**Subject: Lake View Woods WWTF, Marion County, Florida
WWTF Permit Renewal**

Dear Mike:

We understand that the Lake View wastewater treatment facility is a 50,000-gpd extended aeration with effluent disposal to three percolation ponds in Marion County with permit no. FLA010709. The permit expires on February 28, 2017 and a complete permit application package needs to be submitted to the FDEP at least 180 days prior to expiration date. It takes approximately 8 to 12 weeks to complete the permit application package including execution of the permit application by the Owner and the Operator. In order to complete this assignment, we propose to provide you with the following scope of services:

1. One (1) site visit to observe WWTF.
2. Prepare an Updated Capacity Analysis Report.
3. Prepare an Operations and Maintenance Performance Report.
4. Prepare the Permit Applications.
5. Submit the Permit Application packages to the FDEP.

You will provide us with copies of the following: current residuals hauling and/or disposal contract(s), meter calibration(s), backflow preventer certification(s), existing Operation and Maintenance Manual and any other water quality records from the past three (3) years that we may need. You will also pay for all permit fees.

We will provide this scope of services for a lump sum fee of **\$2,500.00**, plus mail and delivery, which will be due and payable at the same time as the submittal of the permit application package. The scope of work does not include design services for correcting deficiencies; responding to requests for additional information, permit file reviews or meetings with the agencies to resolve outstanding issues. This proposal with the General Terms and Conditions is the total understanding between you and us and may only be modified in writing.

We appreciate the opportunity of working with you on this project and hope that you will consider Excel Engineering Consultants, LLC as an integral part of your team. We look forward to helping you create a quality project.

Sincerely,
Excel Engineering Consultants, LLC

Julian R. Coto, P.E.
Principal

Approved and accepted this 21 day of March, 2016.
