It is unfathomable that a large corporation like Florida Power and Light want to raise rates with no concern for the seniors and multiple lower income customers. I am one of those seniors that weigh whether I can pay my utility bill or buy my medication. Is there no end to what large corporations will do the fill the pockets of "fat-cat" share holders? Corporations like Florida Power and Light are part of the direction our nation has taken. That is the reason we have politicians like Bernie Sanders that want to "take from the rich". I believe in a democracy. I believe we should have the right to work for a fair wage and prosper in this free land that was bought by our brave men and women with their lives and blood.

I strongly disapprove the request of Florida Power and Light to raise rates. My name is Roberta Meeks. I am a widow, trying to survive on Social Security. I live at 327 Harry Avenue South, Lehigh Acres, Florida 33973. Thank you for the opportunity to participate in this.
