Raise Your Voice Before They Raise Your Rates!

Florida Power & Light (FPL) is asking the state Public Service Commission for a \$1.34 billion increase in electric rates. AARP believes the level of this proposed rate increase isn't justified.

FPL is already earning more than 9 percent returns in a business that is protected from competition by state law. Now they want returns of 11.5 percent.

Meanwhile, many Florida residential rate-payers struggle to earn 2 percent on their savings and investments. For consumers, the proposed rate increase means an annual increase of \$150 to \$240 a year within four years.

AARP is fighting to save you money on your utility bills so you can keep your hard-earned money in your pocket.

Sign our petition TODAY to tell the Florida Public Service Commission that Florida Power & Light's proposed rate increase is not justified.
