BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for Approval of Arrangement to Mitigate Impact of Unfavorable Cedar Bay Power Purchase Obligation, by Florida Power & Light Company.

DOCKET NO. 150075-E RECEIVED FPS FILED: June 29

CEDAR BAY GENERATING COMPANY'S REVISED EIGHTH REQUEST FOR CONFIDENTIAL CLASSIFICATION

Cedar Bay Generating Company, Limited Partnership ("Cedar Bay"), by and through undersigned counsel, and pursuant to Rule 25-22.006, Florida Administrative Code ("F.A.C."), and Section 366.093, Florida Statutes ("F.S."), hereby requests confidential classification for: (a) portions of the prefiled testimony and exhibits of the Florida Industrial Power Users Group ("FIPUG") witness Michael G. Lane and (b) portions of the deposition transcripts of Clifford D. Evans and Stephen Mark Rudolph (collectively "FIPUG's Testimony and Exhibits") which were filed with the Commission on June 8, 2015. Please note that on June 19, 2015, Cedar Bay filed its Fifth Request for Confidential Classification which included a blanket request for confidential treatment of Mr. Rudolph's deposition transcript and on June 24, 2015, Cedar Bay filed its Sixth Request for Confidential Classification which included a blanket request for confidential treatment of Mr. Evans' deposition transcript. Cedar Bay's original Eighth Request for Confidential Classification, filed on June 29, 2015, identified and requested confidential

classification for specified information contained in FIPUG's Testimony and Exhibits, and was intended to supersede the blanket requests for confidential treatment with respect to the deposition transcripts of Mr. Rudolph and Mr. Evans (excluding the indices to Mr. Rudolph's and Mr. Evans' deposition transcripts, which will remain covered by the blanket request).

The documents submitted with Cedar Bay's original Eighth Request for Confidential Classification on June 29, 2015 included complete versions of the deposition transcripts of Mr. Rudolph and Mr. Evans, as filed by FIPUG. Since that date, Cedar Bay has prepared revised versions of the depositions from which the material that FIPUG does not intend to use as testimony has been excised; the remaining material, i.e., FIPUG's proffered testimony, plus the additional information submitted by FPL under cover of its pending Motion to Include Counter-Designations of the Deposition of Witness Rudolph, filed on July 1, 2015, is identical to the material contained in the original Eighth Request for Confidential Classification. This REVISED Eighth Request for Confidential Classification covers these excised versions of the deposition transcripts of Mr. Rudolph and Mr. Evans, and for convenience, also includes the same redacted and public versions of the testimony of Michael G. Lane, which was covered by Cedar Bay's original Eighth Request.

In support of its request, Cedar Bay states as follows:

On June 8, 2015, Cedar Bay filed its Eighth Notice of 1. Intent to Request Confidential Classification (the "Eighth Notice") related to FIPUG's Testimony and Exhibits. Accordingly, pursuant to Rule 25-22.006(3), F.A.C., Cedar Bay's original Eighth Request for Confidential Classification was timely. Since this REVISED Eighth Request only covers information that was already covered by Cedar Bay's Eighth NOI and Eighth Request, there has been and can be no lapse in confidential protection of the information covered by this REVISED Eighth Request. Please note that the Eighth Notice requested confidential treatment for the testimony and exhibits of Jeffry Pollock. Cedar Bay reviewed Mr. Pollock's testimony and exhibits and determined that no confidential information is contained therein. Accordingly, Cedar Bay will not be filing a request for confidential classification concerning Mr. Pollock's testimony and exhibits.

 The following exhibits are included and made a part of this request:

> Exhibit A is FIPUG's Testimony and Exhibits on which all information for which Cedar Bay is requesting confidential treatment is highlighted.
> Exhibit A is submitted separately in a sealed envelope marked "CONFIDENTIAL."

- b. Exhibit B consists of two redacted copies of FIPUG's Testimony and Exhibits on which all information for which Cedar Bay is seeking confidential treatment has been redacted.
- c. Exhibit C is a table that identifies the specific statutory bases for the claims of confidentiality.
- d. Exhibit D is the affidavit of Jacob A. Pollack,Vice President and Secretary of Cedar Bay.

3. Section 366.093(1), F.S., provides that "Upon request of the public utility or other person, any records received by the Commission which are shown to be proprietary confidential business information shall be kept confidential and shall be exempt from s. 119.07(1)." Section 366.093(3), F.S., defines proprietary confidential business information to mean information that is (i) intended to be and is treated as private confidential information by the company, (ii) because disclosure of the information would cause harm, (iii) to the company's business operation, and (iv) the information has not been voluntarily disclosed to the public. Additionally, section 366.093(3)(e) defines as proprietary confidential business information "information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information."

4. Cedar Bay is requesting confidential classification of FIPUG's Testimony and Exhibits because FIPUG's Testimony and Exhibits contain Cedar Bay's proprietary, confidential, and competitively sensitive business information, including information concerning internal business plans, projected capital expenditures, confidential contractual negotiations, contractual arrangements, internal budget projections, financial forecasts, plant operations, and other competitively sensitive commercial information, the disclosure of which would harm or otherwise adversely impact Cedar Bay's and/or its affiliates' competitive business interests. Cedar Bay has treated the information contained in FIPUG's Testimony and Exhibits as confidential and Cedar Bay has not voluntarily disclosed the information contained in FIPUG's Testimony and Exhibits to the public.

5. Upon a finding by the Commission that the material in Exhibit A for which Cedar Bay seeks confidential treatment is proprietary confidential business information within the meaning of Section 366.093(3), F.S., such information should not be declassified for a period of at least eighteen (18) months. Additionally, the material provided should be returned to Cedar Bay as soon as the information is no longer necessary for the Commission to conduct its business, pursuant to Section 366.093(4), F.S.

WHEREFORE, for the above and foregoing reasons, as more fully set forth in the supporting materials and affidavit included herewith, Cedar Bay Generating Company, Limited Partnership respectfully requests that its REVISED Eighth Request for Confidential Classification be granted.

Respectfully submitted this 10th day of July, 2015.

CEDAR BAY GENERATING COMPANY'S REVISED EIGHTH REQUEST FOR CONFIDENTIAL CLASSIFICATION

Two Redacted Versions of FIPUG's Testimony and Exhibits are attached.

TESTIMONY OF MICHAEL G. LANE

٠

.

1	01.	Q.	PLEASE STATE YOUR NAME AND BUSINESS ADDRESS.
2		Α.	My name is Michael G. Lane and my business address is NewGen Strategies and
3			Solutions, 5115 Maryland Way, Brentwood, TN 37024.
4	02.	Q.	BY WHOM ARE YOU EMPLOYED AND IN WHAT CAPACITY?
5		A.	I am employed by the firm of NewGen Strategies and Solutions, LLC. I am a
6			Director, an LLC Member, and an Accredited Senior Appraiser.
7	03.	Q.	BRIEFLY DESCRIBE YOUR EDUCATIONAL AND PROFESSIONAL
8			BACKGROUND.
9			I received an Associate's Degree in Applied Science and Nuclear Engineering
10			Technology from Thomas Edison State College, in Trenton, New Jersey in 1994. In
11			1999, I earned a Bachelor of Business Administration Degree from Belmont
12			University in Nashville, Tennessee, and in 2003 I earned a Masters of Business
13			Administration (finance) from the Jack Massey Graduate School of Business at
14			Belmont University, Nashville, Tennessee. Also, in 2003, I earned the designation
15			of Accredited Senior Appraiser from the American Society of Appraisers.
16			Accredited Senior Appraisers are required to have passed required appraisal
17			education classes, to have a minimum of five years full time experience appraising
18			and valuing utility property, and to pass an 8-hour comprehensive public utility
19			appraisal exam administered by the American Society of Appraisers. Attached as
20			Exhibit MGL-1 is a list of independent appraisals that I have performed.

1			From 1985 to 1994, I was with the United States Navy as a submarine-based
2			nuclear power plant operator. From 1994 until 1998 I was employed by Hartford
3			Steam Boiler Inspection and Insurance Company as a boiler inspector. I joined R.
4			W. Beck in 1998. R. W. Beck changed its name to SAIC Energy Environment and
5			Infrastructure (SEE&I) in 2010. I am currently an LLC Member at NewGen
6			Strategies and Solutions, LLC.
7	04.	Q.	PLEASE DESCRIBE NewGen Strategies and Solutions, LLC
8		A.	NewGen Strategies and Solutions, LLC was formed in 2012 by a group of
9			consultants that had constituted the core of R.W. Beck's rates, financial, appraisal
10			and economic consulting practices for the last 25 years of R. W. Beck's existence.
11			Since its founding it has expanded rapidly and has offices in Austin, TX, Dallas, TX,
12			Nashville, TN, Denver CO, and Seattle, WA. The firm started with 8 employees in
13			2012 and now employs 35 consultants with clients throughout the United States.
14	05.	Q.	WHAT IS THE PURPOSE OF YOUR TESTIMONY IN THIS
15			PROCEEDING?
16		A.	I am providing testimony regarding my review of certain documents related to the
17			valuation of the 250 MW Cedar Bay coal fired generating facility in Jacksonville,
18			Florida. I am filing this testimony on behalf of the Florida Industrial Power Users
19			Group ("FIPUG").
20	06.	Q.	HAVE YOU PREPARED APPRAISALS OF OTHER UTILITY PROPERTY
21			PRIOR IN THE PAST?

•

1		A.	Yes. I have prepared appraisals of generation assets as well as electric, water,
2			wastewater and gas utility facilities throughout the country. Exhibit MGL-1 is a
3			listing of utility appraisals that I have prepared or participated in preparing.
4	07.	Q.	What documents did you review as a part of this testimony?
5		A.	I reviewed the following documents:
6			-April 5, 2013 Duff and Phelps document entitled "Valuation of Certain Tangible
7			and Intangible Assets & Liabilities of Cogentrix Power Holdings LLC"
8			-August 9, 2013 Memorandum TO: Cogentrix Power Holdings II LLC 2013
9			accounting files FROM: Phil Gegorich regarding
10			
11			
12			- Agreement for the purchase of Firm Capacity and Energy between AED Cedar
13			Bay, Inc. and Florida Power and Light Company
14			-The deposition of Stephen Mark Rudolph taken on May 15, 2015.
15			-The March 4, 2015 Duff & Phelps report entitled "Valuation of Certain Tangible
16			and Intangible Assets of CBAS Power, Inc."
17	08.	Q.	WHAT FINDINGS DID YOU DISCERN FROM YOUR REVIEW OF THESE
18			DOCUMENTS RELATED TO THE VALUE OF CEDAR BAY
19			GENERATING STATION?
20		Α.	The Goldman sale of the Cedar Bay generating assets (the assets) in 2013 represents
21			an arm's length transaction and provides a strong market comparable transaction that
22			is useful in the valuation of the Cedar Bay generating assets. In the deposition of
23			Mr. Rudolph on page 31, Mr. Rudolph implies that the Duff and Phelps report dated

 \sim

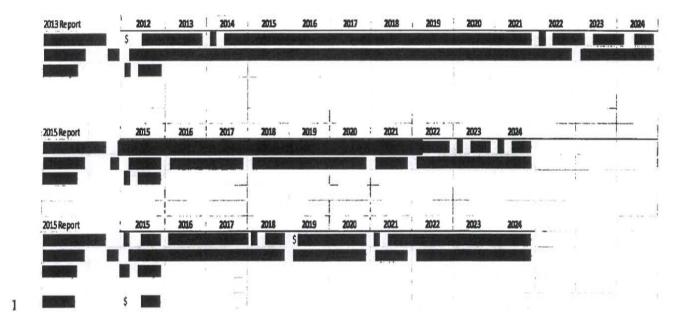

1			April 5, 2013 was simply an "allocation" of the purchase price that had been set by
2			the transaction and not really a valuation of the assets. I disagree with that statement
3			in that, the purpose of the Purchase Price Allocation is to establish a Fair Market
4			Value for the assets to first check for the presence of identifiable and unidentifiable
5			intangible assets as well as goodwill that would have to be accounted for properly.
6			The secondary purpose of a Purchase Price Allocation is to then allocate the value to
7			assets for accounting purposes. The Duff & Phelps report is clearly titled "Valuation
8			of Certain Tangible and Intangible Assets & Liabilities of Cogentrix Power
9			Holdings, LLC".
10	09.	Q.	ARE THERE ANY OTHER FINDINGS OF NOTE?
11		Α.	Yes. The arm's length transaction and valuation of the assets in 2013 both provide a
12			strong starting point for valuation of the assets. Based on Duff & Phelps' valuation,
13			
14			
15			(see Duff & Phelps Valuation of Certain Tangible and Intangible
16			Assets & Liabilities of Cogentrix Power Holdings, LLC
17			(see Duff & Phelps Valuation of Certain
18			Tangible and Intangible Assets & Liabilities of Cogentrix Power Holdings, LLC
19). Since the PPA has a defined term, the value of the PPA will generally go
20			down over time unless it is extended or there is some dramatic change in the gas and
21			power markets over the life of the PPA.
22	10.	Q.	ARE YOU ABLE TO RECONCILE THE DIFFERNCE BETWEEN DUFF &
23			PHELPS 2013 AND 2015 VALUATIONS OF THE CEDAR BAY

1			GENERATING STATION?
2			In part, yes. The 2013 report relied on a based on market-
3			based inputs to the cost of capital analysis, which is appropriate for determining the
4			fair market value of the asset. The 2015 report relied on a discount rate of 7%, based
5			on the cost of capital of Florida Power and Light, which is appropriate for an
6			investment value analysis of the assets, but not for a fair market value analysis of the
7			assets. The appropriate discount rate for estimating fair market value would utilize
8			market based inputs. In fact, Duff & Phelps prepared a market based cost of capital
9			analysis for the 2015 report (see the March 4, 2105 Duff & Phelps report Valuation
10			of Certain Tangible and Intangible Assets of CBAS Power, Inc. Exhibit D.2) that
11			resulted in an discount rate. The difference in value resulting from using the
12			more appropriate discount rate accounts for about (See exhibit MGL-2)
13			of the total difference between 2013 and 2015 valuations of
14			Additionally, there was a tax amortization benefit
15			included in the 2015 valuation that was not included in the 2013 valuation that
16			accounts for second of the difference. Those two items account for
17			approximately of the increase in value from 2013 to 2015. The remaining
18			appears to be related to differences in assumptions related to the revenues produced.
19	11.	Q.	Do you believe the \$520,000,000 fair market value suggested by the Duff and
20			Phelps March 4, 2015 report is overstated? If so, why?
21		Α.	Yes, I believe that the \$520,000,000 value suggested by Duff and Phelps' March 4,
22			2015 report is overstated. The premise of value was intended to be Fair Market
23			Value and the discounted cash flow analysis upon which the March, 2015 valuation

 \sim

1			is based utilizes a discount rate more appropriate for an Investment Value premise of
2			value. Utilizing the lower, Florida Power and Light specific, discount rate
3			inappropriately adds at least the second state of the valuation results. Additionally, the
4			truly arm's length transaction that occurred when the Assets were purchased by
5			Carlyle in 2013 is a better indicator of value and a better market comparable than
6			Florida Power and Light's purchase of the assets in 2015. Since Florida Power and
7			Light is compelled by the Purchased Power Agreement (the Agreement for the
8			purchase of Firm Capacity and Energy between AED Cedar Bay, Inc. and Florida
9			Power and Light Company) to pay higher than market rates for the power purchased
10			from Cedar Bay, the purchase price appears to have been affected by undue
11			stimulus. A common definition of Market Value is: Market value means the most
12			probable price which a property should bring in a competitive and
13			open market under all conditions requisite to a fair sale, the buyer and seller each
14			acting prudently and knowledgeably, and assuming the price is not affected by
15			undue stimulus. Based on that definition, Florida Power and Light's ability to cease
16			purchases of power at higher than market rates after the purchase of Cedar Bay
17			appears to meet the definition of undue stimulus and the purchase price does not
18			reflect Fair Market Value.
19			
20	12.	Q.	DOES THIS CONCLUDE YOUR PREPARED TESTIMONY?
21		Α.	Yes, it does.

13		13	Q And then our understanding, that the price of
14		14	coal is indexed to the St. Johns River Power Park,
15		15	according to the PPA?
16		16	A No. The price that we get paid for our
17		17	electricity is indexed to the price of coal at St.
18		18	Johns River Power Park. The price we pay for coal is
19		19	completely disconnected from our revenue stream.
20		20	Q Okay. And so the way you worded that, I
21		21	assume that is different.
22		22	Can you explain what the difference is not
23		23	in terms of numbers. Do you is St. Johns River
24		24	lower or higher than the coal from Appalachia?
25		25	A St. Johns River Power Park does a great job
20		2.0	
			ACCURATE STENOTYPE REPORTERS, INC.
<u> </u>	00		
	22		24
1	Q Okay. Does running at low loads, is that	1	buying coal, and they buy coal at a lower price than
2	more is it inefficient as compared to running at	2	we're able to get it.
3	full loads?	3	Q Okay. So then this, where it says, sourced
4	A It's less efficient than running at full load.	4	and delivered coal from more economical sources, just
5	Q Okay. How so? Would you just explain how	5	for the record, can you explain to us what that bullet
6	that works.	6	meant, why you put that in the slide here?
7	A If you look at the heat rate numbers provided	7	A One of the things we discovered is that part
8	on Exhibit 1, and you you see the generation-only	8	of the reason why St. Johns River Power Park can buy
9	heat rate at 14,845, and you compare that to the	9	their coal so much less expensively than we can is
10	average full load heat rate at 12,065, the major	10	because they source a lot of their coal from Columbia,
11	difference there is the increased heat rate when you	11	international coal, and have it shipped in.
12	operate at partial loads.	12	And our facility has traditionally been
13	When you blend that in together for the full	13	landlocked. It doesn't have a port facility. We've
14	plant operation during this particular month, you see	14	had to receive our coal by rail, so that kind of
15	that the heat rate is much is much higher when	15	limited us to domestic sources of coal within a
16	you're factoring in those partial load periods.	16	reasonable rail distance.

7		7	
8	Q Okay. Now	8	
9	A Excuse me. Let me clarify that.	9	
10	Q Uh-huh.	10	
11		11	
12		12	
13		13	
14		14	
15	Q Okay. Now, we had a discussion just a couple	15	
16	minutes ago about the difference in what you actually	16	
17	paid for the coal and then in terms of the	17	
18	electricity, what you're paid back, so there's that	18	
19	difference In the fuel.	19	
20	Do other Cogentrix facilities have similar	20	
21	differences, that you're aware of? I'm trying to see	21	
22	if that term which is in this PPA appears anywhere	22	
23	else in your fleet.	23	
24	A I don't think we have any PPAs at any of the	24	
25	other facilities in our fleet. So the — these type	25	
	ACCURATE STENOTYPE REPORTERS, INC.		
1	26		28
1	of terms don't exist in other facilities.	1	
2	Q Okay. In your industry experience, is that	2	
3	term unusual and by "unusual," I'm just meaning in	3	
4	your experience, have you seen those types of terms	4	
5	before? How common are they if you have?	5	
6	A I don't think I've seen another facility that	6	
7	was indexed to a to another generator in this		
8	state. It's common for the electric price to be	8	
9	indexed off of some fuel standard, so that aspect of	9	
10	the Cedar Bay contract is not unusual. But the fact	10	
11	that it's indexed against a price that they're	11	
12	actually paying for for coal in a facility is a	12	
13	little unique.	13

12	Can you look at Exhibit 18. We'll do it that	12	
13	way. We're going to come right back to this one,	13	
14	so	14	
15	A Okay. Okay.	15	
16	Q Do you recognize this valuation?	16	
17	A No, I've never seen it before.	17	
18	Q Okay. Now, what it says on the cover, it's a	18	
19	valuation of certain tangible and intangible assets	19	
20	and liabilities, Cogentrix prepared for Cogentrix	20	
21	on the cover by Duff & Phelps; correct?	21	
22	A Yes.	22	
23	Q In terms of the materials that were given to	23	
24	FPL, do you know if this was ever provided to FPL? A I do not know.	25	
20	ACCURATE STENOTYPE REPORTERS, INC.	20	
	ACCONTRE STENOT IT E NET ONTERO, INC.	1	
	38	-	40
1	Q You stated you had never seen this before.	1	
2	Had you ever heard of this report before?	2	Q Now, not the values of the number, but the
3	A I've heard it discussed.	3	fluctuation is what I'm talking about. Is that normal
4	Q Okay. In what context?	4	when you're looking at what a generating facility puts
5	A Well, it had been explained to me that this	5	out every year, that it's going to vary somewhat, in
6	was a process that was followed to divide the purchase	6	your experience?
7	price that Carlyle the Carlyle Group paid or the	7	A The capacity factor very often varies year to
8	investors in the Carlyle Group paid to Goldman Sachs	8	year, yes.
9	for five entities, as well as our home office	9	Q Would that be the same for the heat rate?
10	organization. And this was the method that was used	10	A The heat rate will also vary year to year,
11	to apportion that purchase cost up against the various	11	oftentimes because of the capacity factor or because of changes in steam load to our thermal host.
13	assets.	13	or changes in steam load to our thermal nost.

	and the second		
	41		43
1		1	on what we pay for fuel; it's based on what's paid for
2		2	fuel by St. Johns River Power Park.
4		3	Q Right. Okay. And so, again, assuming the
5		5	sale doesn't go through, and the PPA exists as it
6		6	stands right now, you know, that's how we move forward; In some of the previous depositions, there
7		7	were discussions that it would be predicted that Cedar
8		8	Bay would actually operate less going into the future.
9	Q Okay. In terms of future projected heat	9	Is that correct?
10	rates, how do you guys normally when you're doing a	10	A That's our assumption.
11	chart like that, how would you predict what the heat	111	Q Okay. So the less it operates and the more
12	rate is going to be?	12	profitable it is, why does Cogentrix want to sell
13	A We basically use our historical information	13	Cedar Bay?
14	and see what the heat rate was at similar capacity	14	MR. WRIGHT: I'm going to object. Cogentrix
15	factors historically, and we'll use those going	15	isn't selling Cedar Bay; CBAS Power Holdings is.
16	forward.	16	And additionally, I'm not sure you have foundation
17	Q Okay. Now, I'm not going to go back to that	17	to ask this witness that question. But you can ask
18	anymore. Thank you for indulging me on that one.	18	it again, clearly, and he can answer if he can
19	Are you aware of any contract disputes between	19	answer.
20	Cedar Bay and any or Cogentrix and any entities it	20	BY MR. TRUITT:
21	has contracts with regarding the Cedar Bay facility?	21	Q Okay. Given that prediction, it will operate
22	A There were there were times when we made	22	less, and the less it operates, the more profitable it
23	claims for force majeure because of storm damage or	23	is, in your opinion, what is the incentive to sell
24	other things, and and FPL hasn't always agreed with	24	CBAS, rather than operating as it stands right now?
25	us. So there have been have been some	25	A Well, we now work you know, the work we now
	ACCURATE STENOTYPE REPORTERS, INC.	1	ACCURATE STENOTYPE REPORTERS, INC.
1 100	42		44
1	disagreements historically over that point.	1	do is on behalf of investors in a fund, in the Carlyle
2	My understanding is that sometime before my	2	Group. And working for a fund is a lot different than
3	arrival at Cogentrix and my participation in the	3	all of my previous experience where we owned the
4	management of Cedar Bay, that there was actually, you	4	PROVINCE PRE APPR NULL BRE WE WENTED SAME AGAIN
5		- 2	facility for the long haul, and we would have been
1 1 2 1	know, some larger dispute that was ultimately settled	5	very happy just continuing to operate Cedar Bay.
6	through legal action.	5	very happy just continuing to operate Cedar Bay. And so there are some dynamics in the fund
6 7	through legal action. Q Okay. Are you aware of any currently ongoing	5 6 7	very happy just continuing to operate Cedar Bay. And so there are some dynamics in the fund world and in returning money to investors and in
6 7 8	through legal action. Q Okay. Are you aware of any currently ongoing contract disputes in the same context?	5 6 7 8	very happy just continuing to operate Cedar Bay. And so there are some dynamics in the fund world and in returning money to investors and in avoiding operational risks that I don't participate
6 7 8 9	through legal action. Q Okay. Are you aware of any currently ongoing contract disputes in the same context? A No. I'm not aware of any disputes currently.	5 6 7 8 9	very happy just continuing to operate Cedar Bay. 6 7 8 9 10 11 12	 through legal action. Q Okay. Are you aware of any currently ongoing contract disputes in the same context? A No. I'm not aware of any disputes currently. Q Okay. And I know previously during the presentation in some of the previous depositions, am I correct in my assumption in saying that Cedar Bay, the 	5 6 7 8 9 10 11 12	very happy just continuing to operate Cedar Bay. And so there are some dynamics in the fund world and in returning money to investors and in avoiding operational risks that I don't participate in those discussions, but it's my belief that that those conditions incentivize the investors to avoid operational risk and to and to get a return of their invested capital and a return on it at the
6 7 8 9 10 11 12 13	 through legal action. Q Okay. Are you aware of any currently ongoing contract disputes in the same context? A No. I'm not aware of any disputes currently. Q Okay. And I know previously during the presentation in some of the previous depositions, am I correct in my assumption in saying that Cedar Bay, the less it runs, the more profitable it is? 	5 6 7 8 9 10 11 12 13	very happy just continuing to operate Cedar Bay. And so there are some dynamics in the fund world and in returning money to investors and in avoiding operational risks that I don't participate in those discussions, but it's my belief that that those conditions incentivize the investors to avoid operational risk and to and to get a return of their invested capital and a return on it at the earliest opportunity.
6 7 8 9 10 11 12 13 14	 through legal action. Q Okay. Are you aware of any currently ongoing contract disputes in the same context? A No. I'm not aware of any disputes currently. Q Okay. And I know previously during the presentation in some of the previous depositions, am I correct in my assumption in saying that Cedar Bay, the less it runs, the more profitable it is? A That's correct. 	5 6 7 8 9 10 11 12 13 14	very happy just continuing to operate Cedar Bay. And so there are some dynamics in the fund world and in returning money to investors and in avoiding operational risks that I don't participate in those discussions, but it's my belief that that those conditions incentivize the investors to avoid operational risk and to and to get a return of their invested capital and a return on it at the earliest opportunity. Q Okay. Sorry. Just a second.
6 7 8 9 10 11 12 13 14 15	 through legal action. Q Okay. Are you aware of any currently ongoing contract disputes in the same context? A No. I'm not aware of any disputes currently. Q Okay. And I know previously during the presentation in some of the previous depositions, am I correct in my assumption in saying that Cedar Bay, the less it runs, the more profitable it is? A That's correct. Q Okay. And can you explain why that statement 	5 6 7 8 9 10 11 12 13 14 15	 very happy just continuing to operate Cedar Bay. And so there are some dynamics in the fund world and in returning money to investors and in avoiding operational risks that I don't participate In those discussions, but it's my belief that that those conditions incentivize the investors to avoid operational risk and to and to get a return of their invested capital and a return on it at the earliest opportunity. Q Okay. Sorry. Just a second. So based on that answer, it leads me to the
6 7 8 9 10 11 12 13 14 15 16	 through legal action. Q Okay. Are you aware of any currently ongoing contract disputes in the same context? A No. I'm not aware of any disputes currently. Q Okay. And I know previously during the presentation in some of the previous depositions, am I correct in my assumption in saying that Cedar Bay, the less it runs, the more profitable it is? A That's correct. Q Okay. And can you explain why that statement is an accurate statement? 	5 6 7 8 9 10 11 12 13 14 15 16	very happy just continuing to operate Cedar Bay. And so there are some dynamics in the fund world and in returning money to investors and in avoiding operational risks that I don't participate in those discussions, but it's my belief that that those conditions incentivize the investors to avoid operational risk and to and to get a return of their invested capital and a return on it at the earliest opportunity. Q Okay. Sorry. Just a second. So based on that answer, it leads me to the question of, are you aware whether FPL approached
6 7 8 9 10 11 12 13 14 15 16 17	 through legal action. Q Okay. Are you aware of any currently ongoing contract disputes in the same context? A No. I'm not aware of any disputes currently. Q Okay. And I know previously during the presentation in some of the previous depositions, am I correct in my assumption in saying that Cedar Bay, the less it runs, the more profitable it is? A That's correct. Q Okay. And can you explain why that statement is an accurate statement? A Because Cedar Bay loses money on every 	5 6 7 8 9 10 11 12 13 14 15 16 17	 very happy just continuing to operate Cedar Bay. And so there are some dynamics in the fund world and in returning money to investors and in avoiding operational risks that I don't participate in those discussions, but it's my belief that that those conditions incentivize the investors to avoid operational risk and to and to get a return of their invested capital and a return on it at the earliest opportunity. Q Okay. Sorry. Just a second. So based on that answer, it leads me to the question of, are you aware whether FPL approached Cogentrix regarding the sale, or did some other entity
6 7 8 9 10 11 12 13 14 15 16 17 18	 through legal action. Q Okay. Are you aware of any currently ongoing contract disputes in the same context? A No. I'm not aware of any disputes currently. Q Okay. And I know previously during the presentation in some of the previous depositions, am I correct in my assumption in saying that Cedar Bay, the less it runs, the more profitable it is? A That's correct. Q Okay. And can you explain why that statement is an accurate statement? A Because Cedar Bay loses money on every megawatt hour that it sells to Florida Power & Light. 	5 6 7 8 9 10 11 12 13 14 15 16 17 18	 very happy just continuing to operate Cedar Bay. And so there are some dynamics in the fund world and in returning money to investors and in avoiding operational risks that I don't participate in those discussions, but it's my belief that that those conditions incentivize the investors to avoid operational risk and to and to get a return of their invested capital and a return on it at the earliest opportunity. Q Okay. Sorry. Just a second. So based on that answer, it leads me to the question of, are you aware whether FPL approached Cogentrix regarding the sale, or did some other entity approach FPL with the proposal of the sale?
6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	 through legal action. Q Okay. Are you aware of any currently ongoing contract disputes in the same context? A No. I'm not aware of any disputes currently. Q Okay. And I know previously during the presentation in some of the previous depositions, am I correct in my assumption in saying that Cedar Bay, the less it runs, the more profitable it is? A That's correct. Q Okay. And can you explain why that statement is an accurate statement? A Because Cedar Bay loses money on every megawatt hour that it sells to Florida Power & Light. We have a negative energy margin, which means it costs 	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	 very happy just continuing to operate Cedar Bay. And so there are some dynamics in the fund world and in returning money to investors and in avoiding operational risks that I don't participate in those discussions, but it's my belief that that those conditions incentivize the investors to avoid operational risk and to and to get a return of their invested capital and a return on it at the earliest opportunity. 1		1	if you would.
2		2	A Well, Goldman Sachs is a large investment
3		3	bank, and they also had a significant commodities
4		4	trading group. They were trying to enhance and build
5		5	up their energy trading desk at the time they acquired
6		6	Unden Cogeneration, and they thought that with the
7		7	belief that having physical assets in the market would
8		8	help their trading position.
9		9	And so they when they acquired Linden and
10		10	then subsequently Cogentrix, they did it on their
11		11	balance sheet. So we were actually owned by Goldman
12		12	Sachs.
13		13	
14		14	
15		15	
16		16	
17		17	
18	Q Just tell me.	18	
19	A I was living in Houston, working for El Paso	19	
20	Energy when El Paso Energy sold the Linden	20	
21	Cogeneration Facility to Goldman Sachs. That was in	21	
22	October of 2003. When they completed that sale, I	22	
23 24	I essentially went with the transaction and became an employee of Goldman Sachs.	24	
25	In December of 2003, Goldman Sachs acquired	25	
20	ACCURATE STENOTYPE REPORTERS, INC.	120	
	62	1	64
1	Cogentrix Energy, and in late January of 2004, Goldman	1	
2	Sachs decided that they were going to manage the	2	
3	Cogentrix business from Cogentrix's home offices in	3	
4	Charlotte. So I was relocated to the Charlotte area.	4	
5	Q Were you still an employee of Goldman at the	5	
6	time?	6	
7	A At the time, I was.	7	
8	Q And how long did you remain an employee of	8	
9	Goldman?	9	
10	A I think until about October of 2004. They	10	
11	they asked me to move onto the Cogentrix payroll.	11	
12		13

5		5
6	Would you please identify that document.	6
7	A It's a memorandum to to file from Phil	7
8	Gregorich.	8
9	Q Are you familiar with this document?	9
10	A It's the first time I've looked at it.	10
11	Q You didn't see it last week or two weeks ago	11
12	when it was introduced as an exhibit to the	12
13	depositions?	13
14	A I was I did not look at the exhibits at	14
15	that time.	15
16	Q At the bottom it says: Purchase price. Total	16
17	consideration from Goldman to CPH2 for the acquisition	17
18	was designed and	18
19	Do you know that to be true, false, have no	19
20	information about It?	20
21	A I don't have any information to counter that.	21
22	Q Who and you know Phil Gregorich; right?	22
23	A Yes.	23
24	Q Who is he?	24
25	A Phil was our controller, the controller at	25
	ACCURATE STENOTYPE REPORTERS, INC.	
	66	68
1	Cogentrix.	1
2	Q You wouldn't have any reason to doubt that he	2
3	got it right?	3
4	A No.	4
5	Q And indeed he as comptroller, that was his	5
6	job to get it right; correct?	6
7	A As a controller, yes.	7

15	Q Please describe the negotiations.	15	
16	A I was in two face-to-face negotiating sessions	16	
17	In which we sat around a table like this and	17	
18	negotiated the nonfinancial terms.	18	
19	Q And who was in those meetings?	19	
20	A From my side, asset manager that worked for me	20	
21	at the time, Collin Franceschi; Tracy Patterson, at	21	Q Who made the decision to accept the offer; was
22	the time the general manager of Cedar Bay; Jim	22	it you?
23	Larocque from Carlyle; Dan Barbosa, also from Carlyle;	23	A It was not me.
24	and Tom Hartman from FPL.	24	Q Was it anybody within Cogentrix?
25	Occasionally Tim Gerrish from FPL;	25	A No.
	ACCURATE STENOTYPE REPORTERS, INC.		ACCURATE STENOTYPE REPORTERS, INC.
-			
1	70 occasionally Sam Forest from FPL; an attorney with	1	Q Who was It? 72
2	FPL, Charlie Landy was in most of the conversations.	2	A I don't know for certain.
3	There were some operational folks and fuels folks from	3	Q But you know it was someone with Carlyle;
4	FPL, but I don't recall their names.	4	correct?
5	Q So there were two meetings that you recall; is	5	A Within Carlyle.
6	that right?	6	Q And who did Jim negotiate with on the other
7	A I attended two, yeah.	7	side of the transaction, the financial terms?
8	Q You said Sam Forest was in and out. Was he in	8	A I don't know.
9	one meeting, both meetings?	9	-
10	A I only remember seeing him in the second	10	1
11	meeting.	11	Ē.
12	Q Where did these meetings take place?	12	1
13	A Florida Power & Light's offices in Juno Beach.	13	
14	Q Who negotiated the financial deal points?	14	
15	A I believe Jim Larocque had the conversations	15	1
16	from our side, but I don't know who he was	16	
17	corresponding with.	17	
18	Q I'm sorry. Jim is?	18	1
19	A He's I think his title is principal at the	19	<u> </u>
20	Carlyle Group. He managed the fund that acquired	20	1
21	Cedar Bay.	21	1
22	Q Do you interact with him?	22 23	
23	A Yes.	23

1	85	1	you know?	7
2		2	A I think it's a joint venture between Florida	
3		3	Power & Light and Jacksonville Electric Authority.	
4		4	Q Do you know which of the two is responsible	
5		5	for procuring coal?	
6		6	A No.	
7		7	Q But you do know that they're able to do it	
8		8	very efficiently and effectively and typically are	
9		9	below the price that you pay for coal?	
10		10	A Yes.	
11		11	A 168.	
12		12		
13	Q Mr. Truitt asked you about the link to the	13		
14	St. Johns River Power Park coal pricing. And I was	14		
15	not clear with your answer with respect to what is	15		
S	tied to what.	16		
16	Could you explain, with respect to the Cedar	17		
18	Bay facility, how your link to the St. Johns River	18		
19	Power Park pricing I wasn't clear whether it was	19		
20	the price that they pay for coal or it was the price	20		
21	that electricity is sold. Just explain the linkage to	21		
22	the St. Johns River Power Park, please.	22		
23	A There's a formula within the power purchase	23		
24	agreement and I don't remember all the exact	24		
25	specifics of that formula. But one element of that	25

	83	1	
1		1	one, roughly. 95
2		2	A I I don't remember all I know is
3		3	somewhere between 2004 and 2010. We were under
4		4	Goldman ownership at the time.
5		5	Q And then with respect to the second, when was
6		6	the second? It was later in time; right?
7		7	A Yes. I'm guessing. I mean, 2010 time frame.
B		8	I don't know exactly when they occurred. We didn't
9		9	gain any traction. I don't think the economics of the
10		10	market at that time were enough to drive an agreement.
11		11	Q Right. Let me ask it this way: There was a
12		12	span of years between the first and second
13		13	A I think so.
14		14	Q approach?
15		15	A Yeah.
16	Q Do you have an understanding of how FPL	16	Q And why was the first approach made?
17	dispatches the Cedar Bay unit?	17	A Because the president of our company at that
18	A I don't know all the factors that go into	18	time had had a lot of success historically in
19	their dispatch decisions.	19	renegotiating power purchase agreements that he
20	Q Do you know any of them?	20	belleved were, quote, out of the money, unquote, for
21	A I know some of them, I think.	21	our counterparties. And he wanted to pursue that same
22	Q Tell me what you know.	22	type of opportunity at Cedar Bay.
23	A Economics is certainly a driver. And I think	23	Q And who was that?
24	reliability of the power grid is also a driver in	24	A Larry Kellerman.
25	terms of when we get dispatched and when we don't. ACCURATE STENOTYPE REPORTERS, INC.	25	Q Was he a Goldman person or a Cogentrix person?
	ACCURATE STENOTTPE REPORTERS, INC.		ACCURATE STENOTYPE REPORTERS, INC.
	94	1	96
1	And I think the terms of the power purchase	1	A Yes. (Laughter.)
2	agreement also govern how many opportunities FPL has	2	He was — I think he was a partner, managing
3	to shut us down during the year.	3	director at Goldman, but he was also president of
4	Q What's your understanding of that?	4	Cogentrix.
5	A They can turn us off six times.	5	Q So he wore two hats?
6	Q But there's no limit on how long they can turn	6	A Yes.
7	you off for?	7	Q K-E-L-L-E-R-M-A-N?
8	A No limit.	8	A Yes.
9	Q So they in theory could shut you down for the	8	Q And what was your role in that first approach?
10	whole whole year? They could do one shutoff and	10	A I was the asset manager for the project. So I
12	say we're not going to need you and leave you sitting for 12 months?	12	was the one that had the firsthand knowledge of what the project could do and couldn't do.
13	A They can.	13	Q And what was proposed?
14	Q You told Mr. Truitt that FPL approached you,	14	A I don't even remember the terms of the desi.
15	but there had been previous times where you had	15	Q Was it basically cashing out of the PPA?
16	approached FPL about selling the unit or reworking the	16	A It was more complicated than that. You'd have
17	purchase power agreement.	17	to know Larry Kellerman to understand how complicated
18	Were you involved in those previous	18	it was.
19	discussions?	19	
20	A I was.	20	
21	Q And tell me tell me, how many were there?	21	
22	A I believe there were two different two	22	
23	different times when we approached FPL about a	23	Q And was that because, at that point in time,
24	potential contract renegotiation or modification.	24	in effect, Cedar Bay was still having negative
25	Q And tell me, just a time frame on the first	25	margins? So you were it was costing you money to
~~			
	ACCURATE STENOTYPE REPORTERS, INC.		ACCURATE STENOTYPE REPORTERS, INC.

-	97	T		
1	generate megawatts?	1	99	
2	A Yeah.	2		
3		3		
4		4	4	
5		5	5	
6	A That was the concept.	6	6 Q In effect, it was another way of getting to	
7	Q And what did how did FPL react?	7	7 your megawatt output equivalent.	
8	A Well, they talked with us about it, but it	8	8 AND	
9	never got anywhere.	9	9	
10	Q Would was part of that to extinguish the	10		
11	PPA?	11	1 A Right.	
12	A I I don't think that the intent was to	12		
13	necessarily extinguish the PPA. I think what our I	13		
14	think what the hope was on our part was that we would	14		
15	be able to source the power from an alternate facility	15		
16	and share those savings with FPL, but still collect	16		
17 18	the capacity payment, or the major piece of that.	17		
19	Q Was part of that proposal to reduce the capacity payment?	19		
20	A I don't remember whether it included any	20		
21	reduction in the capacity payment. Certainly we	21		
22	weren't our preference would be not to reduce the	22		
23	capacity payment, but just to save money on the energy	23		
24	loss.	24		
25	Q Was there ever an indication or an offer or	25		
	ACCURATE STENOTYPE REPORTERS, INC.		ACCURATE STENOTYPE REPORTERS, INC.	
	98		100	
1	discussion about reducing the capacity payment?	1		
2	A I don't know whether that that might have	2	,	
3	been a part of the conversations, but	3	in the second se	
4	Q Again, that was at a financial level that	4		
5	Probably wouldn't have included you? A Or just a number of years ago, and I just	5 6		
7	don't recall now.	7		
8	Q All right. So tell me about the 2010	8		
9	approach. I say 2010. That was roughly, not to hold	9	2-9-1	
10	you to that, but the same same deal?	10		
11		11		
12		12	A It was pretty short and sweet.	
13		13		
14		14	A He wanted to know if we were interested in	
15		15		
16		16	and particular and particular	
17		17		
18		18		
19	And, again, that got so tangled up and	19		
	convoluted that it wasn't possible to come to a deal	20	proved and previous and opp	
	on that.	21	,	
22		22		
23		23		
25		25	in the second second in ongoging

	101		103
1		1	A I don't remember actual planning sessions or
2		2	how we may have decided to do that. I do know that,
3		3	you know, Jim told me that he was going to take the
4	A I don't recall anything specific about it.	4	lead position in terms of negotiating with FPL but
5	 Maximum and a second strain and a second strain and s	5	that I'd be I'd continue to be involved in the
6	to them twice and have gotten nowhere; now they're	6	process.
7	calling us?	7	And so from that point forward, I think there
8	A Well Jim had never been involved in any of	8	were there were phone conversations between Jim
9	those previous conversations with FPL. That was all	9	Larocque and Tom Hartman that I wasn't a part of,
10	under Goldman.	10	but
11	Q But he probably was aware of them; right? He	11	Q Do you have the impression that Tom Hartman
12	was the president of the company.	12	did the financial negotiations for FPL, or
13	A He was.	13	A I don't know who did.
14	Q He didn't express surprise or	15	
15	MR. WRIGHT: Object. That assumes a fact not	16	
16	in evidence. You used the term "president of the	17	
17	company," and I'm not sure of whom you were speaking. If you're referring to Mr. Larocque, I'm	18	
18		19	
19	sure that fact is not in evidence. Try again.	20	
20	MR. MOYLE: I'm sorry. I get confused about who has what title.	21	
22	BY MR. MOYLE:	22	
23	Q Mr. Larocque is the Carlyle guy; right?	23	
24	A Yes.	24	
25	Q And the president of the company is Tom	25	
20	ACCURATE STENOTYPE REPORTERS, INC.		
-	102		104
1	A Doug Miller.	1	
2	Q Doug Miller. So you called Doug and said,	2	
3	Doug, I just got a call from Mr. Hartman?	3	
4	A I probably walked down the hall and talked to	4	
5	Doug.	5	
6	Q What was Doug's reaction?	6	
7	A That's good. Let's engage. Talk to Carlyle;	7	
8	make sure they're interested, and we'll engage.	8	
9	Q So then you called Jim?	9	
10	A I did.	10	
11	Q And his reaction was, great?	11	
12	A Precisely.	12	
13	Q That was it?	13	
14	A Pretty much. It was, you know, let's get back	14	
15	to them and figure out when we can start a	15	
16	conversation.	16	
17	Q So tell me what happened after that.	17	
18	A I don't remember specifically. But, you know,	18	
19	I I did reach out to Tom, and we arranged a time to	19	
20	talk about it.	20	
21	Q Did you-all have internal discussions about,	21	
22	how are we going to handle these discussions or	22	
23	negotiations? Or did you just get on a plane and go	23	
24	down to Juno and sit around the table? Kind of help	24	
25	me with the next steps. ACCURATE STENOTYPE REPORTERS, INC.	25

	117		119
1	MR. WRIGHT: To be clear, in this paragraph	1 2	deal. The longer the deal percolates along, the more
2		3	value to Cogentrix, the less value to FPL; correct?
3	MR. MOYLE: Right.	4	
4	at some nelst up the	5	Q Isn't that what you just said?
5	at some point up the	1.2	A Yes. But the danger is, if that balance that
6	corporate ladder is owned has come into ownership.	6	was constructed at a certain point in time, if we fall
7		7	out of balance, if too much of the benefit accrues to
8		8	our side and not enough to the other side, the deal
9		9	falls apart, and there's no benefit to us.
10		10	Q That's all
11		11	A So I don't know when that happens.
12		12	Q Okay. I just understand, I mean, the
13		13	contract covers that you covered it with OPC today,
14	BY MR. MOYLE:	14	you've got to close by September, and there's an
15	Q And do you know how?	15	extension period following that.
16	MR. WRIGHT: I'm going to object as to	16	I guess I'm just trying to understand from
17	relevance as anything that has to do with	17	your perspective I think you've answered it
18	or any other project, other than Cedar Bay.	18	there's no pressing, compelling, we got to close by
19	A Yeah. I don't know what the consequences of	19	date certain or everything falls apart; correct?
20	that are, how that ties into it.	20	A As I mentioned before, the the motivations
21	BY MR. MOYLE:	21	of a fund are different than the motivations that I'm
22	Q To get into it, I will tell you the relevancy	22	used to as being a part of a long-term owner of a
23	of it.	23	power project. So clearly one of the elements that
24	Is there anything pressing that says, hey,	24	goes into the evaluation for the fund of whether to do
25	we've got to hurry up and get this deal closed or else	25	a deal a sale like this or not has to do with how

7		7	Florida Power & Light has limited opportunities to
8		8	turn turn down our facility, you know, they you
9		9	can't turn a coal plant on and off with regularity;
10		10	they get six opportunities a year.
11		11	So when the project - when the when our
12		12	power is, quote, out of the market, more expensive
13		13	than what the market price is, at night they typically
14		14	turn us down to minimum load, which is 90 megawatts
15		15	for this facility, and operate us there so that we're
16		16	available the next morning when they when they do
17		17	need the power, and we would be in the money for them.
18		18	They our analysis suggested that they may
19		19	be losing money by continuing to run us at minimum
20		20	load at night. So it pointed out somewhat of a to
21		21	us, you know, our expectation was there was a little
22		22	dilemma there.
23		23	They had to balance off how many times they
24		24	could shut us down versus how often we were really in
25		25	the money for them. It seemed to us like these
			ACCURATE STENOTYPE REPORTERS, INC.
-	150	1	152
1		1	numbers suggested that there was great benefit to both
2		2	sides by coming to some sort of an agreement to
3		3	provide the power from the market instead of from the
4		4	Cedar Bay facility.
5		5	Q Did you share this conclusion with FPL?
6		6	A We didn't share this analysis with them, no.
7		7	Q How about with respect to the fact that you
8	Q Okay. I'm showing you an exhibit that will be	8	believe they would have saved money? Isn't this the
9	marked as Exhibit 30 to your depo. Could you please	9	same thing we've been talking about three times?
10	identify this document?	10	A We suggested that you know, we told them we
11	A It's an e-mail from me to Jim Larocque.	11	thought it would save money. I'm not sure that they
12	(Exhlbit No. 30 was identified for the	12	agreed with us. Again, as I mentioned, we were using
13	record.)	13	a proxy price of the as-available rates, since the
14	BY MR. MOYLE:	14	Florida market isn't doesn't really have a, you
15	Q Why did you send him this e-mail?	15	know, kind of an open and visible trading market.
16	A To relay to him the results of an analysis	16	Q But if you look at the dates If you look at
17	that was performed by Collin Franceschi.	17	the dates of this e-mail, it says from November 2011
18	Q Why was this analysis performed?	18	through August 2014, and the e-mail was sent on
19	A We were trying to determine what the potential	19	October 20th, 2014; right?
20	savings would be if energy was provided to FPL from	20	A Right.
21	the market instead of from the Cedar Bay facility.	21	Q So to me that doesn't look like it was
22	The analysis is is somewhat crude, because	22	projected as available pricing; it's a historical
23	the only proxy we had for market prices was the	23	look-back, I'd assume; correct?
24	projected as-available rates from Florida Power &	24	A This was looking at a historical period, but
25	Light. And so just If indeed that reflected the	25	we don't have historical market prices. The only
	ACCURATE STENOTYPE REPORTERS, INC.		ACCURATE STENOTYPE REPORTERS, INC.

-	470	1	
1	153 thing we had to go on was FPL's projected,	1	155
2	as-available rates for the next day. And we you	2	
3	know, we kept those records each day and used that as	3	
4	a proxy for the market price. The actual market price	4	
5	often varies widely from the projected as-available.	5	5
6	Q Do you ever get paid as-available pricing for	6	
7	any energy you generate?	7	
8	A There is the possibility, but I don't think	8	
9	we've ever availed ourselves of that. If FPL asks us	9	9
10	to decommit in other words, to shut down I	10	0
11	believe that under the terms of the power purchase	11	1
12	agreement, Cedar Bay has the ability to continue to	12	
13	operate it and receive some discount from the	13	3
14	as-available rates. We wouldn't actually get the	14	4
15	as-available rate. I think it's some discount to	15	5 (Exhibit No. 31 was identified for the
16	that.	16	
17	Q Less than the as-available rate?	17	
18	A Uh-huh.	18	
19	Q You said you don't think FPL agreed with this	19	
20	general proposition.	20	
21	Why do you say that?	21	
22	A It may have just been the negotiating	22	
23	positions of each party. And they suggested that	23	
24	you know, that they wouldn't save by doing that. I	24	4
25	we didn't have any information to challenge that,	25	5

-	157	1	
		1	159 Q Did they make an offer to you to start the
		2	conversation? That's typically how it works.
		3	Somebody calls up and says, hey, I'd like to talk to
		4	you about buying your plant or buying down the PPA.
6		5	Did they offer
6		6	A They didn't come and offer a number, but they
17		7	said that they were interested in exploring they
8		8	were interested in exploring opportunities to
9		9	restructure or terminate the power purchase agreement.
10		10	Because at that time their projections were that low
11		111	gas prices were going to persist and that the dispatch
12		12	of the facility was going to drop off further.
13		13	I think I remember hearing numbers of like 16
14		14	or 17 percent at our at our contract price is what
15		15	our dispatch would have been, which would have made
16		16	the plant further and further out of the money for
17		17	the for FPL and the ratepayers.
18		18	Q So who put the first number on the table?
19		19	A I don't know, because I wasn't involved in the
20		20	number conversations.
21		21	Q Did you were you made privy of offers
22		22	communicated in writing back and forth between the
23		23	Carlyle Group and Florida Power & Light?
24		24	A I may have seen numbers at some point. Like I
25		25	said, I wasn't engaged in a give-and-take on that, but

5	number after Exhibit 37; right?	5	
6	A Right.	6	
7	Q Does that tell you anything about whether that	7	
8	was the attachment to your e-mail?	8	
9	A I don't know how the whole Bates-stamping	9	
10	process works, so	10	
11	Q What I've given you as 38, have you seen this	11	
12	document before?	12	
13	A I'm trying to determine that.	13	
14	MR. BUTLER: Jon, are you suggesting Cedar Bay	14	승규가 많은 것에서 같은 것을 것 같은 것을 많이 없는 것이다.
15	initiative I'm sorry, indicative offer draft v7,	15	
16	et cetera, that's referenced in Exhibit 37?	16	
17	MR. MOYLE: I don't know, John.	17	
18	But it also has a bunch of highlights and	18	
19	scratches out, and it's signed. I was going to ask	19	Q If it was going to happen, would you have
20	the witness what he knows about this document.	20	knowledge of that, or would that be maybe one of the
21	THE WITNESS: I believe I did see this	21	financial people?
22	document. I believe the comments A1 and A2 are my	22	A If that was going to happen, it would be
23	comments.	23	reflected in the purchase and sale agreement.
24	BY MR. MOYLE:	24	Q Well, sometimes people can have other
25	Q Do you know why it was signed and comments	25	agreements; can't they? I mean, not everything is

9	BY MR. TRUITT:	9	
10	Q To start with, could you please state your	10	
11	name and spell your last name for the record.	11	
12	A Stephen Mark Rudolph, R-U-D-O-L-P-H.	12	
13	Q And state the company you work for and your	13	
14	business address please.	14	
15	A Cogentrix Energy Power Management, 9405	15	
16	Arrowpoint Boulevard, Charlotte, North Carolina,	16	
17	28273.	17	
18	Q And how long have you worked for your current	18	
19	employer?	19	
20	A Ten years.	20	
21	Q What is your current job title?	21	
22	A Senior vice-president, chief financial	22	
23	officer.	23	
24	Q How long have you been in that position?	24	
25	A Five years.	25	
	ACCURATE STENOTYPE REPORTERS, INC.		
		1	
-	6		8
1	Q And could you give us a description of the	1	
2	duties that go along with your current position?	2	
3	A I'm in charge of all the accounting, corporate	3	
4	finance, and tax functions. I think that's all.	4	
5	Q And could you please give us a brief overview	5	
6	of your work history, including other positions with	6	
7	your current employer.	7	
8	A I started out with Cogentrix in 2005 as the	8	
9	controller. My background is accounting. I got my	9	
10	bachelor's and master's in accounting from the	10	
11	University of Florida.	11	
12	Prior to working at Cogentrix I worked at the	12	
13	independent power subsidiary of TECO Energy. Prior to	13	
in a second	TECO, I worked in public accounting, primarily at	14	
14 15	Deloitte & Touche.	14	
15		12.25	
	Q What are your specific responsibilities with	16	
17	regards to the Cedar Bay plant specifically?	17	O we dealer of the
18	A I oversee the people in my group who do the	18	Q Would it be a fair statement to say that,
19	accounting; they do financial management, which	19	prior to signing off on the purchase and sale
20	includes reporting on the debt, includes internal	20	agreement, that your approval of the way it was set up
21	management reporting; the tax group does any required	21	was required?
22	tax filings.	22	A My I wouldn't characterize it like that.
23	So I indirectly oversee all of that.	23	It was circulated for review. And I didn't approve
24		24	it. But the way it would generally work is, we need
25		25	to sign off that we have reviewed it and that
			ACCURATE STENOTYPE REPORTERS, INC.

1	everything that we don't know that anything is	1	
2	incorrect about It.	2	
3	And that, when I say "we," that wouldn't	3	
4	include just me. It would include really all the	4	
5	functional areas within Cogentrix, which could include	5	
6	my area as well as engineering, environmental, legal,	6	
7	et cetera.	7	
8	So I would be one, quote, unquote, reviewer,	8	
9	and I would sign off that I had, in fact, reviewed it.	9	
10	Q Okay. You speak about areas that make me ask.	10	
11	How many direct reports do you have?	11	
12	A I was counting back, I think, after you asked	12	
13	Rick that. I think it's 15 now.	13	
14	Q Okay. And who do you direct report to?	14	
15	A Doug Miller, who is the president of the	15

2		1	, the second sec
3		2	to be a Duff & Phelps valuation of assets of 2013.
3		3	I'll give you a second, if you could look over
5		4	those briefly as he's passing them out, and we will
6		5	have a conversation about them.
7		6	A I'm familiar with the Duff & Phelps report.
8		7	
9		8	
10		9	
11		11	
12		12	
13	Q What's the benefits to Cogentrix selling the	13	
14	facility versus keeping the PPA as it stands?	14	
15	A I think the main benefit is just to reduce the	15	
16	operating risk of realizing that the state operating a year.	16	
17	As you've gone through the operating	17	
18	depositions here, there is a lot of work that goes	18	
19	Into earning that and keeping the facility running	19	
20	with, you know, the coatings programs that Tracy	20	
21	Patterson went through and all the work that the plant	21	
22	has done to improve operations.	22	
23	All that has been done, but it's a lot of work	23	
24	going through that. And you will always have	24	
25	operating risks to try and keep the plant available	25

So I will ask the question essentially for the record. Are you familiar with 17, this memorandum? A The memorandum? Q Yeah. A I haven't seen it in a while. So I haven't read it in a while. But I'm familiar with the gist of
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	 and running as well as it has. Q Okay. Now, you mentioned on page 16 of Exhibit 3 the I'm sorry, 15, the refinancing of debt, \$250 million. And you had stated, I belleve, based on the strength of the PPA, I think that was the line that you used. A Yes. Q So then it's accurate to say that the PPA was a strong reason that that financing was that the main support for that financing to occur? A Absolutely. Q Okay. In your position, do you do internal valuations of the PPA? A No. Q No. Did you or did Cogentrix have a third party do valuations of the PPA? 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Q I do want to start with 17 first. So I will ask the question essentially for the record. Are you familiar with 17, this memorandum? A The memorandum? Q Yeah. A I haven't seen it in a while. So I haven't read it in a while. But I'm familiar with the gist of it, I believe.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	 and running as well as it has. Q Okay. Now, you mentioned on page 16 of Exhibit 3 the I'm sorry, 15, the refinancing of debt, \$250 million. And you had stated, I belleve, based on the strength of the PPA, I think that was the line that you used. A Yes. Q So then it's accurate to say that the PPA was a strong reason that that financing was that the main support for that financing to occur? A Absolutely. Q Okay. In your position, do you do internal valuations of the PPA? A No. Q No. Did you or did Cogentrix have a third party do valuations of the PPA? A No. 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Q I do want to start with 17 first. So I will ask the question essentially for the record. Are you familiar with 17, this memorandum? A The memorandum? Q Yeah. A I haven't seen it in a while. So I haven't read it in a while. But I'm familiar with the gist of it, I believe. Q Okay. I will ask, do you know who Phil
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	 and running as well as it has. Q Okay. Now, you mentioned on page 16 of Exhibit 3 the I'm sorry, 15, the refinancing of debt, \$250 million. And you had stated, I belleve, based on the strength of the PPA, I think that was the line that you used. A Yes. Q So then it's accurate to say that the PPA was a strong reason that that financing was that the main support for that financing to occur? A Absolutely. Q Okay. In your position, do you do internal valuations of the PPA? A No. Q No. Did you or did Cogentrix have a third party do valuations of the PPA? A No. Q No. Okay. I've got two exhibits. I'm going 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Q I do want to start with 17 first. So I will ask the question essentially for the record. Are you familiar with 17, this memorandum? A The memorandum? Q Yeah. A I haven't seen it in a while. So I haven't read it in a while. But I'm familiar with the gist of it, I believe. Q Okay. I will ask, do you know who Phil Gregorich is?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	 and running as well as it has. Q Okay. Now, you mentioned on page 16 of Exhibit 3 the I'm sorry, 15, the refinancing of debt, \$250 million. And you had stated, I belleve, based on the strength of the PPA, I think that was the line that you used. A Yes. Q So then it's accurate to say that the PPA was a strong reason that that financing was that the main support for that financing to occur? A Absolutely. Q Okay. In your position, do you do internal valuations of the PPA? A No. Q No. Did you or did Cogentrix have a third party do valuations of the PPA? A No. Q No. Okay. I've got two exhibits. I'm going to keep them separate. So it's going to be what 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	Q I do want to start with 17 first. So I will ask the question essentially for the record. Are you familiar with 17, this memorandum? A The memorandum? Q Yeah. A I haven't seen It in a while. So I haven't read it in a while. But I'm familiar with the gist of it, I believe. Q Okay. I will ask, do you know who Phil Gregorich is? A Yes.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	 and running as well as it has. Q Okay. Now, you mentioned on page 16 of Exhibit 3 the I'm sorry, 15, the refinancing of debt, \$250 million. And you had stated, I belleve, based on the strength of the PPA, I think that was the line that you used. A Yes. Q So then it's accurate to say that the PPA was a strong reason that that financing was that the main support for that financing to occur? A Absolutely. Q Okay. In your position, do you do internal valuations of the PPA? A No. Q No. Dld you or did Cogentrix have a third party do valuations of the PPA? A No. Q No. Okay. I've got two exhibits. I'm going to keep them separate. So it's going to be what are we at, 17 and 18? 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Q I do want to start with 17 first. So I will ask the question essentially for the record. Are you familiar with 17, this memorandum? A The memorandum? Q Yeah. A I haven't seen It in a while. So I haven't read It in a while. But I'm familiar with the gist of it, I believe. Q Okay. I will ask, do you know who Phil Gregorich is? A Yes. Q Okay. Can you explain for the record who he
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	 and running as well as it has. Q Okay. Now, you mentioned on page 16 of Exhibit 3 the I'm sorry, 15, the refinancing of debt, \$250 million. And you had stated, I belleve, based on the strength of the PPA, I think that was the line that you used. A Yes. Q So then it's accurate to say that the PPA was a strong reason that that financing was that the main support for that financing to occur? A Absolutely. Q Okay. 1	A December 2014. 21	1	23
2		2	the parties to allocate the purchase price to the acquired assets and liabilities
3		3	
4		4	Just for the record, purchase and sale agreement,
5		5	exactly which one are you talking about when you say
6		6	purchase and sale agreement at this time?
7		7	A I was saying generally at this time. So it is
8		8	generally a requirement in purchase and sale
9		9	agreements for both parties to agree on the allocation
10	valuation report.	10	of the purchase price.
11	Do you see that kind of in the middle?	11	Q Okay.
12	A Uh-huh.	12	A In the case where Carlyle purchased the
13	Q The second bullet?	13	portfolio from Goldman, we agreed to perform the
14	A Uh-huh.	14	purchase price allocation and hired Duff & Phelps to
15	Q It mentions there, "Cedar Bay PPA with FPL	15	do so.
16	Group had a	16	Q You say "we hired Duff & Phelps to do so."
17		17	Now I notice, if you look at page 2 of this report,
18	And it appears that this memo discusses the	18	which is CB 0042860, it appears to be a cover letter,
19	value of the PPA and how it supported this	19	the second page right after the first cover itself.
20	transaction.	20	I'm sorry.
21	Am I generally correct in that idea?	21	A Yes.
22	A And how it supported this trans can you	22	Q And it appears that that letter is written to
23	describe this transaction?	23	you. So by "we," was it you specifically engaged Duff
24	Q Well, the memorandum is regarding acquisition	24	& Phelps, or is Duff & Phelps just giving the report
25	by Carlyle, this membership in CBAS Power Holdings.	25	to you because of your position?
	ACCURATE STENOTYPE REPORTERS, INC.		ACCURATE STENOTYPE REPORTERS, INC.

If you're able to point out pages, that's great, but I'm not hoping for something more than just a cursory overview. A Sure. Q I want to walk through. A Sure. What they what Duff & Phelps would have done is taken the model that Goldman provided to Carlyle, a cash flow model, and taken the adjusted if Carlyle made any adjustments to it, taken the adjusted model that Carlyle based its purchase price on, and looked at that model and applied discounted cash flow analysis based on their understanding of
11 12 13 14 15 16 17 18 19 20 21 22 23	 portfolio that they purchased from Goldman, a component of which is Cedar Bay and its assets and liabilities. Q Okay. All right. So then let's look at what we have in 18, the valuation. A Uh-huh. Q Now, it goes through, as you've just stated, it goes through kind of a portfolio type evaluation. Can you give us an overview of what this report is, and then we will get to some specific questions. But I want to get for the record your understanding of exactly what this is. A Yeah. When when the the purchase and sale agreement was drafted, which is common in most purchase and sale agreements, there is agreement among 	11 12 13 14 15 16 17 18 19 20 21 22 23	 A Uh-huh. Q If you could please explain to me your understanding of this report's valuation of the PPA? If you're able to point out pages, that's great, but I'm not hoping for something more than just a cursory overview. A Sure. Q I want to walk through. A Sure. What they what Duff & Phelps would have done is taken the model that Goldman provided to Carlyle, a cash flow model, and taken the adjusted if Carlyle made any adjustments to it, taken the adjusted model that Carlyle based its purchase price on, and looked at that model and applied discounted cash flow analysis based on their understanding of markets to sort of separate the different assets
11 12 13 14 15 16 17 18 19 20 21 22 23 24	 portfolio that they purchased from Goldman, a component of which is Cedar Bay and its assets and liabilities. Q Okay. All right. So then let's look at what we have in 18, the valuation. A Uh-huh. Q Now, it goes through, as you've just stated, it goes through kind of a portfolio type evaluation. Can you give us an overview of what this report is, and then we will get to some specific questions. But I want to get for the record your understanding of exactly what this is. A Yeah. When when the the purchase and sale agreement was drafted, which is common in most 	11 12 13 14 15 16 17 18 19 20 21 22 23 24	 A Uh-huh. Q If you could please explain to me your understanding of this report's valuation of the PPA? If you're able to point out pages, that's great, but I'm not hoping for something more than just a cursory overview. A Sure. Q I want to walk through. A Sure. What they what Duff & Phelps would have done is taken the model that Goldman provided to Carlyle, a cash flow model, and taken the adjusted if Carlyle made any adjustments to it, taken the adjusted model that Carlyle based its purchase price on, and looked at that model and applied discounted cash flow analysis based on their understanding of

_	and the second	1	
	25		27
1		1 2	A In that transaction, yes. But it's all a
3		3	function of what Carlyle paid for the entire
4		4	portfolio, which included other assets and which also
5		5	Included an operating platform at Cogentrix, which Included a long-term run rate of costs in there.
6	,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,	6	
7	"Valuation of the Intangibles and Other Assets and	7	So the starting point is what Carlyle paid for the basket of assets and liabilities that it
8	Liabilities."	8	purchased. So once you apply that, then that's how
9	Are you there?	9	much comes out to the Cedar Bay PPA.
10	to the car - construction of the construction	10	Q Okay. Now, I know there's some worksheets
111	Q Okay. On 45 they have a listing chart. And	11	toward the back. And they go kind of through all
12	you see the Cedar Bay PPA on that; correct?	12	these there is a bunch of different exhibits in the
13	A Yes.	13	back. And they go through different analyses. And
14		14	let's see, I'm going to look at page it's
15	purchase agreements. And then go to page 47. And	15	Exhibit D.2. The CB number is going to be CB 0042948.
16	there is a little chart right above that that says,	16	MR. MOYLE: Would you mind repeating that,
17	"valuation concluded, agreements for the sum of	17	please?
18	present cash flows is positive"	18	MR. TRUITT: CB 0042948, Exhibit D.2.
19	Then It says Cedar Bay nets	19	BY MR. TRUITT:
20	its valuation they gave it; correct?	20	Q Are you there?
21	A Yes.	21	A Yeah.
22	Q So am I correct, if I remember reading this	22	Q Okay. At the top here it says "valuation of
23	report, because that's a fair market value is what	23	Cedar Bay PPA." It does say purchase price allocation
24	they did in terms of the valuation?	24	analysis, so I get that.
25	A Yes.	25	And then you would agree they dld this chart
	ACCURATE STENOTYPE REPORTERS, INC.	1	ACCURATE STENOTYPE REPORTERS, INC.
	26		28
1	Q Okay. And can you explain fair market value;	1	here; It looks like they went from the point in time
2	it's my understanding it has a specific meaning; it's	2	of valuation, 2012, to the end of the PPA?
3	not a general term. Can you explain to us what you	3	A Uh-huh.
4 5	understand the meaning of "fair market value" when you hear it in your business capacity to be?	4	Q Is that what that says? A Yes.
6	A The price paid between two willing parties in	6	
7	an arm's length transaction.	7	Q I'm looking here, and they have capacity factor varies every single year.
8	Q Okay. So when this report was done I know	8	I looked across this chart, and I see capacity
9	it's dated April 5th, 2013, on the cover	9	factor is 250 megawatts.
10	A Uh-huh.	10	So you guys weren't planning on changing the
11	Q but I believe someone again, I'm not	11	capacity factor of the plant; is that correct?
12	sure exactly It had a specific date this	12	A Correct.
13	valuation is effective as of you know, most of	13	Q Okay. Now I see the capacity factor varies
14	these valuations	14	through all these years. Do you know why that is?
15	A Exactly.	15	A It's an estimate based on I don't know what
16	Q they put a date on it.	16	it's exactly based on, but that's what well,
17	Do you know the exact date?	17	actually, let me think back. I believe what that
18	A It would have been done as of the closing date	18	comes from is when Carlyle purchased the portfolio
19		19	from Goldman, they had an independent engineer come in
19 20	A It would have been done as of the closing date of Carlyle's purchase of the portfolio from Goldman. Q Okay. Do you know when that was?	19 20	from Goldman, they had an independent engineer come in and help them with capacity factor and analysis of the
19 20 21	 A It would have been done as of the closing date of Carlyle's purchase of the portfolio from Goldman. Q Okay. Do you know when that was? A I want to say I don't know the exact 	19 20 21	from Goldman, they had an independent engineer come in and help them with capacity factor and analysis of the plant. And then I believe that capacity factor is
19 20 21 22	 A It would have been done as of the closing date of Carlyle's purchase of the portfolio from Goldman. Q Okay. Do you know when that was? A I want to say I don't know the exact date December of 2012. 	19 20 21 22	from Goldman, they had an independent engineer come in and help them with capacity factor and analysis of the plant. And then I believe that capacity factor is what they got from their independent engineer.
19 20 21 22 23	 A It would have been done as of the closing date of Carlyle's purchase of the portfolio from Goldman. Q Okay. Do you know when that was? A I want to say I don't know the exact date December of 2012. Q Okay. So in theory, as of December 2012, 	19 20 21 22 23	from Goldman, they had an independent engineer come in and help them with capacity factor and analysis of the plant. And then I believe that capacity factor is what they got from their independent engineer. Q Okay. So was it your understanding that they
19 20 21 22 23 24	 A It would have been done as of the closing date of Carlyle's purchase of the portfolio from Goldman. Q Okay. Do you know when that was? A I want to say I don't know the exact date December of 2012. 	19 20 21 22 23 24	from Goldman, they had an independent engineer come in and help them with capacity factor and analysis of the plant. And then I believe that capacity factor is what they got from their independent engineer. Q Okay. So was it your understanding that they looked at past operations of the plant and tried to
19 20 21 22 23	 A It would have been done as of the closing date of Carlyle's purchase of the portfolio from Goldman. Q Okay. Do you know when that was? A I want to say I don't know the exact date December of 2012. Q Okay. So in theory, as of December 2012, whenever that date is in there, the PPA was worther the transmission. 	19 20 21 22 23	from Goldman, they had an independent engineer come in and help them with capacity factor and analysis of the plant. And then I believe that capacity factor is what they got from their independent engineer. Q Okay. So was it your understanding that they looked at past operations of the plant and tried to project the future or tried to make a an assumption
19 20 21 22 23 24	 A It would have been done as of the closing date of Carlyle's purchase of the portfolio from Goldman. Q Okay. Do you know when that was? A I want to say I don't know the exact date December of 2012. Q Okay. So in theory, as of December 2012, 	19 20 21 22 23 24	from Goldman, they had an independent engineer come in and help them with capacity factor and analysis of the plant. And then I believe that capacity factor is what they got from their independent engineer. Q Okay. So was it your understanding that they looked at past operations of the plant and tried to

-			
1	29 on what it would do in the future? Or what was your	1	31 extenuating circumstances, they can't come up with a
2	understanding? I guess I will put it that way.	2	value that's greater than the purchase price for the
3	A I wasn't part of that process, because at the	3	portfolio in total.
4	time I was on the other side of the transaction.	4	And so they've got to use In some respects
5	Q Okay.	5	they've got to backsolve for some of the value, in
6	A I was employed by a subsidiary of Goldman.	6	that if they for instance, if they used capacity
7	Q All right. In terms of your professional	7	factors, and they used a discount rate, they came up
8	experience, have you seen other valuation reports	8	with a value that was higher than the purchase price
9	before?	9	of the portfolio in total, it is likely that they
10	A Yes.	10	would assume one of their variables was incorrect and
11	Q Okay. Is that common practice in the	11	attempt to backsolve for either some variable that may
12	valuation reports you've had experience with that they	12	have been off, because, again, in the absence of
13	attempt to predict what's going to happen in the	13	extenuating circumstances, they've got to get back to
14	future?	14	that purchase price, because it's an allocation of a
15	A Yes.	15	purchase price. It is not specifically a valuation
16	Q Okay. Now, we see a bunch of the numbers;	16	for purposes of making a deal.
17	they change, vary from year to year. And it would be	17	The deal has already been made. The purchase
18	logical that a lot of that changes depending on the	18	price has already been set for what the
19	capacity factor and the output and everything else; am	19	transaction. So they've got that number to work with;
20	I correct in that assumption? A lot of these numbers	20	they've got to allocate it.
21	are trickling out from how much they anticipate the	21	So when they do this cash flow analysis for
22	plant is going to be used, et cetera?	22	all of the assets in the portfolio, they've got to do
23	A Absolutely, yes.	23	a certain amount of backsolving in order to come up
24	Q Okay. Now we're getting all the way we	24	with the actual purchase price paid.
25	trickle down all the way to the bottom left-hand	25	Q Okay. So is that I think you were saying,

So I don't understand that difference, because you were saying it's the allocation. But it looks to me when I look at this chart, it looks like they said, we think the plant is going to do this for 12 years. Based on the revenues that come in and the expenditures that go out, it's worth Example .	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	I know we were talking about this specific scenario, that they had the purchase price, and then they had to backsolve and tweak some variables. Again, in your experience, prior history of valuations, is that how it normally works in the deals, or was that just specific to this deal? A No. I think that's how it normally works because, again, the notion that the that the accountants are driving this a lot of times, that they're trying to get away from is negative goodwill, meaning there is one party at the outset that has it was a bargain purchase. There has to be extenuating circumstances in order to come to a bargain purchase. And so unless those extenuating circumstances exist, you know, something extreme like buying it out of bankruptcy, then the assumption is it's a fair market value; it's a transaction between willing parties. And so that purchase price, whatever it was, has to be allocated.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	column, and it comes up with that a second of number. Now when I look at the chart, they've put In you know, they have the steam revenue here, and the total revenues, and the total variable costs, all these different lines. And they come down to I'm trying to understand how the a I'm trying to understand how the b Is part of the total allocation of the purchase price, because it appears by this chart that they took In all the revenues, and they took out all the costs. And then they said that's what this PPA is going to make you In 12 years. And I'm not an accountant. I'm just old infantry playing a lawyer, so I'm hoping to understand that. So I don't understand that difference, because you were saying it's the allocation. But it looks to me when I look at this chart, it looks like they said, we think the plant is going to do this for 12 years. Based on the revenues that come In and the expenditures that go out, it's worth b How is that part of this price allocation that	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	I know we were talking about this specific scenario, that they had the purchase price, and then they had to backsolve and tweak some variables. And so that purchase price, whatever it was, has to be allocated. And so in order to make everything fit into that bucket, there has to be some backsolving and manipulation of the numbers. Again, it's not a determination of value in order to make the deal. The

1	33 process in order to do the accounting and do the tax	35	
2		2	
	filings.	3	
3	Q Okay. Just a second. Sorry.	4	
4	Based on what you just said there, the deal		
5	has been done, and you're doing some, you know,	5	
6	back what did you say, backfiling?	6	
7	A Backsolving.	7	
8	Q Backsolving. I'm sorry. Thank you. Trying	8	
9	to make sure you didn't run into the goodwill problems	9	
10	in all of the numbers.	10	
11	So then if the valuation is done in that	11	
12	order, you have the deal, and then you do this	12	
13	valuation for allocation purposes.	13	
14	A Uh-huh.	14	
15	Q Am I correct in saying it that way? Is that	15	
16	an accurate way to say it?	16	
17	A Yeah. I think so.	17	
18	Q Okay. Okay. It seems illogical to me that	18	
19	you would use a valuation like this to support the	19	
20	purchase price; am I correct in that? Because you're	20	
21	doing it after the fact.	21	
22	A You're not necessarily supporting that's	22	
23	correct. You're not supporting the purchase price.	23	
24	All you're doing is allocating what was there.	24

4	Q Okay. Where do you where do you live?	4	
5	A Charlotte, North Carolina.	5	
6	Q Okay. And that's more than 100 miles from	6	
7	Tallahassee; right?	7	
8	A Yes.	8	
9	Q And in your previous employment history, you	9	Q Don't know. So Goldman owns it in 2003, and
10	said you were with TECO, the nonregulated arm of TECO	10	then they sell it to Carlyle in 2012; is that right?
11	for a while	11	A Yes.
12	A Correct.	12	Q Okay. How much did Goldman sell it for?
13	Q is that right?	13	A I think it's in this document.
14	A Correct.	14	
15	Q And where did you go after that?	15	Q When you say "this document" are you referring to 18?
		16	
16			A This is the Duff & Phelps report, yes.
17	Q Cogentrix? And then did you leave	17	Q Why don't you point me to it.
18	Cogentrix or how did you end up at Goldman? I ouess It was before TECO?	18	A Well, it's not stated in here actually that I
19	A No. I was not at Goldman. I was when	19	could find. But if you look on page the second
20			page of the report, that's how they've allocated all
21	Goldman was the seller to Carlyle, Cogentrix was still a wholly-owned subsidiary of Goldman Sachs. So we	21	of the value. So in other words, they've allocated
22		23	O Okay Hold on a second The second second
24	didn't we weren't on the Carlyle side negotiating a deal with Goldman.	24	Q Okay. Hold on a second. The second page of
25		25	the report that I have at the bottom is CB 0042860, and that's the
20	So this the information I was pointing to ACCURATE STENOTYPE REPORTERS, INC.	25	ACCURATE STENOTYPE REPORTERS, INC.

\vdash	42	+	44
1	was that was Carlyle information, what I came to	1	A Oh, sorry. I'm on 862, which is a table.
2	know of it after the fact.	2	Q Okay.
3	Q Okay. I'm not that familiar with the	3	MR. WRIGHT: Before we can continue, I'd just
4	transactions. But maybe just walk me through a	4	like to interpose an objection as to the relevancy
5	history of Cogentrix, if you would.	5	of this information to anything having to do with
6	A A history of Cogentrix?	6	this case. But you can continue the question.
7	Q Right.	7	A So the answer to your question specifically, I
8	A Like I said, that's I've only worked there	8	would have to go back to the purchase and sale
9	since 2005. So, I mean, I know anecdotally kind of	9	agreement and actually look. I can't remember. But
10	where Cogentrix came from. Is that	10	what this implies is the values on this page, 862
11	Q You know, go ahead and just tell me what you	11	here.
12	know.	12	BY MR. MOYLE:
13	A I think it was founded in 1983 as an	13	Q So you're the you have a you're a CPA;
14	independent power company and family-owned through	14	is that right?
15	2003, I think, when Goldman bought them.	15	A Yes.
16	And then through 2003 through 2012 Goldman	16	Q Are you licensed presently?
17	owned Cogentrix as a wholly-owned subsidiary. And	17	A Yes.
18	then in 2012, Carlyle bought Cogentrix, and I guess	18	Q What states?
19	what what hasn't come out yet in this is that	19	A Florida.
20	Cogentrix now the assets of the former Cogentrix	20	Q So if I was going to look at CB 0042862, which
21	are owned by funds managed by Carlyle. So Cogentrix	21	is a page in this Duff & Phelps report, to get the
22	is no longer Cogentrix Energy Power Management is	22	purchase price, what would I what column would I
23	no longer an owner of assets. We manage the assets	23	add up?
24	for Carlyle, operate them via contract.	24	MR. WRIGHT: I'm just going to object to the
25		25	form to the extent that that It's not clear that
			ACCURATE STENOTYPE REPORTERS, INC.

	A CONTRACTOR OF	-	
	45	1	47 A Because the one on the left is fair value at
1 2	you can get the purchase price from this table. If	2	
	you can, then he can answer the question.	3	100 percent. And at the time of the purchase, not all
3	A I wouldn't try to do that, honestly, unless I	4	of the assets in the portfolio were 100 percent owned.
4	had the purchase and sale agreement in front of me, and I could reconcile what was stated in there as the	5	You can see two were 50 percent owned. Q But the Cedar Bay facility was 100 percent
5		6	Q But the Cedar Bay facility was 100 percent owned?
6 7	purchase price to what was in this table, to be honest	7	A Yes.
8	with you.	8	
9	If I tried If I just told you, well, just	9	Q So in doing this calculation, would I I subtract the numbers that are in parentheses?
10	add up in the fair value owned column, I'm not certain that would be accurate.	10	A Yes. Those are liabilities.
11	BY MR. MOYLE:	11	
12	Q I'm confused, because when I initially asked	12	Q Do you do you know the the number? If I asked you, what does the number add up to, could you
13	you the question, it was just a straight out question:	13	tell me, or do you have a calculator
14	How much did Goldman sell it for?	14	A No.
15		15	
16	A I don't the answer to that is, I don't remember.	16	Q or I could give A No.
17	Q Okay. But then you went to this table and	17	Q vou a calculator?
18	said, I look at this table. So that tells me, I mean,	18	A No, not without doing the math, no.
10		19	
20	If we're allocating allocating a purchase price, you don't pay Duff & Phelps to allocate only a portion	20	A (Performing calculations.) I can round, hopefully.
21	of the purchase price; right?	21	Profile and a strategy of the second se
22	A Correct.	22	Q Yeah, round. A The phone calculator is not what I'm used to.
23	Q So wouldn't the logic follow that this table,	23	A The phone calculator is not what I'm used to.
24	if you add it all up, it gets you to the purchase	24	9
25	price, if it's 100 percent allocation?	25	A Uh-huh.
20	ACCURATE STENOTYPE REPORTERS, INC.	20	ACCURATE STENOTYPE REPORTERS, INC.
			ACCOUNTE OTENOTITE REFORTERS, INC.
	46		48
1	A Yes. But I want to qualify that in that I	1	Q Thank you.
2	wouldn't say that that's the purchase price unless I	2	A Uh-huh.
3	reconciled it to the document that was an actual	3	Q And do you know why there were parentheses
4	purchase and sale agreement.	4	around the two Cedar Bay numbers, Cedar Bay MSA and
5	Q And you would you would reconcile it for	5	Cedar Bay OMA?
6	the purchase and sale as a double-check; correct?	6	A Yes. The Cedar Bay, the that stands for
7	A Yes.	7	MSA agreement and operations and management agreement.
8	Q It's not because you don't have confidence in	8	Those agreements are legacy agreements at the plant.
9	these	9	And so those they date back to I think the
10	A Correct.	10	beginning of when the plant went in service. And the
11	Q numbers?	11	fees associated with those contracts are what the
12	A Correct. I would want to make sure. Again,	12	accountants would call out of market at this point in
13	this document was prepared a while ago. I haven't	13	time, because they're you can't charge as much as
14	looked at it in a while. And so I would want to make	14	you were able to in the early '90s for those types of
15	sure that I was able if I added up the numbers in	15	contracts.
16	one of these columns, it actually equaled what was	16	Q And the MSA stands for what?
17	said in the purchase and sale agreement.	17	A Management services agreement.
18	Q Which which column would you add up? And	18	Q Okay. And the OMA stands for operations and
19	for the purposes of the record, there's two columns;	19	maintenance agreement?
20	one that is more to the left of the page and one	20	A Yesh.
21 22	that's more to the right of the page.	21	Q And do you know the term of those two
22	So if you would tell me which column you would	23	agreements as we sit here today?
23 24	add up to determine the	23	A I don't. I don't know whether they're for the
24 25	A The one on the right.	25	entire term or they renew, you know, periodically with
20	Q And why would you do that? ACCURATE STENOTYPE REPORTERS, INC.	20	an evergreen clause of some sort. ACCURATE STENOTYPE REPORTERS, INC.

It's just usually more efficient to do that, because they are used to doing it. And obviously it involves a lot of data crunching. And it's easy to make errors. It's better to have an expert do it. Q All right. It seems to me I don't know much about this, I will confess. But it seems to me that you don't have a lot of discretion with respect to allocation. I mean you couldn't kind of do it randomly and say, you know, let's kind of reallocate it this way, put all the value on, you know, and none of the value on the other assets, and we just agreed with it, and that works? A That's right. Q And that's right why? A Well, I guess It also depends on on how you're going to use the allocation once it's been 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	form, because I think it's ambiguous as to what you mean by "basis," Jon. BY MR. MOYLE: Q Do you understand what I meant by "basis"? A I understand, but I the basis could occur at many levels, you know, within the organization. Q So does the basis get reset after a deal like this is consummated? So now all of a sudden Carlyle owns it; they paid a certain amount for it, for capital gains purposes, or other they take it at a certain basis; right? A They do. But, again, Carlyle, you know, it's owned by funds. And I don't know what happens from a fund accounting level. And so the basis that you're talking about, from the purchase, gets gets pushed down into the financials at you know, they didn't get pushed into Cedar Bay Generating; they got pushed into upper level entities. And so the basis is reset there based on this. And if Carlyle has further adjusted it, I have no knowledge of that. Q Right. I understand how it could be split
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	 stipulates in accordance with tax regulations. Sometimes it stipulates it needs to be done in accordance with GAAP. Sometimes it's silent and just says the parties agree that one will be done. Q Why do you have to get an appraiser to do it? A You don't. It's just usually more efficient to do that, because they are used to doing it. And obviously it involves a lot of data crunching. And it's easy to make errors. It's better to have an expert do it. 1	understand. Let's just say you kept it at this level,	1	
2	and you didn't upstream it or force it up. Would it	2	
3	be or would it be close to that? Or you just	3	
4	there is nothing in this report that would tell you	4	
5	that?	5	
6	A No. It would be, based on this report, at the	6	
7	entities that were that the purchase price was	7	Maar .
8	allocated to, it would be in that particular instance	8	
9	, and it would be amortized through to the end of	9	
10	the PPA.	10	
11	MR. WRIGHT: I'm just going to note a	11	
12	continuing objection to this line of questioning as	12	
13	to its relevance to this proceeding.	13	
14	MR. MOYLE: And I would just note that I think	14	
15	we've had a discussion about what this report is	15	
16	and done by appraisers, and I think it has	16	
17	information related to value that is relevant. But	17	
18	we will probably none of us in this room can	19	
19	decide that today, so we will move on. BY MR. MOYLE:	20	
20		21	
22	Q What do you know about Duff & Phelps? A Just generally?	22	
23	Q Yeah.	23	
24	A I just know them as a valuation firm that we	24	
25	have used in the past.	25

	57		69
1	that?	1	
2	A I don't think you can simplify it like that.	2	
3	If if gas went to 15 bucks, it depends on what	3	
4	the what the coal purchase price at St. Johns River	4	
5	Power Park is versus our own coal purchase price, what	5	
6	that differential is, and then how much Cedar Bay is	6	
7	going to run. Again, the best scenario is don't run	7	
8	at all.	8	
9	Q And the reason that's the best scenario is, is	9	
10	you very nicely said it. I was floundering around	10	
11	with it for a couple of days trying to understand the	11	3
12	point.	12	1
13	But I think you said it was because of the	13	3
14	production margin differential; is that right?	14	
15	A Right.	15	
16	Q And does that, in effect, mean that it costs	16	
17	you you know, when you're running you're losing	17	
18	money, because it costs you more to run than the	18	
19	revenue you receive?	19	
20	A If the coal price differential is what it has	20	
21	been in the recent past, yes. It fluctuates, because	21	
22	the cost at St. Johns River Power goes up and down	22	
23	based on what we buy coal for, and ours goes up and	23	1
24	down based on the timing of our reopeners in our coal	24	1
25	contract. It's been narrow at times; it's been wide	25

14	Q Sure. I'm just trying to get your impression	14	
15	or ask you to agree with me that to the extent that	15	
16	the RockTenn steam agreement de-risks the deal from	16	
17	your perspective, because It gave you greater	17	
18	certainty that you would continue to be a QF, you	18	
19	continue to be a QF, you get your capacity payments,	19	
20	with FPL buying it, the fact that this RockTenn	20	
21	agreement is there may not be that significant?	21	
22	MR. WRIGHT: I object to the form.	22	
23	A Yeah, in terms of significant, I'm not sure	23	
24	significant to whom? I mean	24

1	Cogentrix or Carlyle?	1	
2	A Not specifically.	2	
3	Q Generally?	3	
4	A Not persons. As far as I know, it took place	4	
5	at what I will call the Carlyle level.	5	
6	Q What does that mean?	6	
7	A That people at Carlyle spoke with people at	7	
8	FPL and negotiated a deal.	8	
9	Q Who would the people at Carlyle typically be	9	Q Okay. Have the covenants ever not been
10	that would be arranging such a deal?	10	complied with at any point in time, as far as you
11	A Potentially Jim Larocque.	11	know?
12	Q How do you spell his last name?	12	A Of the current loan?
13	A L-A-R-O-Q-U-E [sic], I think.	13	Q Or the preceding loan.
14	Q What position does he hold?	14	A The current loan I don't know of any any
15	A I don't know specifically within Carlyle.	15	defaults in the covenants. In the preceding loan
16	Q Who else?	16	there was a I believe a payment default. But I
17	A I don't know.	17	don't know of other covenant defaults.
18	Q Why do you say you think Jim Larocque would	18	Q And what prompted that payment default?
19	have been involved in this deal?	19	A I think that I was in a different position
20	A From a Carlyle perspective, he is the person	20	at the time, so I wasn't as involved in the financing
21	who is most involved in Cedar Bay.	21	aspect. I was the controller, in charge of the
22	Q What is your involvement with Carlyle? How do	22	accounting only.
23	you interact with them?	23	But as far as I know, the loan, as structured
24	A Mostly to provide information you know,	24	at that time, had high fixed payments. And so when
25	information requests, monthly financial statement	25	Cedar Bay had operational issues in the 2007-2008 time

	93	T	95
1		1	A On the property tax rolls. As far as far
2		2	as my memory serves, yes, the tangible personal
3		3	property that's taxable.
4		4	Q Right. And did you have you had
5		5	conversations with them about how they got to the 120
6		6	number, I assume?
7		7	A No, I did not. Gary Heichel had meetings with
8		8	them. But it's a it's that number, as far as I
9		9	know, has been on the tax rolls for a long time. And
10		10	so I'm not sure there is direct information about how
11		11	it got to 120.
12		12	Q And where does that stand as we sit here
13		13	today?
14		14	A It is in litigation, as far as I know, because
15		15	we filed an appeal. There was a hearing. They denied
16		16	the appeal. And then through attorneys, we have we
17	Q The property tax assessment, do you have	17	made a claim. And it's not resolved at this point.
18	information about that that is ongoing?	18	
19	A Yes.	19	
20	Q Tell me what you know about that, please.	20	
21	A The Cedar Bay facility, from a property tax	21	
23	perspective, the Duval County taxes, the tangible value of the facility. And as we have been talking	22	
24	about, you can from a value perspective, you split	24	
25	the facility into its tangible components and	25

1		1	A Sure.
2		2	Q Yeah. I've handed you a document that we will
3		3	mark as Exhibit 21.
4	Q What information, if any, do you have about	4	(Exhibit No. 21 was identified for the
5	the two budgets for 2015, the skinny budget and the	5	record.)
6	other budget?	6	BY MR. MOYLE:
7	A I know about them.	7	Q It's entitled "Cedar Bay Generating Company,
8	Q And what is your understanding of the request	8	Limited Partnership, Financial Statements December 31,
9	from Carlyle?	9	2014, and 2013."
10	A I'm not sure what request you're talking	10	Are you familiar with this document?
11	about.	11	A Yes.
12	Q There was a request that says, the only issue	12	Q The first question, what why do you have a
13	with the high level model is the request from Carlyle,	13	financial statement when it says 2014 and '13? Are
14	as I understand it, is to have a working budget that	14	they two years' worth of financial statements, or is
15	could be used in the event of closing.	15	that something in the industry that
16	MR. WRIGHT: Jon, are you referring to a	16	A No, that's a standard GAAP convention of
17	document that we can show the witness?	17	comparative financial statements; GAAP meaning
18	MR. MOYLE: I am. It's a document that's	18	Generally Accepted Accounting Standards.
19	dated November 12, 2014. I think it's already in.	19	Q Okay. Page 3, I sometimes, with financial
20	MR. WRIGHT: I was hoping that and hoping that	20	statements, like to try to go to the bottom line. And
21	we could identify it.	21	if I were to do that with this financial statement,
22	MR. MOYLE: I think it's Exhibit 14. Exhibit	22	would would that would the bottom line be found
23	14.	23	on page 3, where it says, net income and comprehensive
24	MR. WRIGHT: Thanks. Looks like that might be	24	income?
25	it.	25	A That's where that caption is, yes.

1	instruments where money was owed, I would kind of say,	1	about the second s
2	hey, I would like to get paid. But you're telling me,	2	On page 3 there is a very simple statement
3	no, that's not how it's going to happen.	3	that says, "Cedar Bay is a 250 megawatt coal fired
4	And so, are those people just going to be	4	generation facility located in Jacksonville, Florida,
5	told, you don't have any money coming, or you have	5	paren, the project, when we owned by
6	money, but we're going to pay it as a return on	6	and and owned by an arrest "
7	equity? What's going to happen?	7	Is that accurate?
8	A No. This debt is owed within the group of	8	A That's what's included in this, yes.
9	companies that FPL is buying. It's the owners of the	9	Q And you have a provision that talks about the
10	generating company have loaned the generating company	10	proceeds of the term loan, what they're going to be
11	money over time, which really represents their equity	11	used to do?
12	In the project. And so that's not Cogentrix or	12	A yes.
13	anybody else.	13	Q Senior secured indebtedness at Cedar Bay, what
14	That's within a group of companies that FPL is	14	was that? Was that the paper that was on it that you
15	buying. And so that will go away with the	15	had to get kind of
16	transaction, because they will own both sides of the	16	A The existing debt, yes.
17	debt and the investment in the debt.	17	Q Okay. And then cash collateralized security
18	Q So those entities will have a capital gain	18	obligations, what's that?
19	likely; Is that right?	19	A Cash collateralize, any debt service reserve,
20	A Which entity?	20	anything like that that we needed security for.
21	Q The entities that hold the debt, the	21	Q Did you need to do that?
22	intercompany entities that hold the debt.	22	A Yeah. That's standard. You can either cash
23	A I don't think so. I'm not a tax expert, but that is going with the transaction. I would have to	23	collateralize or use a letter of credit.
24	look back in the PSA and see exactly what is happening	25	Q And how had you done it prior to that? Was there cash had it been cash collateralized?

Q So who are the sponsors in this offer? A On this particular overview, I'm listed, and Statement at the islated. Q Okay. And on page 8, I appreciate the individuals, but that lists the overview of the sponsors being Statement and Statement right? A Yes. Q Okay. So back to that bullet point, repay a portion of the subordinated debt accrued interest held by certain sponsor affiliates of Cedar Bay.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	 A I think so. But this is as identified in 01, this is a simplified organizational structure. So I would want to look at our real active organizational structure to say that. It's a lot of entities in it, so I wouldn't want to speculate. But interference is no longer in the picture. Q Correct. Okay. It's a fair representation of the structure in a general sense? A Generally. Q Somebody loaned you 250 on it; right? A Right. It says we have ref'd to this
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	of the term "sponsor" in these documents? A I think we named the sponsors in here. So a sponsor is really just something somebody who the lenders can look to as, you know, the primary contact with respect to the offer, who is going to sign their engagement letter, et cetera. Q So who are the sponsors in this offer? A On this particular overview, I'm listed, and individuals, but that lists the overview of the sponsors being individuals and individuals, but that lists the overview of the sponsors being individuals and individuals, but that lists the overview of the sponsors being individuals and individuals right? A Yes. Q Okay. So back to that bullet point, repay a portion of the subordinated debt accrued interest held by certain sponsor affiliates of Cedar Bay. Did debt held by individuals or individuals get paid	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	 A I think so. But this is as identified in 01, this is a simplified organizational structure. So I would want to look at our real active organizational structure to say that. It's a lot of entities in it, so I wouldn't want to speculate. But interference is no longer in the picture. Q Correct. Okay. It's a fair representation of the structure in a general sense? A Generally. Q Somebody loaned you 250 on it; right? A Right. It says we have ref'd to this
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	of the term "sponsor" in these documents? A I think we named the sponsors in here. So a sponsor is really just something somebody who the lenders can look to as, you know, the primary contact with respect to the offer, who is going to sign their engagement letter, et cetera. Q So who are the sponsors in this offer? A On this particular overview, I'm listed, and Something at the sponsors in this offer? A On this particular overview, I'm listed, and A On this particular overview, I'm listed, and Something at the sponsors is listed. Q Okay. And on page 8, I appreciate the individuals, but that lists the overview of the sponsors being A Yes. Q Okay. So back to that bullet point, repay a portion of the subordinated debt accrued interest held by certain sponsor affiliates of Cedar Bay. Did debt held by A Yes?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	 A I think so. But this is as identified in 01, this is a simplified organizational structure. So I would want to look at our real active organizational structure to say that. It's a lot of entities in it, so I wouldn't want to speculate. But interference is no longer in the picture. Q Correct. Okay. It's a fair representation of the structure in a general sense? A Generally. Q Somebody loaned you 250 on it; right? A Right. It says we have ref'd to this
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	of the term "sponsor" in these documents? A I think we named the sponsors in here. So a sponsor is really just something somebody who the lenders can look to as, you know, the primary contact with respect to the offer, who is going to sign their engagement letter, et cetera. Q So who are the sponsors in this offer? A On this particular overview, I'm listed, and M Okay. And on page 8, I appreciate the individuals, but that lists the overview of the sponsors being M M M M M M M M M M M M right? A Yes. Q Okay. So back to that bullet point, repay a portion of the subordinated debt accrued interest held by certain sponsor affiliates of Cedar Bay. Did debt held by M M M M M M M M M M M M M M A No. What was paid off was accrued interest on	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	 A I think so. But this is as identified in 01, this is a simplified organizational structure. So I would want to look at our real active organizational structure to say that. It's a lot of entities in it, so I wouldn't want to speculate. But interference is no longer in the picture. Q Correct. Okay. It's a fair representation of the structure in a general sense? A Generally. Q Somebody loaned you 250 on it; right? A Right. It says we have ref'd to this
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	of the term "sponsor" in these documents? A I think we named the sponsors in here. So a sponsor is really just something somebody who the lenders can look to as, you know, the primary contact with respect to the offer, who is going to sign their engagement letter, et cetera. Q So who are the sponsors in this offer? A On this particular overview, I'm listed, and Sector at the instead of the sponsors being is listed. Q Okay. And on page 8, I appreciate the individuals, but that lists the overview of the sponsors being in the overview of the subordinated debt accrued interest held by certain sponsor affiliates of Cedar Bay. Did debt held by in the 250? A No. What was paid off was accrued interest on the intercompany debt between the Cedar Bay affiliated	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	 A I think so. But this is as identified in 01, this is a simplified organizational structure. So I would want to look at our real active organizational structure to say that. It's a lot of entities in it, so I wouldn't want to speculate. But interference is no longer in the picture. Q Correct. Okay. It's a fair representation of the structure in a general sense? 	8	Q Okay. I'm assuming that this PPA, that
9	8	Q Okay. I'm assuming that this PPA, that that the value of the PPA is declines as time goes
	1.2	
9	9	that the value of the PPA is declines as time goes
9 10	9 10	that the value of the PPA is declines as time goes on; is that right, because there is less capacity
9 10 11	9 10 11	that the value of the PPA is declines as time goes on; is that right, because there is less capacity payments, and every year that rolls by so the value
9 10 11 12	9 10 11 12	that the value of the PPA is declines as time goes on; is that right, because there is less capacity payments, and every year that rolls by so the value would decline?
9 10 11 12 13	9 10 11 12 13	that the value of the PPA is declines as time goes on; is that right, because there is less capacity payments, and every year that rolls by so the value would decline? A Yeah, cash flows roll off.
9 10 11 12 13 14	9 10 11 12 13 14	that the value of the PPA is declines as time goes on; is that right, because there is less capacity payments, and every year that rolls by so the value would decline? A Yeah, cash flows roll off. Q Page 14. The MPV of contracted cash flows, what is that? A That's just showing the different discount
9 10 11 12 13 14 15	9 10 11 12 13 14 15	that the value of the PPA is declines as time goes on; is that right, because there is less capacity payments, and every year that rolls by so the value would decline? A Yeah, cash flows roll off. Q Page 14. The MPV of contracted cash flows, what is that?
9 10 11 12 13 14 15 16	9 10 11 12 13 14 15 16	that the value of the PPA is declines as time goes on; is that right, because there is less capacity payments, and every year that rolls by so the value would decline? A Yeah, cash flows roll off. Q Page 14. The MPV of contracted cash flows, what is that? A That's just showing the different discount
9 10 11 12 13 14 15 16 17	9 10 11 12 13 14 15 16 17	that the value of the PPA is declines as time goes on; is that right, because there is less capacity payments, and every year that rolls by so the value would decline? A Yeah, cash flows roll off. Q Page 14. The MPV of contracted cash flows, what is that? A That's just showing the different discount rates, what the value of the cash flows from FPL would
9 10 11 12 13 14 15 16 17 18	9 10 11 12 13 14 15 16 17 18 19 20	that the value of the PPA is declines as time goes on; is that right, because there is less capacity payments, and every year that rolls by so the value would decline? A Yeah, cash flows roll off. Q Page 14. The MPV of contracted cash flows, what is that? A That's just showing the different discount rates, what the value of the cash flows from FPL would be If you chose these different discount rates.
9 10 11 12 13 14 15 16 17 18 19	9 10 11 12 13 14 15 16 17 18 19	that the value of the PPA is declines as time goes on; is that right, because there is less capacity payments, and every year that rolls by so the value would decline? A Yeah, cash flows roll off. Q Page 14. The MPV of contracted cash flows, what is that? A That's just showing the different discount rates, what the value of the cash flows from FPL would be if you chose these different discount rates. Q And so if we were doing this calculation
9 10 11 12 13 14 15 16 17 18 19 20	9 10 11 12 13 14 15 16 17 18 19 20 21 22	that the value of the PPA is declines as time goes on; is that right, because there is less capacity payments, and every year that rolls by so the value would decline? A Yeah, cash flows roll off. Q Page 14. The MPV of contracted cash flows, what is that? A That's just showing the different discount rates, what the value of the cash flows from FPL would be if you chose these different discount rates. Q And so if we were doing this calculation today this was done on March 20th, 2013; that was
9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	 that the value of the PPA is declines as time goes on; is that right, because there is less capacity payments, and every year that rolls by so the value would decline? A Yeah, cash flows roll off. Q Page 14. The MPV of contracted cash flows, what is that? A That's just showing the different discount rates, what the value of the cash flows from FPL would be if you chose these different discount rates. Q And so if we were doing this calculation today this was done on March 20th, 2013; that was two years before. If you did this same calculation today, the numbers would be lower; right? A Not necessarily. It depends on the discount
9 10 11 12 13 14 15 16 17 18 19 20 20 21 22 23 24	9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	 that the value of the PPA is declines as time goes on; is that right, because there is less capacity payments, and every year that rolls by so the value would decline? A Yeah, cash flows roll off. Q Page 14. The MPV of contracted cash flows, what is that? A That's just showing the different discount rates, what the value of the cash flows from FPL would be if you chose these different discount rates. Q And so if we were doing this calculation today this was done on March 20th, 2013; that was two years before. If you did this same calculation today, the numbers would be lower; right? A Not necessarily. It depends on the discount rate you use, which is a function of operating risk.
9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	 that the value of the PPA is declines as time goes on; is that right, because there is less capacity payments, and every year that rolls by so the value would decline? A Yeah, cash flows roll off. Q Page 14. The MPV of contracted cash flows, what is that? A That's just showing the different discount rates, what the value of the cash flows from FPL would be if you chose these different discount rates. Q And so if we were doing this calculation today this was done on March 20th, 2013; that was two years before. If you did this same calculation today, the numbers would be lower; right? A Not necessarily. It depends on the discount rate you use, which is a function of operating risk. This is showing the lenders what their collateral
9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	 that the value of the PPA is declines as time goes on; is that right, because there is less capacity payments, and every year that rolls by so the value would decline? 	113	1	115 from a third party recording dispatch inputs from a	
1	value is at the time that they're making the loan and	2	from a third party regarding dispatch, inputs from a	
3	showing some scenarios where it ranges from	3	third party regarding coal costs, St. Johns River Power Park, et cetera.	
4	Q Is this valuing the PPA, the cash flows of the	4		
5	PPA?	5	Q Okay. Page 19. That capacity factor I've highlighted in there, it falls off precipitously from	
6	A Yes.	6	'11 to '12. Why is that?	
7	Q And if you when you say that you use	7	A The plant ran less; it was dispatched less by	
8	different discount rates, that means the	8	FP&L.	
9	The second races, the means the second	9	Q And that's a good thing economically?	
10	A Yes.	10	A Yes.	
11	Q Okay. So the issue is the	11	Q Page 21, your modeling assumptions. We were	
12	and you ran the numbers today,	12	just talking about the modeler. Are those the	
13	the PB of FCF would be lower; wouldn't they?	13	assumptions that went into it?	
14	MR. WRIGHT: I'm going to object that that is	14	A Some of them.	
15	a potentially ambiguous.	15		
16	A That's not an accurate statement, because	16		
17	it's these numbers are a function of the model that	17		
18	was used in this financing, which includes a certain	18		
19	dispatch rate. It includes certain assumptions of	19		
20	St. Johns River Power Park. It includes certain	20		
21	assumptions about our cost of coal.	21		
22	So to the extent that any of those factors	22		
23	have changed, then applying these same discount rates	23		
24	will not yield the same numbers. This was based on a	24		
25	model that was presented to lenders at the time. If	25		
	ACCURATE STENOTYPE REPORTERS, INC.			
	114		116	_
1	you applied these discount rates, this is what the	1		
2	value of the PPA, their collateral would be.	2		
3	BY MR. MOYLE:	3		
4	Q Okay. That's helpful. So the model may have	4		
5	inputs that have changed in effect. It's not as	5		
6	simple as just running math a	6		
7	and the second se	7		
8	A That's correct.	8		
9	Q on a cash stream?	9		
10	A That's correct.	10		
11	Q Because there are a bunch of other independent	11		
12	variables?	12		
13	A Yes.	13		
14	Q What's the model that you used to run this?	14		
15	A It's just an Excel-based set of spreadsheets	15		
16	that has all the different variables rolled into	16		
in the second	essentially a long-term cash flow.	18		
18 19	 Q Is it do you have a name for it? A Just a base case model. It may be in here 	10		
20	somewhere. It may be the financial projections may	20		
21	be in here. It think it was provided in the materials.	21		
22	Q All right. So would it be fair to say at this	22		
23	point in time this is what the cash flows represented,	23		
24	depending on the discount rate used?	24		
25	A Yeah. This, again, it was based on inputs	25

1	, ,	1	MR. BUTLER: I'm sorry. Page 6 of Exhibit 3.	
2	N 프로그램 등 1911년 - 1921년 1921년 - 1921년 1921년 - 1921년 1921년 1 921년 1921년 1921년 1921년 1921년 1921년 1921년 1921년 1921년 1	2	I'm still looking to Exhibit D.2 in the Duff &	
3	The second	3	Phelps.	
4	Q Okay. And your actual for 2012 was 82.7	4	the machine board you show me what you	
5	million; correct?	5	looking at?	
6	A Yes.	6	MR. BUTLER: The section entitled "reliable	
7	Q Okay. And that compares to what on the	7	operating performance."	
8	Exhibit D.27	8	(Discussion off the record.)	
9	A I think it's	9	BY MR. BUTLER:	
10	Q So something like and solution on the	10	Q So, again, focussing on the 2012 through 2014	
11	excuse me excuse me projections in the Duff &	11	actuals versus Duff & Phelps 2012 through 2014	
12	Phelps report compared to your actuals	12	projections, this shows an actual capacity factor of	
13	A Yes.	13	31 percent for 2012; is that right	
14	Q is that correct?	14	A Correct.	
15	A Uh-huh.	15	Q on Exhibit 3?	
16	Q Okay. And then for 2013 you show actuals of	16	A Yes.	
17	50.6 million; correct?	17	Q And then the figure, it looks like, as	
18	A Correct.	18	capacity factor for 2012 projected with something like	
19	Q And that compares to a projection for 2013 in	19		
20	the Duff & Phelps report of, what do you see what	20	A Yes.	
21	do I see there?	21	Q Okay. And then for 2013, there is a an	
22	A I think it's	22	actual capacity factor of 36.1 percent. And that	
23	Q So something like	23	compares to projections. Is that an an an area of the that	
24	in the excuse me projections than the actuals;	24	A Yes. Yes.	
25	correct?	25	Q Okay. And finally, 2014 actual of 40.2	
	ACCURATE STENOTYPE REPORTERS, INC.		ACCURATE STENOTYPE REPORTERS, INC.	
			Account of End the End the End of the Report End, inc.	
	122		124	
1	A Yes.	1	percent, and that compares to I have a hard time	
2	Q And then finally, for 2014 you have 53.8	2	reading that. I guess it's	
3	million actual, and it looks like about	3	A Contraction	
4	is that right?	4	Q or something like that?	
		-	ac of something like that?	
5	A Yes.	5	A Yes.	
5 6	A Yes. Q Something like roughly or any or		승규가 물고 있는 것 것은 것 가 안 물고 가지 않는 것이 같이 물건이 없는 것 같은 것 같	
100		5	A Yes.Q All right. Excuse me. So in each of those

We're getting some fairly loud vibrations that the microphone is picking up that's causing some difficulty hearing down at this end. MR. BUTLER: Sorry about that. MR. BUTLER: Q As you had discussed earlier on because of the phenomenon of the relationship between energy payments and cost of generation for Cedar Bay 	
6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	 Q Something like roughly or second A Yes. Q less? Okay. Would lower EBITDA figures in the projection, if that carried through as a trend throughout the analysis, would that tend to result in a lower fair value than higher figures for that EBITDA in same projection? MR. MOYLE: I'm going to object to the form. BY MR. BUTLER: Q If the EBITDA in Exhibit D.2 for each of these years were higher than it shows here, would that result in a higher fair value calculated for the PPA? A Yes. Q Okay. Can I ask you to turn to page 6, page 6 in Exhibit 3. A Yes. Q Okay. And this shows excuse me one of the things it shows in the table on page 6 are the 	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	 A Yes. Q All right. Excuse me. So in each of those years where one can compare actuals to what was projected by Duff & Phelps, we were seeing a excuse me a lower actual capacity factor than what had been projected; is that right? A Yes. Q Okay. The lower the lower projected I'm sorry, the lower MR. WRIGHT: Excuse me. We're getting some fairly loud vibrations that the microphone is picking up that's causing some difficulty hearing down at this end. MR. BUTLER: Sorry about that. MR. BUTLER: Q As you had discussed earlier on because of the phenomenon of the relationship between energy payments and cost of generation for Cedar Bay facility, lower capacity factors are actually good in

	125	127	
1	A Yes.	1	
2	MR. MOYLE: Object to the form.	2	
3	THE WITNESS: Sorry.	3	
4	BY MR. BUTLER:	4	
5	Q Would you please comment on whether or not	5	
6	lower capacity factors are likely to result in higher	6	
7	or lower income for the Cedar Bay facility in a	7	
8	particular year?	8	
9	A Lower capacity factors are likely to result in	9	
10	higher Income for the facility in a particular year.	10	
11	Q If you look out at the capacity factors that	11	
12	were reflected in the Duff & Phelps valuation for the	12	
13	years after 2014, the figures, it looks like they are	13	
14	all ranking from a low of mid	14	
15		15	
16	Is that consistent with your current	16	
17	expectation of capacity factors for the Cedar Bay	17	
18	facility in the years from 2015 through 2024?	18	
19	A No.	19	
20	Q Do you expect your current expectation is	20	
21	that the capacity factors would be lower or higher	21	
22	than those values projected by Duff & Phelps?	22	
23	MR. MOYLE: Object to the form.	23	
24	BY MR. BUTLER:	24	
25	Q You can answer the question.	25

EXHIBIT D

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

)

In re: Petition for Approval of Arrangement to Mitigate Impact of Unfavorable Cedar Bay Power Purchase Obligation, by Florida Power & Light Company.

DOCKET NO. 150075-EI FILED: July 10, 2015

AFFIDAVIT OF JACOB A. POLLACK IN SUPPORT OF CEDAR BAY GENERATING COMPANY'S REVISED EIGHTH REQUEST FOR CONFIDENTIAL CLASSIFICATION

STATE OF NORTH CAROLINA

COUNTY OF MECKLENBURG

BEFORE ME, the undersigned authority duly authorized to administer oaths, personally appeared Jacob A. Pollack, who being first duly sworn, on oath deposes and says that:

1. My name is Jacob A. Pollack. I am over the age of 18 years old and I have been authorized by Cedar Bay Generating Company, Limited Partnership ("Cedar Bay") to give this affidavit in the above-styled proceeding on Cedar Bay's behalf and in support of Cedar Bay's REVISED Eighth Request for Confidential Classification. I have personal knowledge of the matters stated in this affidavit.

2. I am Vice President and Secretary for Cedar Bay. I am also Senior Vice President and General Counsel for Cogentrix Energy Power Management, LLC ("CEPM"), which (1) is an affiliate of Cedar Bay, and (2) employs S. Mark Rudolph and Clifford D.

Evans, who have been deposed in connection with this proceeding. My business address is 9405 Arrowpoint Boulevard, Charlotte, North Carolina 28273. I am responsible for all legal, corporate governance, and corporate records matters for Cedar Bay and CEPM.

3. Cedar Bay is seeking confidential classification for portions of the prefiled testimony and exhibits of Florida Industrial Power Users Group's witness Michael G. Lane as well as portions of the deposition transcripts of Clifford D. Evans and Stephen Mark Rudolph, as more specifically identified in Exhibits A and C of Cedar Bay's REVISED Eighth Request for Confidential Classification.

4. Cedar Bay is requesting confidential classification of this information because it is competitively sensitive confidential business information, in that it contains information concerning internal business plans, projected capital expenditures, confidential contractual negotiations, contractual arrangements, internal budget projections, financial forecasts, plant operations, and other competitively sensitive commercial information. The disclosure of this information to third parties would adversely impact Cedar Bay's and/or its affiliates' competitive business interests and otherwise harm Cedar Bay and/or its affiliates.

5. The information identified in Exhibit A and Exhibit C is intended to be and is treated as confidential by Cedar Bay and has not been disclosed to the public.

6. This concludes my affidavit.

an Jacob A. Pollack

Vice President and Secretary Cedar Bay Generating Company, LP 9405 Arrowpoint Boulevard Charlotte, North Carolina 28273

SWORN TO AND SUBSCRIBED before me this 10" day of ack, who is personally known to me or who 2015, by (type of has produced

identification) as identification and who did take an oath.

Public, State of North
