RE: DOCUMENT # 160021-E1
PLEASE DENY

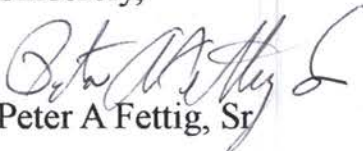

Ms Stauffer,

According to the AARP, Florida Power and Light is requesting what would amount to a 23% base rate hike in electric rates for consumers in order to achieve an 11.2% to 12.5% ROI for investors. This is GROSSLY unfair, and should not be allowed.

As an individual on a fixed income with no increase on my social security, it will be a serious blow for me – and all Floridians – if the PSC grants this increase. The PSC should protect the public from such unfair requests and censure the FPL for even submitting the proposal.

Thank you.

Sincerely,

Peter A Fettig, Sr
