Tallahassee, FL 32399-0850

RE: Docket No. 150269-WS

Dear Commissioners,

I am asking you and the Public Service Commission staff to continue scrutinize all the documentation that Utilities Inc. of Florida will be submitting in regard to Docket No. 150269 since the PSC and the OPC staff have raised many questions and concerns on UIF rate request data.

As a Summertree community resident, I would like to restate my concerns regarding the UIF's failure to provide primary water quality back in 2005 – 2006 for seven of eight quarters. Over the past 25 years, UIF continually provided minimal customer services, increased rates and failed to adequately address our secondary water attributes. In Docket No. 150269, Document No. 02721-16 dated May 4, 2016, the Public Service Commission Staff sent a fourth data request to UIF regarding Iron and Color exceeding DEP secondary standards. Finally, Marty Friedman responded stating that they have used sequestrants and flushing to address these issues since 2012. Now the testing results for 2015 show that these measures did not resolve the issues, yet UIF has the audacity to file for another rate increases.

Even after the passage of the 2014 Florida Consumer Water Protection Act and a \$1M state grant in 2015 which greatly helped our community, Utilities Inc. of Florida filed for an indexing rate increase in October 2015 and a Limited Rate Proceeding on December 31, 2015, and on April 28, 2016 notified the Commission of their intent to file for a consolidated rate case with approximately \$30M in capital additions. The Summertree Water Alliance Taskforce has worked with Pasco County Commissioner Jack Mariano, Pasco Board of County Commissioners and Flip Mellinger, Asst. County Administrator to interconnect with Pasco County Utilities; a bulk water agreement between Pasco County Utilities and Utilities, Inc. of Florida will finalize this process.

As a Summertree resident, I have had enough and do not trust Utilities, Inc. of Florida. UIF has NOT willingly worked to fix our secondary water attributes or negotiate in good faith as required by the Docket No. 120209-WS, ORDER NO. PSC-14-0025-PAA -WS. Utilities Inc. of Florida's 25 years of minimal customer services and substandard secondary water product has impacted my quality of life and the value of our homes. UIF's unfair rate increase requests are bound to continue as this appears to be their corporate culture.

In conclusion, Utilities, Inc. of Florida is NOT entitled to a rate increase until they fix these unresolved issues.

Sincerely,

Signature:

Finally, Marty Friedman responded stating that they have used sequestrants and flushing to address these issues since 2012. Now the testing results for 2015 show that these measures did not resolve the issues, yet UIF has the audacity to file for another rate increases.

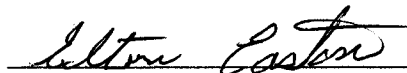

Even after the passage of the 2014 Florida Consumer Water Protection Act and a \$1M state grant in 2015 which greatly helped our community, Utilities Inc. of Florida filed for an indexing rate increase in October 2015 and a Limited Rate Proceeding on December 31, 2015, and on April 28, 2016 notified the Commission of their intent to file for a consolidated rate case with approximately \$30M in capital additions. The Summertree Water Alliance Taskforce has worked with Pasco County Commissioner Jack Mariano, Pasco Board of County Commissioners and Flip Mellinger, Asst. County Administrator to interconnect with Pasco County Utilities; a bulk water agreement between Pasco County Utilities and Utilities, Inc. of Florida will finalize this process.

As a Summertree resident, I have had enough and do not trust Utilities, Inc. of Florida. UIF has NOT willingly worked to fix our secondary water attributes or negotiate in good faith as required by the Docket No. 120209-WS, ORDER NO. PSC-14-0025-PAA -WS. Utilities Inc. of Florida's 25 years of minimal customer services and substandard secondary water product has impacted my quality of life and the value of our homes. UIF's unfair rate increase requests are bound to continue as this appears to be their corporate culture.

In conclusion, Utilities, Inc. of Florida is NOT entitled to a rate increase until they fix these unresolved issues.

Sincerely,

RE: Docket No. 150269-WS

Dear Commissioners,

I am asking you and the Public Service Commission staff to continue scrutinize all the documentation that Utilities Inc. of Florida will be submitting in regard to Docket No. 150269 since the PSC and the OPC staff have raised many questions and concerns on UIF rate request data.

As a Summertree community resident, I would like to restate my concerns regarding the UIF's failure to provide primary water quality back in 2005 – 2006 for seven of eight quarters. Over the past 25 years, UIF continually provided minimal customer services, increased rates and failed to adequately address our secondary water attributes. In Docket No. 150269, Document No. 02721-16 dated May 4, 2016, the Public Service Commission Staff sent a fourth data request to UIF regarding Iron and Color exceeding DEP secondary standards. Finally, Marty Friedman responded stating that they have used sequestrants and flushing to address these issues since 2012. Now the testing results for 2015 show that these measures did not resolve the issues, yet UIF has the audacity to file for another rate increases.

Even after the passage of the 2014 Florida Consumer Water Protection Act and a \$1M state grant in 2015 which greatly helped our community, Utilities Inc. of Florida filed for an indexing rate increase in October 2015 and a Limited Rate Proceeding on December 31, 2015, and on April 28, 2016 notified the Commission of their intent to file for a consolidated rate case with approximately \$30M in capital additions. As a Summertree community resident, I would like to restate my concerns regarding the UIF's failure to provide primary water quality back in 2005 – 2006 for seven of eight quarters. Over the past 25 years, UIF continually provided minimal customer services, increased rates and failed to adequately address our secondary water attributes. In Docket No. 150269, Document No. 02721-16 dated May 4, 2016, the Public Service Commission Staff sent a fourth data request to UIF regarding Iron and Color exceeding DEP secondary standards. Finally, Marty Friedman responded stating that they have used sequestrants and flushing to address these issues since 2012. Now the testing results for 2015 show that these measures did not resolve the issues, yet UIF has the audacity to file for another rate increases.

Even after the passage of the 2014 Florida Consumer Water Protection Act and a \$1M state grant in 2015 which greatly helped our community, Utilities Inc. of Florida filed for an indexing rate increase in October 2015 and a Limited Rate Proceeding on December 31, 2015, and on April 28, 2016 notified the Commission of their intent to file for a consolidated rate case with approximately \$30M in capital additions. The Summertree Water Alliance Taskforce has worked with Pasco County Commissioner Jack Mariano, Pasco Board of County Commissioners and Flip Mellinger, Asst. County Administrator to interconnect with Pasco County Utilities; a bulk water agreement between Pasco County Utilities and Utilities, Inc. of Florida will finalize this process.

As a Summertree resident, I have had enough and do not trust Utilities, Inc. of Florida. UIF has NOT willingly worked to fix our secondary water attributes or negotiate in good faith as required by the Docket No. 120209-WS, ORDER NO. PSC-14-0025-PAA -WS. Utilities Inc. of Florida's 25 years of minimal customer services and substandard secondary water product has impacted my quality of life and the value of our homes. UIF's unfair rate increase requests are bound to continue as this appears to be their corporate culture.

In conclusion, Utilities, Inc. of Florida is NOT entitled to a rate increase until they fix these unresolved issues.

Sincerely,

RE: Docket No. 150269-WS

Dear Commissioners,

I am asking you and the Public Service Commission staff to continue scrutinize all the documentation that Utilities Inc. of Florida will be submitting in regard to Docket No. 150269 since the PSC and the OPC staff

have raised many questions and concerns on UIF rate request data.

As a Summertree community resident, I would like to restate my concerns regarding the UIF's failure to provide primary water quality back in 2005 – 2006 for seven of eight quarters. Over the past 25 years, UIF continually provided minimal customer services, increased rates and failed to adequately address our secondary water attributes. In Docket No. 150269, Document No. 02721-16 dated May 4, 2016, the Public Service Commission Staff sent a fourth data request to UIF regarding Iron and Color exceeding DEP secondary standards. Finally, Marty Friedman responded stating that they have used sequestrants and flushing to address these issues since 2012. Now the testing results for 2015 show that these measures did not resolve the issues, yet UIF has the audacity to file for another rate increases.

Even after the passage of the 2014 Florida Consumer Water Protection Act and a \$1M state grant in 2015 which greatly helped our community, Utilities Inc. of Florida filed for an indexing rate increase in October 2015 and a Limited Rate Proceeding on December 31, 2015, and on April 28, 2016 notified the Commission of their intent to file for a consolidated rate case with approximately \$30M in capital additions. The Summertree Water Alliance Taskforce has worked with Pasco County Commissioner Jack Mariano, Pasco Board of County Commissioners and Flip Mellinger, Asst. County Administrator to interconnect with Pasco County Utilities; a bulk water agreement between Pasco County Utilities and Utilities, Inc. of Florida will finalize this process.

As a Summertree resident, I have had enough and do not trust Utilities, Inc. of Florida. UIF has NOT willingly worked to fix our secondary water attributes or negotiate in good faith as required by the Docket No. 120209-WS, ORDER NO. PSC-14-0025-PAA -WS. Utilities Inc. of Florida's 25 years of minimal customer services and substandard secondary water product has impacted my quality of life and the value of our homes. UIF's unfair rate increase requests are bound to continue as this appears to be their corporate culture.

In conclusion, Utilities, Inc. of Florida is NOT entitled to a rate increase until they fix these unresolved issues.

Sincerely, 

Signature:

RE: Docket No. 150269-WS

Dear Commissioners,

I am asking you and the Public Service Commission staff to continue scrutinize all the documentation that Utilities Inc. of Florida will be submitting in regard to Docket No. 150269 since the PSC and the OPC staff have raised many questions and concerns on UIF rate request data.

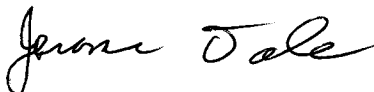

As a Summertree community resident, I would like to restate my concerns regarding the UIF's failure to provide primary water quality back in 2005 – 2006 for seven of eight quarters. Over the past 25 years, UIF continually provided minimal customer services, increased rates and failed to adequately address our secondary water attributes. In Docket No. 150269, Document No. 02721-16 dated May 4, 2016, the Public Service Commission Staff sent a fourth data request to UIF regarding Iron and Color exceeding DEP secondary standards. Finally, Marty Friedman responded stating that they have used sequestrants and flushing to address these issues since 2012. Now the testing results for 2015 show that these measures did not resolve the issues, yet UIF has the audacity to file for another rate increases.

Even after the passage of the 2014 Florida Consumer Water Protection Act and a \$1M state grant in 2015 which greatly helped our community, Utilities Inc. of Florida filed for an indexing rate increase in October 2015 and a Limited Rate Proceeding on December 31, 2015, and on April 28, 2016 notified the Commission of their intent to file for a consolidated rate case with approximately \$30M in capital additions. The Summertree Water Alliance Taskforce has worked with Pasco County Commissioner Jack Mariano, Pasco Board of County Commissioners and Flip Mellinger, Asst. County Administrator to interconnect with Pasco County Utilities; a bulk water agreement between Pasco County Utilities and Utilities, Inc. of Florida will finalize this process.

As a Summertree resident, I have had enough and do not trust Utilities, Inc. of Florida. UIF has NOT willingly worked to fix our secondary water attributes or negotiate in good faith as required by the Docket No. 120209-WS, ORDER NO. PSC-14-0025-PAA -WS. Utilities Inc. of Florida's 25 years of minimal customer services and substandard secondary water product has impacted my quality of life and the value of our homes. UIF's unfair rate increase requests are bound to continue as this appears to be their corporate culture.

In conclusion, Utilities, Inc. of Florida is NOT entitled to a rate increase until they fix these unresolved issues.

Sincerely,

Signature:

Summertree Resident Letter

May 1, 2016

The Honorable Rick Scott, Governor
400 South Monroe Street
Tallahassee, FL 32399

RE: Utilities, Inc. of Florida – Docket No. 150269-WS

Dear Governor Scott,

I agree with the statements made in the cover letter from the Summertree Water Alliance Taskforce on my behalf. We are asking you to support our cause by writing a letter to CORIX, the Canadian holding company for Utilities, Inc. of Florida, to encourage UIF to negotiate an equitable sale to Pasco County Utilities.

After 25 years of failed service and unjustified rate increases, Summertree residents want Utilities, Inc. of Florida out of our community permanently. Our community would like you to be aware of our concerns regarding the poor service, poor secondary water quality, perpetual rate increases, and Summertree's loss of confidence in Utilities, Inc. of Florida to continue operating our Summertree system.

Our Taskforce pursued legislation with the help of State Senator Wilton Simpson and State Representative Richard Corcoran to pass the Consumer Water Protection Act (Senate Bill 272) which you signed into law on June 13, 2014 addressing secondary water quality attributes. In 2015, Senator Simpson and Representative Corcoran secured a \$1M state grant to help reduce the costs for impact fees, engineering and construction to interconnect with Pasco County Utilities. Governor Scott, Summertree greatly appreciated your signing the 2014 Consumer Water Protection Act and a \$1M state grant in 2015 which greatly helped our community.

The Taskforce is working with Pasco County Commissioner Jack Mariano, the Pasco Board of County Commissioners and Pasco County Utilities to finalize an interconnection to Pasco Utilities for our bulk water supply. Summertree is continuing to work with Pasco County Utilities to pursue a direct acquisition of our Summertree system from Utilities, Inc. of Florida.

The Summertree residents have had enough. We do not trust Utilities, Inc. of Florida; UIF have a NOT worked to fix our water problems. UIF has provided minimal customer services yet unfair rate increases are bound to continue that is why we want OUT!

Governor Scott, the Summertree community would appreciate your support to help end this injustice by writing a letter to CORIX 's President and CEO, Scott A. Thomson, Corix Corporate Offices – CANADA to encourage Utilities, Inc. of Florida to negotiate an equitable sale to Pasco County Utilities. We do not trust Utilities, Inc. of Florida to continue managing our Summertree system.

Sincerely,

RE: Docket No. 150269-WS

Dear Commissioners,

I am asking you and the Public Service Commission staff to continue scrutinize all the documentation that Utilities Inc. of Florida will be submitting in regard to Docket No. 150269 since the PSC and the OPC staff have raised many questions and concerns on UIF rate request data.

As a Summertree community resident, I would like to restate my concerns regarding the UIF's failure to provide primary water quality back in 2005 – 2006 for seven of eight quarters. Over the past 25 years, UIF continually provided minimal customer services, increased rates and failed to adequately address our secondary water attributes. In Docket No. 150269, Document No. 02721-16 dated May 4, 2016, the Public Service Commission Staff sent a fourth data request to UIF regarding Iron and Color exceeding DEP secondary standards. Finally, Marty Friedman responded stating that they have used sequestrants and flushing to address these issues since 2012. Now the testing results for 2015 show that these measures did not resolve the issues, yet UIF has the audacity to file for another rate increases.

Even after the passage of the 2014 Florida Consumer Water Protection Act and a \$1M state grant in 2015 which greatly helped our community, Utilities Inc. of Florida filed for an indexing rate increase in October 2015 and a Limited Rate Proceeding on December 31, 2015, and on April 28, 2016 notified the Commission of their intent to file for a consolidated rate case with approximately \$30M in capital additions. The Summertree Water Alliance Taskforce has worked with Pasco County Commissioner Jack Mariano, Pasco Board of County Commissioners and Flip Mellinger, Asst. County Administrator to interconnect with Pasco County Utilities; a bulk water agreement between Pasco County Utilities and Utilities, Inc. of Florida will finalize this process.

As a Summertree resident, I have had enough and do not trust Utilities, Inc. of Florida. UIF has NOT willingly worked to fix our secondary water attributes or negotiate in good faith as required by the Docket No. 120209-WS, ORDER NO. PSC-14-0025-PAA -WS. Utilities Inc. of Florida's 25 years of minimal customer services and substandard secondary water product has impacted my quality of life and the value of our homes. UIF's unfair rate increase requests are bound to continue as this appears to be their corporate culture.

In conclusion, Utilities, Inc. of Florida is NOT entitled to a rate increase until they fix these unresolved issues.

Sincerely,

Signature:
