Subject: docket #160021-E1

PSC Clerk:

This unwarranted increase by FPL will be a further hardship for us, making the choice between medicine, food and electric bill is very hard. Not only will this effect those on fixed income, it will place a burden on those young people starting out with outstanding student loans and those middle class with children. The snow birds that Florida depends on for winter income will be faced with increased rent which may prevent them from spending their winters here. The vacation families will be met with higher room/condo rentals that may send them elsewhere. Please take this all into consideration when making your decision.
