Weather in Belgium: Annual Average Temperature, Rain, Sun and Humidity

[Share](#) |

8+1

The tables below list the normal annual temperatures and rainfall plus snowfall for cities and towns in Belgium. There's also information on a year's average sunshine and humidity levels in Brussels.

The places here with weather data cover Belgium from north to south. Ostend (also Oostende or Ostende) is a city on the Belgian coast, while Peer is in northeast Belgium. Brussels (Bruxelles, Brussel) is in central Belgium.

Farther south lies the town of Saint Hubert. Virton is a town near the country's southern tip, on the French border.

The measures of temperature and precipitation are averages of data collected at weather stations from 1971 to 2000. The humidity and sunshine numbers are averages for 1981 to 2010.

Temperature

Average annual temperatures

High °F	Low °F	Place	High °C	Low °C
57	44	Brussels	14	7
56	43	Ostend	13	6
58	41	Peer	14	5
51	39	Saint Hubert	11	4
57	41	Virton	14	5

Rainfall

Average total precipitation a year

Days	Place	Inches	Millimetres
135	Brussels	32.3	820
126	Ostend	30.0	762
136	Peer	32.4	822
160	Saint Hubert	43.4	1101
141	Virton	39.8	1011

Sunshine — Brussels gets 1546 hours of sunshine on average a year, equal to 4.2 sunny hours a day.

Humidity — Brussels has an average relative humidity of 80 percent.
