Dear Commission & staff,

First, thank you for your service and vigilance in your duties to protect and defend the public's best interests. The PSC is one of the few safeguards we have left, it seems.

As was obvious in the public hearing June 16th in Brevard, and THANK YOU for your cross-examination in witness motive of testimony, there is no actual (not-bribed) support for the rate increase. FPL's mere request should indicate probable cause for an investigation into their duties as a quasi-state entity. There is no public need for the rate increase, only corporate need to expand their profit margin.

Thank you for your attention on this matter. There really is no sound or legitimate justification to permit this.

Respectfully,
Melissa Martin
