Subject: FPL Rate Increase

Dear Ms. Stauffer,

It is my understanding that the proposed rate increase by FPL of \$1.34B, does not go towards service enhancements, disaster preparedness, or energy innovation. But, to feed the profit of the company and its shareholders.

As a consumer, I understand the need for keeping quality service and product. But, I see this request as an avenue of lining the profits of the company and its shareholders. Please know, I am a shareholder, but feel this is not been done in the interest of the consumers.

Robert (Bob) Rogers
