Regarding docket number 160021-E1

When you're considering this rate increase in order to generate higher profits for FP&L, please keep in mind that those profits come at our expense, and that includes the senior community, many of whom cannot afford their medication.

We have no option of investing in any other power company, we have no say in how many millions of dollars they pay their executives, and we have no accurate accounting for the full scale of political contributions they make each year to influence those in powers to keep FPL in its unchallenged, powerful position in this state.

\$960 million of FPL's rate increase will go into FPL investors' pockets. None of those funds will go to service enhancements, disaster preparedness, or energy innovation.

According to their own filing with the PSC, FPL is on target to make \$1.6B in profit in 2017 without the requested rate increase.

Please decline the rate hike.

Thank you,
Steve Reinertsen
