**Subject:** FP&L Rate Increase

To:

Ms. Carlotta Stauffer  
Commission Clerk  
Florida Public Service Commission  
2540 Shumard Oak Blvd.  
Tallahassee, FL 32399-0850.

In Reference to: Docket number: 160021-E1

My name is John Sambataro. My wife Cathe and I live in Broward County, Florida at 3820 NW 97th Avenue Hollywood, Florida 33024

I am writing to express my opposition for any rate increases for FP&L. Companies that are projected to have a profit of over 1 BILLION DOLLARS in 2017 as FP&L is, should not have rate hikes so that the corporate investors can make more money on consumers. As a state, Florida (The Sunshine State) is sooo behind when it comes to solar and wind energy than other states in the country. With that being said, if an increase to our base rate is not going to solve that problem, then it should NOT be approved. We as a country and a state should be thinking about how to create energy that will lower our rates NOT INCREASE THEM. I say until FP&L can show us a plan to use wind and solar in the state of Florida, then no increase should be given to a power company that is making a profit and not showing a loss.

Sincerely,

John Sambataro
