Re: Docket No. 150102-SU

This letter is written in response to notification that Charlotte County by Utilities, Inc. of Sandalhaven is requesting a rate increase for wastewater utilities. It's unfortunate the anticipated growth in the community didn't take place, but existing residents should not be forced to make up the loss. A small increase would be acceptable.

Most homeowners in Sandalhaven Estates spend approximately five months in Florida annually, and an increase in wastewater rates for the seven months of non-use is inappropriate.

We hope you will consider our concerns in making your determination of a rate increase for Utilities, Inc.

Sincerely,

  
Richard & Janet Young
