The address for these entities for purposes of this application is:

60 West Avenue, Room 405, Wayne, PA. 19087.

Date of Planned Service Discontinuance (47 C.F.R. §§ 63.71(a)(2), (b)(2)):

AT&T plans to discontinue this service to its retail customers on or after March 18, 2015, subject to Commission authorization of the discontinuance. In addition, AT&T plans to discontinue this service to wholesale customers that purchase these services pursuant to an agreement on or after June 4, 2016¹, subject to Commission authorization pursuant to 47 C.F.R. § 63.71(c).

Points of Geographic Areas of Service Affected (47 C.F.R. §§ 63.71(a)(3), b(2)):

AT&T will discontinue this service throughout its geographic service areas throughout the United States² including the District of Columbia and the U.S. territories of Puerto Rico and the U.S. Virgin Islands.

Brief Description of Type of Service Affected (47 C.F.R. §§ 63.71(a)(3), b(2)):

AT&T is discontinuing the following Operator Services:

¹ AT&T began providing its wholesale customers notice of these service changes in 2014, but out of an abundance of caution, AT&T is providing its wholesale customers additional time to address any applicable customer notification and/or legal/regulatory requirements.

² This proposed discontinuance of service does not apply to AT&T Corp.'s local residential customers in Maine, New Hampshire and Vermont. In these states, AT&T Corp. provides local services under an agreement with FairPoint Communications, and will continue to provide all Operator Services provided by FairPoint, until such time as FairPoint discontinues such services or until AT&T Corp no longer provides local residential services in those states. However, this proposed discontinuance applies to interstate Operator Service provided by AT&T Corp. to residential and business customers.

1. **Collect Calling** - a billing arrangement by which the charge for an operator assistance call may be reversed (charged to the called station) provided the charge is accepted at the called station.
2. **Person-to-Person Calling** - a service where the person originating an operator assistance call specifies to the Company operator a particular person to be reached, a particular mobile service point to be reached through a Mobile Telephone Service attendant, or particular PBX service point, department, or office to be reached.
3. **Billed to Third Party** - a billing arrangement by which an operator assistance call may be charged to an authorized station as determined by the Company other than the station originating the call or the station where the call is terminated.
4. **Busy Line Verification (BLV)** - allows an operator to establish a "talking" connection to an apparently busy station line to determine if the station line is in working order.
5. **Busy Line Interruption (BLI)** - allows an operator to interrupt a voice conversation in progress on a line to advise the interrupted subscriber that the interrupting party has a need to reach the subscriber.
6. **International Directory Assistance** - allows customers to obtain telephone numbers for international locations where such information is available to AT&T.

AT&T is discontinuing these services because of low market demand. Operator assistance calls have been declining at a rate of about 18.0% per year for the last several

years. Indeed, AT&T's operator assistance traffic volumes have dropped by 93% since 2004, and on average, AT&T has experienced more than an 18.7% decline in the volumes of these services over the last two years. These services have declined in popularity over the years due to the growth of other communication methods, including mobile phones, text messaging, email, and other social media applications. In regards to International Directory Assistance, many international telecommunications carriers no longer provide operator assistance services, which makes AT&T's service obsolete in those countries.

Further, if an end user wishes to continue to use these services, they can obtain alternative services from other wireline interexchange carriers providing operator services. Equal access and toll presubscription continues to be available, therefore, customers can reach their preferred primary IXC operator by dialing 00, or can reach a different IXC using widely available dial around services such as 10XXX, 800 numbers, etc. For all of these reasons, the public convenience and necessity will not be impaired by the discontinuance of these services.

AT&T will continue to provide Sent Paid Calls (e.g., direct dial assistance), Emergency Call Assistance and Rate Quotes where these services are currently provided.

Brief Description of the Dates and Methods of Notice to All Affected Customers (47 C.F.R. § 63.71(b)(3)):

AT&T sent customer notification letters via U.S. mail as an attachment to each customer's monthly bill between September 28, 2015 and December 31, 2015. In addition, AT&T posted copies of its customer notifications in several locations on its website at http://serviceguide.att.com/ACS/ext/pcn.cfm?type=SN_STSI,

<http://serviceguide.att.com/service/library/ext/aslstate.cfm?state=RI>,

<http://www.att.com/gen/public-affairs?pid=9700>,

http://cpr.att.com/pdf/bsld/fc/inter_intl_res_cust_notice_trans.html, and

http://cpr.att.com/pdf/sbld/is/inter_res_cust_notice_trans.html.

In addition, beginning on October 10, 2015, when an AT&T customer uses one of the Operator Services included in this proposed discontinuance of service, an AT&T operator informs the customer of the proposed discontinuance, and provides a phone number where the customer can obtain additional information.

Copies of this Application are being sent, first class U.S. Mail, to the public utilities commissions and governors of the affected states and territories, and also to the Special Assistant for Telecommunications to the Secretary of Defense, as required by 63.71(a) of the Commission's rules.

Regulatory Classification of Carrier (47 C.F.R. § 63.71(b)(4)):

AT&T offers these services through affiliates that are considered dominant as well as other affiliates that are considered non-dominant. For ease of administration, AT&T consents to this application being reviewed pursuant to the Commission's processes that are applicable to dominant carriers.

Questions about this application may be addressed to David Talbott, AT&T Services, Inc., Assistant Vice-President – Federal Regulatory, 1120 20th Street, NW, Suite 1000, Washington, DC 20036, (202) 457-3039.

Conclusion:

The public convenience and necessity will not be adversely affected by the discontinuance of these services because other providers continue to provide operator

services, and the majority of the market has already replaced these services with other communications services and/or applications. AT&T respectfully requests that the Commission approve its Section 63.71 Application to discontinue the Operator Services discussed herein.

Respectfully submitted,
