Subject: FPL RATE INCREASE

Please tell me that FPL is joking!!!!!! I can not afford my FPL bill now, how can I afford yet a 23-25% rate increase. I am a household of 2 - My life partner has end-stage kidney failure!!!! and the Air conditioning is a must. He was getting SSI in the amount of \$487.00 per month which barely covers his out of pocket expenses for medications, does not even touch the out of pocket expense for 7 different Doctors and no food assistance. How much more do you and FPL expect 1 person age 65 to be able to afford, when the stock holders and share holders keep getting richer on the backs of the poor, the broke and the elderly in this county, state and country.
