Subject: FPL

When is there enough PROFIT? NEVER. If the cost of producing electricity goes up, for some reason, then it has to be solved. But MORE PROFIT IS ANOTHER STORY!!!.If the contentions are for better service, prove it. Explain it to me. I have 2 degrees from New York University's College of Engineering so i think i can understand the "improvements". . Obviously what FPL needs is competition. Until that happens, if ever, increased PROFIT is just not A REQUIREMENT.

Harold Crane
