Subject: FPL proposed rate hike.

Ms. Carlotta Stauffer
Commission Clerk
Florida Public Service Commission

"FPL is asking for money to get more profit for their shareholders by asking for rate increases from current customers to support expansion of future of facilities that will increase the value of the utility and profits that should be the responsibility of the shareholders who must take the risks. The current users of FPL will never live long enough to use the proposed increased power production. This is a scheme that the current Public Service Commission must not be associated with. It appears to be in collusion with FPL against the rights of the private citizens.
