Subject: docket number 160021-E1

I am a customer of FPL and want this email included in the testimony regarding the rate increase requested by FPL, **docket number 160021-E1**.

The proposed rate increase is too high and not justified. I am asking you to deny the Florida Power & Light rate increase request. This rate increase offers NO value to the consumer. This increase will serve one purpose, to line the pockets of FPL executives and offer returns to investors. Note, the end-user consumer gets ZERO benefits of this increase. There will be ZERO investment in infrastructure, ZERO investment in storm preparations, ZERO investments in green energy initiatives, ZERO for the consumer!!
Per the FPL filing:

1. \$960 million of FPL's rate increase will go into FPL investors' pockets. None of those funds will go to service enhancements, disaster preparedness, or energy innovation.
2. According to their own filing with the PSC, FPL is on target to make \$1.6B in profit in 2017 without the requested rate increase.
