Subject: FP&L rate increase request

Regarding Docket Number 160021-E1:

Electricity is a necessity not a luxury, therefore Florida Power & Light (FP&L) rates should be kept to a minimum so Florida residents don't have to pay more to increase FP&L's profit and shareholders ROE. This proposed rate increase especially would hurt the large percentage of Florida residents who are on fixed and poverty level income, which could result in lowering their quality of life.
