Subject: docket # 160021-E1 FPL rate increase

As you consider the proposal from FPL to raise rates, please consider the impact to Florida resident lives. Things are already tough financially and we are counting on our leaders that represent us in these matters, especially where we have no other power options, to do the right thing and control rates. Cost of living increases every year, while salaries remain stagnant for most of the population. Do the research needed on this request. What are they doing with the money that will benefit it's customers in this state? The company is traded publicly. Is this another move to keep shareholders happy at the expense of people with no other choice for their power needs?

Time to step up and protect the people you represent, the little guy, against the continued corporate greed movement.

Sincerely,
Jeffrey Lyle
Port St Lucie resident trying to stay afloat.
