Elisabeth:

The Office of Public Counsel met with Florida Public Utilities Company in late April to discuss various concerns that we had regarding the costs included in the utility's Gas Reliability Infrastructure Program. We were satisfied with the majority of the discussion and at this time there are only a few de minimis costs that we do not plan to pursue. We will of course review future filings, but we are satisfied that Docket No. 150191-GU may be closed.
