**Subject:** FPL Increase

To Whom It May Concern:

My husband and I are on a very fixed and limited income since retiring. I am 70 and he is 69. We cannot afford FPL to raise their rates. Especially considering how often there is a power outage, whether it is for 2 seconds or 10 minutes, we have to deal with the TV rebooting, etc. It is very disturbing to us that these companies can do what they want when they want with no vote from us. It is just like what we deal with in our government. Whatever fills their pocket books is what happens. Never "for the people", always for the already wealthy who just want more.

When we were told we would be getting city sewer put in, at least 100 or more of us went to the Water Department to hear what they had to say and to voice our opinions. The gal that was sitting in the office told us they needed money for the employees retirement fund and for an increase in health care costs. It is always about big business.
