Subject: Increase in the rates of electricity

Dear Public Service Commission Clerk

I do not see why a company which is making a substantial profit should also raise the rates it charges its clients.

1. \$960 million of FPL's rate increase will go into FPL investors' pockets. None of those funds will go to service enhancements, disaster preparedness, or energy innovation.
2. According to their own filing with the PSC, FPL is on target to make \$1.6B in profit in 2017 without the requested rate increase.

As a resident of Sarasota, I appreciate you not granting this raise.

Regards,
