Subject: Electric Rates and Charges

Re Business section Naples Daily News **FPL intends to request \$14 per month hike in electric rates.**

On September 2, 2015 FPL announced a \$2.50 a month rate decrease for 2016. Now 4 months later they are wanting it back plus \$11.50 more. I am not sure how they do their budgeting, but, when I worked for a northeast power company our projections were not so short sighted and misleading to the everyday common consumer. I would think they were aware of what they were planning for 2016 at the time they made their rate reduction.

I ask that the Commission look over FPL's rate request thoroughly, to be sure they know what they are asking for and how it will affect the public.

Respectfully,

Howard Koenig
