**Cc:** Janet Brunson; Consumer Correspondence  
**Subject:** FW: Docket #160021-E1

Thank you for contacting the Florida Public Service Commission (PSC) about Florida Power & Light Company's (FPL) rate petition. To give Commissioners and staff an opportunity to review your comments, your correspondence is included in the file for Docket No.160021-E1.

As you know, the PSC customer service hearings were held in June in FPL's service territory for Commissioners to hear directly from customers about the utility's rate request and service. All customer comments during the hearings and all correspondence will be reviewed and considered when PSC staff prepares its recommendation to the Commissioners on FPL's proposed rates.

The PSC's evidentiary hearing on FPL's rate case will be in Tallahassee. Witnesses from the utility, intervenors, Commission staff, and the Public Counsel, who represents customers, will present testimony and exhibits and be cross-examined by the Commissioners and other parties. Commissioners will examine FPL's need for a rate increase, its existing and proposed rate structure, and its ability to provide safe and reliable service.

Commissioners are charged with making sure that Florida's utility companies fulfill their service obligation. The PSC will ensure that final customer rates reflect only those costs that are prudent and necessary for FPL to deliver quality electric service to your home or business. Any proposed rate adjustment is requested to begin in January 2017.

If you have additional questions or need further assistance, please call 1-800-342-3552. If you want updated case information, visit the PSC's website, [www.floridapsc.com](http://www.floridapsc.com) and click on the Clerk's Office tab, then hit Dockets and type in case number 160021.

Sincerely,

Bev DeMello

We have no option of investing in any other power company, we have no say in how many millions of dollars they pay their C-Suite executives, and we have no accurate accounting for the full scale of political contributions they make each year to influence those in powers to keep FPL in its unchallenged, powerful position in this state.

They're asking for money to get more profit for their shareholders that are out of state as well as in state. We have seniors that cannot afford to buy their medication, and now with this rate increase, it's not only a 23 percent, those on a fixed income may have to not eat or forego medications to be able to pay their bills. This increase is totally unnecessary. FPL ads on TV brag about "reducing" rates and being cheaper than any other. We don't have a choice of any other service provider.
