**Subject:** FPL request for rate increase

To: Public Services Commissioners

FPL's request for an increase in its rates is unconscionable. Besides the fact the they really don't "need" the increase when their annual profits are over one and a quarter billion dollars; the impact that the increase would have across the board on the citizens of this state is enormous. This state ranks 44th in median household incomes ( that is 6th from the bottom). Do you really think that the citizens, whose concerns you are supposed to represent and protect, can afford a 23% increase in something that they can't live without??

In this age of the public's disillusionment with government and governmental agencies and commissions, please show the citizens of this state that your commission is NOT merely a rubberstamp for big business.
