Docket #: 160021-E1

Public Service Commission Clerk,

It is appalling that FPL would request \$1.34 billion increase in base rates for the sole purpose of corporate PROFIT.

\$960 million of FPL's rate increase will go into FPL investors' pockets. None of those funds will go to service enhancements, disaster preparedness, or energy innovation.

According to their own filing with the PSC, FPL is on target to make \$1.6B in profit in 2017 without the requested rate increase.

We have no option for getting our power from other power companies. We have no say in how many millions of dollars FPL pays their C-Suite executives. We have no accurate accounting for the full scale of political contributions FPL makes each year to influence those in powers to keep FPL in its unchallenged, powerful position in this state. This increase should be considered illegal!

Sincerely,

Barbara Goransson
