCC and USAC in the form of a letter.⁹ The USAC has developed a letter template for use with annual high-cost certifications of state ETCs.

III. Decision

Given these ETCs' certifications, we find it appropriate to certify to the FCC and to the USAC, by letter from the Chairman, that BellSouth Telecommunications, LLC d/b/a AT&T Florida; Embarq Florida, Inc. d/b/a CenturyLink; Frontier Communications of the South, LLC;
